The Acton Free Press.

THURSDAY, SEPTEMBER 2, 1897.
NOTES AND COMMENTS.

Hamilton City Council has instructed its representatives to the tax exemption convention to protest against the power given municipalities by the Legislature to exempt manufacturing industries from taxation. Either introduce the single tax, or tax all, is their position.

Assistant Secretary Bingham, of the Agricultural Department, to day expressed the opinion that the American farmers this year would receive the aggregate of from four to five hundred million dollars in excess of that received last year for their wheat.

The first census of Russia has now been completed, and shows that the population in European as well as Asiatic Russia amounts altogether to 129,000,000 inhabitants; that is to say, 3,000,000 more than the figures as which the empire has until now been officially rated. In point of population, therefore, Russia occupies third rank, China heading the list with an estimated total of 400,000,000, while the British Empire comes next with 200,000,000.

The India famine fund closed in Canada on the 1st of July last with a total of \$175,922. Notwithstanding that it was closed these contributions have continued to come in to the extent of \$239, so that the total now reaches \$170,961. The whole amount has been forwarded to India by Mr. Courtney, Deputy Minister of Finance, who is treasurer. Of late amounts which have been received there is \$200 from British Columbia, \$48 from the Great-Western of the Northwest Territories' office, and \$71 from the Mayor of Montreal.

The popular opinion of London, which rejoices at French-Russia alliance as being entirely directed against Germany, is well voiced by the Saturday Review, which says: "The Emperor of Germany has received a rebuff which he will bitterly resent. There is no doubt the formal alliance of France and Russia makes it impossible for him to take shelter of the neutrality of Europe which he aspires to become. The dual alliance is at least as powerful as the triple alliance was formerly. It is no longer a dream. German hegemony has vanished, and with it the dreams of the abasement of England."

A world's crop report just issued says: The favored countries are Canada and the United States, the former of which will probably be the most important of the exporting countries, its excess over last year's production being 7,000,000 bushels of wheat, and 20,000,000 of oats. Its output of all sorts of grain 270,000,000 bushels. The yield of wheat in Great Britain has risen to 60,000,000 bushels, against 58,000,000 last year. The wheat area of British India is reduced from 28,000,000 acres to 18,000,000 acres, and the wheat yield from 234,000,000 bushels to 202,000,000 bushels.

The farming community are the fundamental basis of the economic structure in Canada. Accordingly, when the farmers are prosperous, it is obvious that the conditions should favor prosperity in all other branches of business. If there was a year when farmers smiled on the agriculturist the present is one, and for this reason the business outlook is considered very bright. In almost every branch of produce in which the farmer is interested, high prices are being realized. He is getting more for his cattle, for the produce of these same cattle, for the fruits of the earth, in fact everything that he markets.—Canadian Grower.

The apple season has opened this year with prospects of fair to good returns for the growers. Last year the crop was a tremendous one, but the prices which ruled were so low that it was hardly a profitable crop. This year the crop will be below the average, according to the Trade Bulletin, about four-fifths of an average crop, but the prevailing prices are high as compared with last year. Last year prices opened at from 50 to 75 cents per barrel, and declined almost immediately to from 40 to 50 cents per barrel. This year prices opened at about \$2.00 to \$2.25 and have fallen off to \$1.50 to \$1.75. The Bulletin says Canada's crop for export is estimated at about two hundred and fifty to five hundred thousand barrels, and thinks the Toronto, Ontario market, the most important of Canada's exports amounted to about nine hundred thousand barrels.

In summarizing the reports of correspondents throughout the continent, the American Agriculturist of Saturday says:—All reports speak of great jubilation among farmers, rapid payment of their debts, and universal plans for improvement in every thing pertaining to the farm, stock and home. The outlook for business in the agricultural trade and among the rural population is overwhelmingly brilliant. Should anything like anticipated agitate for grain, stock and produce be generally realized more than half of the United States can be paid off this year. The Agriculturist also discusses the world-wide situation as to farmers, supply and prices, showing that the country is in for a period of unprecedented prosperity. This prosperity should be of prolonged duration because founded upon the solid basis of prosperous agriculture—the rock-bottom foundation of natural wealth. But it is also warns the farmers that in refusing a good fair price they thereby assume speculative risks, and the speculator usually loses as often as he wins.

William Hammond, a nineteen year old boy of London, Ont., who had been selling on the street, was taken to the hospital on Friday last, and was found to have a brain tumor.

