NOTES AND COMMENTS. Sir Oliver Mowat on Tuesday completed his last day's work as Minister of Justice. To-day he will be sworn in as Lieutement-Governor of Ontario at Toronto, and at the same time Hon. David Mills will take the

oath of office as Minister of Justice. Oxford County Council are being ened by the town of Ingersoll for refusing to pay the expenses in connection with the arrest of tramps in that town and subsequent committal to the county juil It is understood that the county intends to defend the case.

Petitions are being circulated in various parts of the province asking legislation giving municipalties power to make a progressive tax on departmental stores. It is proposed to tax the first extra department \$200 and double the tax for each succeeding one. It is being generally signed.

The Ontario Government will probably make another effort during the coming session to abolish all toll roads. At presen neither the Road Commissioner nor town ships have any control over these roads. There are still toll gates at Brookville, Ottawa, Windsor, Ingersoll, Woodstock

The National Union of Conservative Associations of Great Britain on Tuesda elected Earl Cardogan president, an adopted a resolution in favor of the cetal lishment of a royal residence in Ireland and its occasional occupation by a member of the royal family. The resolution says this would tend to increase the sentiment of loyalty to the Crown, and attachmen to constitutional government on the part

Sir Oliver Mowat will be sworn in cossion to Sir George Kirkpatrick, thi afternoon. The oath will be administered to the new governor by the clerk of the Privy Council. It is understood Bir Oliver will reside with his son, Sheriff Mowal until the vacation of Government House by the Governor General and Lady Aberdeen. The new Governor will assume the duties of his office in time to open the last session of the present legislature, which is summoned for Nov. 80. The Hon. David Mills will become Minister of Justice at the same time.

The Cabinet of Bir Jas. Winter formally assumed office on Tdesday at noon, Sin Wm. Whiteway and his colleagues in the retiring Ministry resigning their portfolios too hours earlier. The new Premier will immediately claim a representative for the colony of Newfoundland, at the reciprocity conference between the United States and Canada, now sisting at Washington. His justification for this step is the fact that the late Jas. G. Blaine, when Scoretary of State, signed reciprocity convention with Newfoundland, dated in 1890. The British Government disallowed this, because Canada was not included in its preferential arrangements. Now Newfoundland, will claim that Canada is not entitled to negotiate for reciprocity unless Newfoundland is included in the benefits of this

Is would be easy to have books placed which, as I understand, often are in such Mitutious volumes which I think it sale to say are of a class denounced often ome of those who are urging on sobeme. A prominent Presbyterian pastor in Brantford, Bunday before last, in dealing with the question of literature for young people, atraigned the public library as a means of hading the young away from God and goodness? His conclusion was that the entra demand for books on Saturday night indicated a large amount of Runday novel sading twhich was to be greatly deplored Barely, in the inception of a scheme such as if being mooted at present here, care should and could be really taken to the highest interprets of our young. As forming what has been done may be roughly estimated from the dimensions of the Klondyke oraze in the United States. There is reason to believe that for every dollar that has come; or will come, from

the Klondyke to this country, two dollars will find lodgment in the Dominion. Canadian progress is seen in the extension of lines of commerce. The proposed line of express steamers across the Atlantic has already been told of in these columns. Rapid progress toward completion of the scheme is being made. Practical steps are being taken for outting a canal from the St. Lawrence at Montreal direct to Lake Superior, thus giving an unequalled route from the wheat fields of Manitoba to the

At the present rate of Cauadian progress and of United States indifference, such a change is entirely within the range of possibility, even of probability. As for the Canadian Pacific steamship service, it is already an established and successful fact, and there is every reason to expect that within the next few years the Canadians and Japanese will divide the carrying trade of the Pacific ocean between them, to th practical exclusion of the United States.

In all this there is no possible ground for complaint against the Dominion. She simply attending to business and promot ing her own interests, as this country ough to do; but does not do. The annual meeting of Acton branch of the Upper Canada Bible Society is always an occasion of interest. It brings together the christian people of the com munity more generally than any other event of the year.
