THURSDAY, JULY 22, 1907.

NOTES AND COMMENTS.

In view of the wonderful discovery of gold in the Yukon district, it is expected that Congress will at once rally the treaty line boundary line between Canada and Alaska, and dealing in whose territory the rich gold deposits lie. Canada is already quite satisfied in the matter.

"Noxious weeds destruction boards" are to be established in the country districts of New South Wales to enforce the new law compelling owners of land to root out sweet briar, Balthasar burr, star thistle, etc., and such other plants as the Government may from time to time declare noxious.

The elections to the legislature of Prince Edward Island take place to-day and are for some reason looked forward to with more than usual interest by the people of the Dominion generally, with a view to the curiosity more than anything else as to whether the unbroken line of Liberal successes in general elections is to be continued.

The Toronto Telegram hints that the Provincial revenue from Crown Lands, etc., this year will be \$1,600,000 instead of \$700,000, the amount estimated. This is due, it says, to the mining boom in Northwestern Ontario. The total revenue last year was \$925,000, but there were some large timber sales which increased the receipts. Mr. Hardy is feeling good over the prospect of a surplus.

The United States have restored the \$300 duty on lumber. By legislation passed at the last session of the Dominion Parliament, power was given to the Governor-General-in-Council to declare an export duty not exceeding \$3 per thousand on Canadian sawlogs and pulp wood in consideration of the action of the Republican conference in regard to the lumber schedule. Will Canada now retaliate?

It would be difficult to believe one-half that is told about the marvellous Klondike region, its climate, its mountains, or its wealth, if the man who are returning were not bringing with them such tangible proofs of the truth of the most improbable part of their story. Discrepancies in the discovery in new gold mining regions with bewildering rapidity lately, and it is an interesting fact that the latest and greatest finds are, though far apart, all in Canada.

A dispatch from Athens states on reliable authority that the Powers have fixed the indemnity to be paid to Turkey by Greece at £4,000,000, and have accepted a compromise giving a more limited line of frontier. Turkey and Greece have been left to settle the question of the capitulations between themselves. Tewfik Pasha, the Turkish Foreign Minister, has informed the Ambassadors that the Sultan has agreed to the principle of the demands of the Powers, and was prepared to accept their views on the peace conditions.

In many of the States some but a citizen of the United States can hold a mining license, but here the Canadian Government issues licenses to any citizen of the world. Whether, under the present regime of retaliation and reprisal, licenses should be confined to British subjects is a question which may be considered. If public opinion were expressed in favor of a royalty of 10, 15 or 20 per cent. on all the gold taken away from the Canadian streams in the Yukon country, the Government would doubtless be largely guided by it.

Here is the suggestion which School Boards might profitably adopt.—"By direction of Ontario Board of Education, boys in the public schools are asked to sign, of their own free will, a pledge to abstain from the use of tobacco during their school days, with the proviso that they can be released from this pledge at any time on a personal request. The teachers report that the plan has worked well, that very many of the boys have signed the pledge, and that keeping it has come to be regarded as a matter of honor. Better scholarship, better morals, and more cleanliness habits are among the direct results of the movement."

Henry Clow, the well-known New York financier, looks for high prices as well as good crops. He says Europe will soon be buying in large quantities, and instead of Argentina, India and Australia being exporters of wheat, as heretofore, and in consequence serious competitors, they are likely to import wheat from the United States last year amounted to 147,000,000 bushels. Appearance indicate that a much larger quantity will be required from the present crop. This insures a remunerative price for the product of this year and prosperity to the farmer. Canada will be in on the ground floor in anything of that kind.

This is a good time to talk up Canada First. Everything about our country is on the right side. We seem to have more gold than any other place. If that is so let us get it out for ourselves. Let us boom our own country. We would like to have preferential trade with England, and we hope to get it. But in the meantime, let us trade, cut our own goods. Why should we be slow to work our own mines when Yankees are rushing over to grab them? Times are on the mend. The crops promise a fine yield. Business with our neighbors is also mendacious, and what benefits them must also benefit us. Let us get right down to business, show more confidence in ourselves, in our country, and we will come out at the top of the heap. Canada First is the word at present.—World.

A WELL-EARNED REST.
Deputy Postmaster-General White Superannuated After Fifty-one Years' Service.

OTAWA, Ont., July 21.—Lieutenant-Colonel White, Deputy Postmaster-General, has been superannuated after fifty-one years of service, and the Imperial Postmaster-General and partly under the Canadian. Dr. Robert Miller, Controller of Accounts, has been appointed Deputy Postmaster-General.

YUKON'S GOLDEN STORE.