THE PREMIER'S RETURN.

Sir Wilfrid and Lady Laurier Royal-ty welcomed at the Grand Hotel.

THERE'S NO PLACE LIKE HOME.
MONTREAL, Aug. 31.—Sir Wilfrid Laurier, Lady Laurier and party arrived at Montreal on Friday evening at 8 o'clock. They were met at the Grand Hotel by the Hon. J. B. Fraser, M.P., Mayor of Montreal, and other members of the municipal council.

The many friends of Mrs. Wm. Kitching, of Niagara Falls, who were gathered at the residence of Mr. J. B. Fraser, M.P., on Friday evening, to hear that she is recovering from the effects of the recent paralytic stroke.

A cottage prayer-meeting will be held at Mr. J. Brown's on Wednesday evening next week. Rev. Mr. Forbes, of Chathamville, will conduct it. All are cordially invited.

John Croshaw spent several days last week with friends at Niagara Falls. Mr. A. McEachern, of the firm of Watson & Co., of 700 Bait Street, was with him.

Mr. J. D. Dampier returned home last Thursday after spending several months travelling through the Southern and Eastern States and England. He likes Ontario best.

Mr. Wm. Coleman returned home from Hamilton on Monday.

It was with feelings of deepest regret that the many friends here of Mr. J. W. Campbell, of Acton, heard of his very sudden death on Thursday evening last. Mr. Campbell lived for some time in this place and has spent the most of his life in this vicinity. He was highly esteemed by all who knew him.

ROCKWOOD.
Rev. Mr. Stephenson gave a sermon on the missions of the Methodist Church on Sunday evening. He is a very acceptable speaker.

Some of the Acton juveniles celebrated the village club holiday by holding a picnic on the rocks here.

Mr. T. West was upset from his buggy on Saturday evening. His horse was frightened by a thrashing engine. No damage was sustained by the occupants.

The price lists of the Eramosa Agricultural Society show are out now. The show will be on Wednesday and Thursday, 6th & 7th, of October, at Rockwood.

Mrs. Tracy, of New York city, is visiting Mrs. M. E. Barry.

Mr. and Mrs. Skinner, of Schomberg, spent part of last week with Mr. T. Lundy.

Mr. Geo. Duffield, one of the best known farmers in Eramosa, was found dead in bed last Saturday morning. No cause could be ascertained at first, but it proved to be too true. He had not been very well lately, but was not in perfect health, and seemed about as well as usual when he retired. Mrs. Duffield found him dead on going to call him up.

Frank Chapman, aged about twelve, son of Mr. J. Chapman, near Rockwood, met with a fatal accident on Monday. A windmill was being erected and Frank had climbed half way up. He fell to the ground, breaking both arms and a leg. He died during the night and was buried on Wednesday.

COAL IN NEWFOUNDLAND.
Prospects are that Mining will become an important industry.

St. John's, Nfld., Aug. 28.—There is a great boom in the colony owing to the recent discoveries of coal on the west coast. The deposits are very extensive and the seams vary in width from 10 to 15 feet. The quality of the product is believed to be equal to the best West Virginia coal. Experts pronounce the prospects excellent. Sixty thousand tons are already visible, and it is expected that coal mining will become one of the most promising resources of the island.

A PHENOMENAL RECORD.
Toronto Daily Globe, Aug. 28.—A remarkable record of success has been made by Albert College, Belleville, in both Departmental and University Examinations. Out of a total of 31 candidates prepared for Senior Matriculation at Toronto University, 29 have been successful and 14 candidates for Senior Leaving Teacher's Certificate, 12 have been successful. Of this year's class of 5 Senior matriculants, all were successful; of 8 candidates for Senior Leaving, 7 were successful and the eighth will, without doubt, receive his certificate, his name not appearing because of error in report. But, without counting the candidate, over 90 per cent. of the candidates have been successful. This is certainly a phenomenal record.

CURRENT LITERATURE.
Interesting Numbers of our Magazines and Periodicals.

Methodist Magazine and Review for September, 1897. Toronto: Wm. Briggs. Price, \$2.00 a year; \$1.00 for six months; single number, 20 cents. A strong point of this magazine is its superior illustrations. In this number there are over forty. Those on "The Apple Way, and Footprints of St. Paul,"—especially connected with the life of St. Paul, now being studied in all the Sunday-schools, are of unusual interest. The various articles, serials, and religious illustrations make up a valuable number.

