> Acton's Imports and Exports. · It may be interesting to many of ou citizens to know that large numbers of the hides tanned at the tanneries of Beardmore & Co., W. H. Storey & Son and the Acton Tanning Co., are imported from Texas, Mexico, South America, Australia, West and South Africa. These importations include the hides of domestic and wild cattle, horses, buffalo, elk, antelope and ther species. The material manufactured from these in leather and gloves, in addition to supplying the Canadian domand from Halifax to Vancouver, Is exported to the United States, Newfoundland, Great Britain, Australia and Japan. Acton, though a comparatively small town, toucher remote outside and foreign points in her commercial transactions.

Baseball Notes. Two games of baseball were played the park here on Saturday last between the St. Lawrence Baseball Club, of Toronto, and the home nine with the result that Acton won both games. The St. Lawrence Club are the leaders of the Toronto senior city league and had previously only lost one game this sesson. This shows that Acton has one of the best amateur teams

in Ontario. The score was as follows ; St. Lawrence 000110002 4 7 7 Acton 10110708* 18144 2nd Game . 1284567 St. Lawrence 0001000

The home of Mr. John Duff, tot 8, con. 1 Erin, has very frequently been a place o mourning during the past few years. few years ago a well-beloved brother, who was living with him, was called to his long home. On the 11th, August, 1892, the partner in life, who had for many years shared his joys and sorrows was claimed by death. In January, 1895, his sorrows wereintensified by the sudden death of his daughter Jessie, who was just maturing into womanhood, and last Wednesday, Mary, the eldest daughter, who has had charge of the home since her mothers death, but whose health has been poor for some time, was suddenly stricken down with accure Mection of the lungs, and bade adien to the things of this life, at the age of 29 years. A stupid fellow who guages the quality of Boots and Shoes by the price has no busi-ness to be married. Yet one of this class directed his wife to buy footwear for herself and the children from another firm because they charged more for them, and "they must therefore be better." His better half bought several pair from us and several from the other house and showed her husband they were identical, being even manufactured by the same people. This proved conclusively how foolish a man can be when he really tries. to our confidence and tell you frankly why we have launched an enormous stock reducing sale, and why we are cutting the prices on all lines of Dry Goods.

FIRSTLY-We are going to make extensive alterations, extensions and improvements in our premises. Several departments are calling out for more room. They must have it. Enlarging business requires onlarged space. We are also going to put in an entirely new, and up-to-date system of heating which will entail a lot of changes. If people did not look upon advertisements of so-called "Building Sales," as so much clap: trap we might call ours by that name. As it is we only state reasons-and you can call it what you like.

SECONDLY-Some of our European Importations are now on the Atlantic float-ing this way, and ere many days the rush of new Fall Goods will be upon us. Our importations come from Britain, Germany, France and Belgium and while we may not be "the only people" who "import direct from the manufacturer" no more comprehensive range of exclusively good Dry Goods will be in Guelph this season. To avoid a jam, we are forced to rush off a lot of goods within the next three or four weeks. Here you have the story in a nutshell. People who want Dry Goods will be sure to come but we are after a whole lot of people who don't really want them, and whom only the price compelling influence of great bargains will induce to buy. Are you one of them? If so come and see.
