#### PARLIAMENT AT WORK.

The House of Commons Opened Last Thursday OUTLINE OF SPEECH FROM THE

OITANA, Feby. 9 .- Better weather for the ppening of Parliament could not be had han was experienced last Thursday, with the thermometer about 8 degrees below zero, and excellent sleighing. It was just that sort of winter's day which one thoroughly enjoys at the capital.

There were the usual ceremonies in connection with the function. The Princess Louise Dragoon Guards supplied the escort, and the Governor General's Foot Guards the guard of honor, while a salute was fired from Nopean Point by the Ottawa Field Battery. The Senate was crowded as Lord Aberdeen delivered the speech from the throne.

Some of duty upon goods imported from the United Kingdom to the Dominion.

The action of the Imperial Government in denouncing the treaties with Germany and Belgium also affords most satisfactory evidence of their desire to facilitate your efforts to promote the clorest possible commercial relations between Canada and the remainder of the Empire, and will, I trust, contribute materially to the development of Imperial trade.

THE GOLD DEVELOPEMENTS. The extraordinary gold discoveries

recently made upon the Yukon and its tributaries appear likely to result in an enormous influx of people into that region, and have compelled the Government to take prompt action for the preservation of law and order in that distant and almost inaccessible locality, measures will be laid before you for that purpose. A contract has been entered into, subject to your approval, for the completion at the earliest possible moment of a system of rail and river communication through Canadian territory with the Klondike and the principal gold fields, which it is expected will secure to Canada the larger portion of the lucrative portion of that country.

The bountiful harvest with which have been favored by a benevolent prov increase of our prosperity, and I am gla to note that the trade and commerce of th Dominion, and more especially the amoun and values of her principal exports, hav increased greatly during the past eightee months, and there is good reason to believ if not augmented during the remainder of

the present year. I observe with pleasure that certain Government contracts recently let contain provisions calculated to suppress the evil of the sweating system. The estimate for the succeding year will be placed upon the table at an early date.

Messures will be submitted to you resporting supersupustion, and the repeal of the present franchise act and a plebiscite on the question of prohibition.

Of Halton, Meet In Convention for Two Days at Oakville with Pleasure and Profit.

For forty years the Sunday School workers of the county of Halton have met annually in convention to comparemethods, study new plans and to wait together at the Throne of Grace for a renewed measure of the Holy Spirit to aid them in their important work in the Master's vineyard. To many this annual gathering is regarded as a very bright spot in the year's experience and is invariably

anticipated with pleasure. The convention held at Oakville last Thursday and Friday was a gratifying success. The papers and addresses were practical interesting and generally helpful. As a result of the various subjects presented and discussed a wealth of hints for improvement was gleaned by the workers present.

Church, Georgetown, the honored presi dent, presided with grace, dignity and consideration befitting the position.

The part taken by the local workers of the county's schools was very creditable and showed that our schools are fully abreast of the times in the matter of equipment, modern methods and consecrated and self-sacrificing officers and teachers. In addition to the weekly study of the scriptures a growing interest in manifested in mission work, as it relates to the denominational enterprises as well as that undertaken by the Provincial Sunday School Association. The ques tion of temperance is also receiving con siderable attention. The home and prim ary departments are being intelligently developed and the Sunday School is

expanding its influence in consequence.

Our schools generally 62 are taking more interest in securing appar-32 atus for use in weekly teaching of the 58 lesson and maps and blackboards are yearly increasing. Denominationally the 2 schools are as follows : Baptist 4: Church 140 of England 8 ; Congregational 1 ; Disciples 122 1, Melhodist 28; Presbyterian 18; Union 2. In concluding his report the secretary said : There are many faithful ones engaged in this work. Let our motto for 1808 be. "More of our time; more devotion;

and the Sufferer Was Discour-Oue of the best known men around Bediquo and vicinity is Mr. Alfred Schurman, who has recently removed to North Carleton. - Mr. Bohurman was born in Bollque about seventy years ago. Some lwenty-five years ago he was sworn in as a justice of the peace, and about twentyone years ago he was appointed clerk of the county court, ic both of which offices he has given every satisfaction. Mr. Schurman was also a farmer on a large scale and like most men engaged in that occupation led a busy life, being compelled to attend strictly to business, but less than a year ago he retired from farming and now lives in a cosy cottage in North Carleton. Before his retirement, work such as only a man ongaged in that occupation knows anything about, claimed his attention. His increasing years made the burden heavier and the spring work of 1893 were him complete. ly out. This is what he tells about it, and how he was cured. "In the spring of 1803 the constant toil and drudgery connected with the work of farming were me out completely, and the break down was the more complete with the bad effects left by an attack of la grippe. One of the results of la grippe was a nasty cough, another was the complete loss of my appetite. My spirits were greatly depressed and I felt

threatened to prove the worst enemy of all. I was unable to do any work, had no am bition and less strength, and was not a bit the better of all the doctor's medicine I had taken. It was my wife who advised me at last to try Dr. Williams' Pink Pills. bought six boxes and began taking them. My hope revived because a change for the better was roon taking mace, and before they were done I was cured. The six boxes brought back my appetite, strength and ambition, in short, all that I had lost in the way of strength and health. The next spring however my health again gavo way and I immediately began using the Pink Pills again and I am happy to say that they effected that time a permanent cure and to day I am well and hearty as i were only forty. I strongly recommend Dr. Williams' Pink Pills to all who are

The report of the statistical secretary for the year ending 81st December, 1897, giving the standing of the individual schools and some of the results accomplished, was encouraging. Fifty-seven schools were reported and these have 669 teachers and officers: 5448 scholars, with an average attendance of 8588; 1688 scholars are members of the church. Nearly every school is supplied with literature, including helps, papers and library, and these, with one exception are all procured from denominational publishing houses of the several schools. The fluences of the schools were well sustained during the year. The aggregate amount raised reached \$1597.48, an incresse over the previous year of \$128, The amount devoted to the support of missions was \$418.62.