Julien Gordon (Mrs. Van Renesse) has just for her last novel a study of New York Newport and Boston life which promises to be read with interest by all who are interested in American fashionable life. No one knows the society of these three centers of fashion better than Mrs. Gordon. From her girlhood up she has had every opportunity to observe, and we have no American woman of more brilliant powers, not only of reading the human heart, but of putting her impressions in delightful fashion. A charmingly fresh Massachusetts girl is sacrificed in her youth to the ambition of a "rich marriage." Depressed of love she throws herself into the race for social leadership, and we follow her for twenty years, with ever-increasing interest, the career of this beautiful and able woman as she captures one post after another, falling in Boston only to change the base of operations to England, and then attacking the main works of the enemy at New York, and so on to Newport, and finally before the capitulation of Boston itself. The first chapters open in the September Canadianist.

The twelfth annual meeting of the Canadian Medical Association opened at Montreal on Monday.

A. M. McNamee has been sentenced to four years in the penitentiary for larceny at St. Catharines.

CREWSON CORNERS.

The trout fishing season with its little fish and big stories will shortly come to an end for the year.

Farmers are busy with their fall seeding. A great deal of wheat is being sown this year.

Quite a number from here will take to the Toronto Exhibition next week.

Mr. Alex. Cripps had a narrow escape from death at Acton last Wednesday evening. No doubt the Four Parties will give particulars of the accident in its local news.

Mr. Wm. Cripps also met with an accident last week. He was threshing at Mr. B. Schult's and was standing on a scaffold placing a pulley in the straw-carriers when the scaffolding gave away throwing him to the ground and fracturing several of his ribs.

The many friends of Mrs. Wm. Kitching, of Niagara Falls, who were gathered at the residence of Mr. J. B. Fraser, M.P., on Friday evening, to hear that she is recovering from the effects of the recent paralytic stroke.

A cottage prayer-meeting will be held at Mr. J. Brown's on Wednesday evening next week. Rev. Mr. Forbes, of Chathamville, will conduct it. All are cordially invited.

SAVED HIS BOY.

A PLAIN STATEMENT BY MR. ROBT. McLEOD, OF GALT.

His little son was paralyzed on One Side, and Doctor's Treatment Did Him No Good—Dr. Williams' Pink Pills were given and Effectuated a Thorough Cure.

From the Galt Reporter.
Mr. Robt. McLeod is a gentleman well-known in the town of Galt and throughout the district. In conversation with a member of the Reporter staff recently, he consented to make public the facts concerning the illness and restoration to health of his little boy. He said:—

"Yes, I believe it had it not been for Dr. Williams' Pink Pills my little boy would not have been a living to-day. Willie, who is ten years of age, was taken with an illness that developed into paralysis of the left side. He had the best medical aid within my reach, but nothing seemed to benefit him. He got so bad that a pin could be run into his left hand to the bone without his feeling it in the least. If he attempted to walk he could only get over the ground by dragging his left foot behind him; he had no power in it what ever. One night I was feeling pretty blue about him. I felt that he was going to be an invalid all his life, and I viewed things in their worst light. On this particular night I put on my hat with the intention of going out to take a quiet walk, but just as I got to the door I saw lying on the step a pamphlet. I picked it up lightly, and saw it was an advertising book of the Dr. Williams' Medicine Co. I only read a few words when the conviction seized me that here was something that might possibly benefit my boy. I at once went down to Mr. Ferris's drug store and purchased a box of the pills. By the time he had taken two boxes the color had come back into his hand and arm, and by the time he had taken half a dozen boxes he was cured, and now he's better than he ever was before in his life, and as hearty and strong as any boy in the town. Yes, sir, I believe Dr. Williams' Pink Pills are a wonderful medicine."

BURNED TO DEATH.
Miss Tindall, of Walkerton, Lost Her Life by a Coal Oil Lamp.

WALKERTON, Ont., Aug. 30.—A very sad accident occurred here Saturday night, by which a fine young girl, 17 years of age, eldest daughter of Rev. William Tindall, lost her life. She was sitting in her father's office when the lid of the desk fell down on the lamp, breaking it and spilling the contents over her clothing. In an instant she was enveloped in flames, and so badly burned that she died in a few hours.

SHOP FILLED WITH Bargains.
