Fifty Years Ago.

This is the stamp that the letter bore Which carried the story far and wide, Of certain cure for the loathsome sore That bubbled up from the tainted tide Of the blood below. And 'twas Ayer's name And his sarsaparilla, that all now, know, That was just beginning its fight of fame With its cures of go years ago. mm

### Ayer's Sarsaparilla

is the original sarsaparilla. It has behind it a record for cures unequalled by any blood purifying compound. It is the only sarsaparilla honored by a medal at the World's Fair of Others imitate the remedy; they can't imitate the 50 Years of Cures.

THANKSCIVING DAY. What if the gold of the corn lands Is faded to sombre gray?

And what if the down of the thistic Is ripened and scattered away? There's gold in the scattered harvest, There's homely and hearthsome cheer, And so we will be full joyous-

The day of thanksgiving is here. A sigh for the vanished splendour Of the autumn's purple and red, For the goldenrod that is whitened, For the genitian bloom that is dead. Then turn to the hearthstone cherry,

Behold, 'tis the time of year To court our blessings and mercles-The day of thankegiving is hero Bare and brown in the shadows,

The mosdowland meets the gaze; Where the bold, blithe bee went seeking Its sweets in the summer days. The honey is stored in plenty, So what if the winter is near? The time is not one for repining-The day of thanksgiving is here.

The fruit has matured in its season, The sunshine has ripened the seed Then sing to the Lord of the harvest A song of thanksgiving indeed. The morn and the noon have passed by us Tis the sweet afternoon of the year,

Bo let not your tribute be lacking-

The day of thanksgiving is here. -Good Housekeepin

THE FARMER'S TOOL KIT What a farmer's tool house should be and the tools is should contain depends altogether upon the ability of the farmer, says a contributor. - It is not to be supposed that he would equip himself with a full set of blacksmith, wagon-maker, carpenter, harness or shoe tools, but a few of each come handy every few days. Every farmer, land owner, or renter, needs a handsaw, a square, good augers, from two inches down to the size commonly used in the

When buying small bits it pays to buy drill bits. They do not split thin lumber in boring and they pay for themselves the first job. NINE TERRIBLE YEARS.

Misery and Suffering Day and Night.

PAINE'S CELERY COMPOUND VICTORIOUS OVER LIVER TROUBLES.

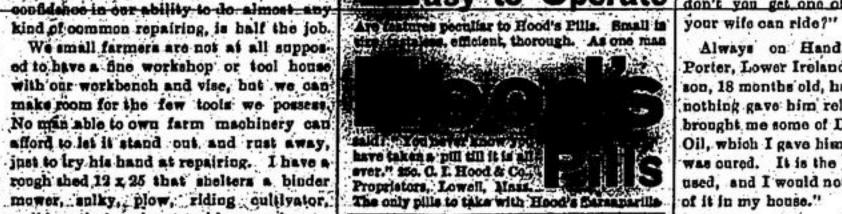

A MIGHTY WORK AFTER THE DOC-TOR FAILED.

If proper treatment is not resorted to time, the results of liver complaint are terrible, often ending in death.

Mrs. McRae, of Guelph, Ont., suffered fo nine long years from liver complaint. Her case baffled the skill of the physician she employed; he could do no more, and the sufferer was left almost hopeless. Hearing of Paine's Celery Compound she procured a supply, and soon experienced returning health and vigor. The second bottle com pletely cured her. Mrs. McRae writes for the benefit of all in misery and affliction

"It gives me great pleasure to add my testimony to the value of Paine's Celery Compound. For nine years I had been troubled with liver complaint, and often had very bad spells from it. Two years ago this spring I had a very bad attack of it, and called in a doctor who relieved me of the trouble, but I remained weak, and could neither eat nor sleep, and suffered so much with my head that I procured a bottle of your Paine's Celery Compound, and before I had the contents used I could est and sleep well, and the pain in my head was completely gone. I took the second bottle, and have never been troubled with liver complaint since. Your Compound has banished constipation which troubled me for many years, and has built me and completely cured me. I am now 64 years old, and from what I know I consider vonr medicine the best on the market. Hoping that your valuable medicine will do for others what it has done for me is my

The Three Stages.

There never was, and never will be, a universal panacea, in one remedy, for all ills to which flesh is hoir-the very nature of many curatives being such that were the germs of other and differently scated diseases rooted in the system of the patient -what would relieve one ill, in turn would aggravate the other. We have, however, in Quinine Wine, when obtained in a sound unadulterated state, a remedy for many and grievous ills. By its gradual judicious use, the frailest systems are led into convalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondence and lack of interest in life is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep, imparts vigor to the action of the blood, which; being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system; thereby making activity a necessary result.
