-Another los of 100 carrier pigeons, was sent up to Mr. H. S. Holmes, of the G. T. B., from Toronto on Saturday to be liberated. They circled about Acton for about fifteen minutes before arriving at their bearings for Toronto. The pigeons invariably make for "Fairy Lake" before leaving for their destination.

-A treat is in store for base ball lovers on Saturday. The St. Lawrences, of Toronto, whose visit a few weeks ago was so much enjoyed, will meet the Actons in the Park here in two games. The first will be called at 8 p. m. and the second will follow immediately upon the conclusion of the first. One admission fee will admit to both games.

ASHGROVE.

The cessation of the continued rain the past week and a half has afforded the farmers of this locality a much wished-for opportunity for gathering in their grain. Complaints of wheat growing in the sheaf are heard, and in some cases they are only too well grounded. However, taking things altogether, we believe that our neighborhood has not suffered as much from the wet weather as was at first anticipated.

It is much to the credit of our farmer that though exceedingly auxious to save their crop they could still wait for Monday morning, and did not, as we learn was done in other places, descorate the Sabbath by drawing in wheat, barley, etc. on that

> A Farcical Game of Ball. The public was invited to the park of Saturday afternoon to witness a good game of ball. Those who accepted the invitation and paid their admission fee were treated to the worst exhibition of ball-playing pu up this season. Iustead of coming with full team of players, "strongthened by one of the best batteries in Toronto," the

Brampton club came up with only seven men and had to draw upon Acton for a couple of players. The game was indifferent throughout. The visitors were weak and the home team completed the farce by "not trying" to play. Score 12 to 7 in favor of Acton. News of Our Churches.

He was afficted with an internal tumor. An operation was performed a week before his death, but it was unsuccessful. Mr. Moore was a strong, hearty man'of vigorous constitution and was highly esteemed in the circles in which he moved. He was in his fifty-second year, an active member of the Methodist Church, and also of the I. O. Foresters. The funeral last Friday was conducted by Revs. T. W. Jackson and

Matthew Swann. The Foresters also took -Rev. T. R. Forbes conducted successful | part in the last ead rites. Mr. Moore's anniversary services at Churchill last partner in life and his family of three sons and two daughters survive him. They are left in very comfortable circumstances. Death of Rev. Fr. Lehmann.

The sad news of the death of Rev. Father | time. Lehmann reached Acton on Monday. H had been ill for some time and last Friday was operated upon in St. Joseph's Hospital Guelph, for appendicitus. He did not rally after the operation and died on Sunday morning. Father Lehmann

was a native of Formosa and was 30 years of age. It is a striking coincidence that death claimed him on the anniver just before the mosquito gets his drill sary of his ordination, when he came t Acton to take the duties of Rev. Father Haley when he went to the Old Country ast year on a trip for his health. Duris his residence in Acton of three or four months Father Lehmann made many friends who regrot his untimely death. The funeral took place yesterday to the family plot in the cemetery at Formesa Rev. Father Haley attended from Acton

But he borrows it from some prompt paying subscriber before he has had

a chance to read it himself, just the same. An Abundant Harvest being Housed. During the past week the Fage Pages has talked with farmers in all parts of this section respecting the crops, and the consensus of opinion is that although the heavy rains of last week did considerable damage to the hay and fall wheat crops, the damage is not nearly so great as was at first feared. The weather which has folupon grain of the soaking it got. Some

lowed the rainy spell has been of the exact sort necessary to minimise the evil effect varioties of wheat, especially, the bearded and white varieties sprouted to a more or oss serious extent, but the red varieties escaped almost entirely. A large quantity of late bay has been badly discolored. The yield of fall wheat in this vicinity is very large. Bomo farmers estimate yields from

thirty to thirty-five bushels to the acre. Oats are a splendid crop generally and although they were knocked down a good deal by the storms they have in most cases recovered. If the weather continues fine from this time forward, the farmers will still resp an abundant and profitable