Millions Have Already Been Mined and Yet There's Millions More.

CANADA'S RICH POSSESSION.

SEATTLE, Wash., July 19.—The excitement about the great gold strikes in the valley of the Canadian Yukon, which has been known to the world for many years, has been increased by the arrival of the steamship *Portland* from St. Michael, Alaska. The tales that had been told heretofore about rich strikes pale and nobility when compared with the reports brought back yesterday. The steamship arrived shortly after midnight and within two hours it was known that she carried a score of prospectors who had struck it rich, and who declared that the gold mines of the States were poverty hoards in comparison to the wealth of the Klondike.

More than \$1,000,000 in gold dust was brought down from Dawson City, and the surrounding claims. The miners who were aboard the boat say that enormous quantities of the precious metal are being hoarded in the camp, and that the lucky prospectors are not telling of half their wealth. New claims are being worked, and the rush to Dawson City is so great that sufficient food cannot be transported. Scores of new finds are in everybody's mouth throughout the valley, and the men who arrived this morning are telling tales that make the brains of the listeners swim.

The *Portland* brings more than a ton of solid gold and eighty-six passengers. In the captain's cabin are three chests and a large safe filled with the precious nuggets. Most of the metal was taken out of the metal was taken out of the ground in less than three months of last winter. The nuggets range in size from a pea to a guinea egg. Of the sixty-eight miners aboard hardly a man has less than \$700, and one or two have more than \$100,000 in dust.

A detachment of mounted police of the Northwest territory, which passed through Seattle on their way to the Klondike gold region two years ago were among those who struck it rich. Five of the twenty guards returned on the *Portland* with gold amounting to \$200,000. The other fifteen remained in Alaska to engage in mining. The country is enormously rich. The present gold diggings are only a very small part of it, and there is little doubt that there are millions only waiting for the miners to come and dig it out.

OTAWA, July 20.—The reports from the Yukon country of the enormous richness of the placer gold deposits in the Klondike district have moved the government to consider what steps should be taken to protect the interests of Canada. Whatever dispute there may be as to the exact boundary line between Canada and Alaska, there is no question at all about the Klondike gold fields being altogether and clearly in Canada. This being the case, the question arises whether Americans and other foreigners should be allowed to come in there and take away millions of dollars, without leaving anything in the country or contributing anything to the public revenue.

THE CROPS IN CANADA.

Largest We Have Had for Years and Higher Prices.
Referring to the crop prospects for the present year, the *Globe* says:—Present prospects indicate the largest crops of wheat and coarse grains with which the country has ever been blessed. The offering of cutting of wheat has already begun, and the harvest will, in all probability, be general within a week. Wheat cutting is at present confined mostly to the early districts along the Lake Erie shore. The grain is very satisfactory. The straw is good, and the berry, according to reports received here, is well developed and plump. Some new wheat was offered in this market yesterday, and buyers quoted 63 to 64, on the Michigan Central for it, or equal to 64 and 65, on the Grand Trunk and Canadian Pacific wheat. The offering of new crop wheat this year is no earlier than 1896, but the opening price for the new wheat is five cents per bushel higher than it was on last year's crop.

TRADE OF THE DOMINION.

The Year Just Closed Has Been the Best in History Except 1893.
OTAWA, July 19.—The aggregate trade of Canada for the past year is next to the largest on record. This is shown by the returns of the customs department. The total aggregate trade on the basis of goods entered for consumption and exported amounted to \$244,879,000, compared with \$228,728,000, the corresponding returns in 1896, making an increase for 1897 of \$16,151,000. The figures are:

1897	Exports	Imports
1896	\$136,601,000	\$111,227,000
1897	\$152,778,000	\$112,101,000

The imports for the month of June amounted to \$8,969,000, against \$8,093,000 last year, and the exports to \$10,827,000, against \$11,951,000 in 1896.
The duty collected for the month was \$1,501,000, as against \$1,172,000 in 1896. In 1893 was the largest total trade recorded for Canada, namely, \$247,698,000. The imports were \$129,074,268, the exports \$118,623,732.

FAST RUN ON THE G. T. R.

TORONTO, July 19.—A Grand Trunk special train with the passengers from the Boston express made a remarkably fast run from Montreal to Sarnia. The train was running to make the connection with the Grand Trunk Chicago express, and left Montreal at 12:10 midnight on Friday. Toronto was reached at 9:05 a. m. on Friday, and Sarnia at 12:18 in the afternoon. The entire distance, 603 miles, was covered in eleven hours fifty-eight minutes—the time between the two points being out down by two hours and seventeen minutes.

COLLAPSE OF A BARN FRAME.

Two Men Badly Hurt, and a Number More or Less Injured.
PORT ELLIOT, July 20.—A serious accident occurred last evening at a barn raising on the farm of Angus McPhillip, about two miles from this place. As the last beam was being put up one of the men named Jackson Crowe, using a wrong rope, threw part of the timber against the frame work and the whole frame fell over, demolishing the structure and seriously injuring himself and Jacob Schuman. All the other men were more or less injured.

GUELPH PRESBYTERY.

The Guelph Presbytery met on Tuesday in St. Andrew's Church, Guelph.
The resignation of Rev. D. Strachan Rockwood, was accepted; to take place after the first Sabbath of August. Rev. H. Macpherson was appointed Moderator of Session during the vacancy.
Rev. D. Strachan, of Hespeler, has accepted the call to Brockville.

A GREAT CONVENTION.

The Epworth League of America Sent Over 20,000 Delegates to Toronto.

The third International Epworth League Convention held in Toronto last week was the greatest of its kind ever held in the province. It was a success in every respect. The attendance reached between 20,000 and 30,000 and included representatives from nearly every province, state and territory in North America.
Toronto's welcome was most hospitable and cordial and the delegates felt in love with the city and province.
The meetings of the convention were held Thursday, Friday, Saturday and Sunday. Saturday was practically the last day and the proceedings all through were a fitting climax to so enthusiastic a convention. That much good has been done there is not the slightest doubt. It was possible, many of the visitors felt more enthusiastic and more fully consecrated than before. Throughout the entire convention the meetings were marked by great earnestness.
Never before were the churches in Toronto so crowded with strangers. No matter when you went on Sunday or what church you attended, they were there in scores and hundreds. Of course the big churches had attractions for the delegates that some of the smaller edifices had not; but the former in many cases were so full before the time for commencing the services that the doors had to be closed. The pastors of Toronto's Methodist, Baptist and Presbyterian churches did not preach. Their places were taken by delegates to the great convention.
Eloquent speakers and very clever men delivered sermons to Toronto's church-going population and the latter appreciated what they said. In nearly every instance the speakers referred to the kind treatment they received at the hands of Canadians and to the beautiful city. Some clever men delivered sermons to Toronto's church-going population and the latter appreciated what they said. In nearly every instance the speakers referred to the kind treatment they received at the hands of Canadians and to the beautiful city. Some clever men delivered sermons to Toronto's church-going population and the latter appreciated what they said. In nearly every instance the speakers referred to the kind treatment they received at the hands of Canadians and to the beautiful city.

A PIONEER'S STORY.

Following an Attack of La Grippe He Suffered Day and Night for Four Years—Well Known Clergyman Endorses His Statement.

From the *Western Outlook*.
Among the residents of Kingsville, Ont., none is held in higher esteem than Mr. Jas. Lovelace, who is known not only in town, but to many throughout Essex county. What a champion of the *Dr. Williams' Pink Pills* upon him and asked him to verify, certain statements as to his cure from a painful malady after several years of suffering, he cheerfully did so. Mr. Lovelace said:—
"Four years ago I had a bad attack of la grippe, which left me with a pain in the pit of my stomach. After trying household remedies and getting no relief, I consulted a doctor, but after a long treat which did not help me, I became discouraged and concluded there was no relief for me. Night and day for four years that pain never left me. At times it was so bad that I had to give up work. I had frequently read of Dr. Williams' Pink Pills, and perhaps as much out of curiosity as with any hope that they would help me. I bought a box. I followed the directions carefully, and by the time I had taken five or six boxes, I was cured. I was so glad that I was getting relief, I could not understand how, after all the medicines I had previously tried had failed, this one box of Dr. Williams' Pink Pills should help me. I now cheerfully continue their use and by the time I had taken five or six boxes, I was cured. I was so glad that I was getting relief, I could not understand how, after all the medicines I had previously tried had failed, this one box of Dr. Williams' Pink Pills should help me. I now cheerfully continue their use and by the time I had taken five or six boxes, I was cured. I was so glad that I was getting relief, I could not understand how, after all the medicines I had previously tried had failed, this one box of Dr. Williams' Pink Pills should help me. I now cheerfully continue their use and by the time I had taken five or six boxes, I was cured. I was so glad that I was getting relief, I could not understand how, after all the medicines I had previously tried had failed, this one box of Dr. Williams' Pink Pills should help me. I now cheerfully continue their use and by the time I had taken five or six boxes, I was cured. I was so glad that I was getting relief, I could not understand how, after all the medicines I had previously tried had failed, this one box of Dr. Williams' Pink Pills should help me.
