But there was not manimity of opinion as to what it should

The Opposition contended for the right of Parliament to control its own franchise. Bir Charles Tupper made the suggestion that manhood suffrage being the rule in five of the seven Provinces in Confederation, the remaining two, Quebec and Nova Scotia, should have no very strong reason

for not adopting that principle. The Prime Minister presented a carefully reasoned argument in justification of the proposal to revert to the order of things that worked so satisfactorily before was superseded by the franchise act. Mr. Robertoson of Toronto is unmeasured terms condemned the franchise act, and suggested that instead of . keeping Parliament in session week after week engaged in party strife the leaders should get together and draft a measure that would

be mutually acceptable. The bill introduced is a simple measure, providing for the adoption of the Provincial franchises and the use of the Provincial lists, and enacting that if the latter are more than one year old new lists shall be prepared for the Dominion elections. For these Provincial franchises and how are Department the lists prepared? These questions are answered in a Parliamentry paper intended to accompany the bill.

Three years ago I was stricken with and partially paralyzed by rheumatiam, and after being under the care of two physicians I was given up to die. I wasted to a human skeleton; nothing more than a crippled shadow. I lost the use of my limbs entirely and food was given me by a spoon. Life was not worth living and such an existence was indeed miserable Thus I awaited the end to come -an end of human suffering too awful todepict. As a last resort I was persuaded by my friends to try medical treatment in the General Hospital in - Toronto, and after spending several weeks there came home disheartened and even worse than before. While writhing in the pange of pain, discouraged and ready to die, I heard of Dr. Williams' Pink Pills and of the marvellous oures they had effected. was prevailed upon to take them. The effect was marvellous. For two long years I had not onjoyed a single night's rest and I then slept a sweet sleep which seemed like heaven to me. I revived, could est and gradually grew attonger and as I gained strength my hope of living increased. I have taken forty-one boxes, which may seem a large quantity to some, but be it remembered I had taken many times their value in other medicines and had been declared incurable by doctors. The result is that I am now able to bear hard physical exercise. All my large circle of friends and acquaintances welcomed me back in their midet and life seems real again. DEAR SIRS :- For years I was troubled with periodical sick headaches, being affected usually every Sunday, and used all the remedies that were advertised as cures, and was treated by almost every doctor in Guelph but without any relief. One doctor told me it was caused by a weak stomach, another said it was hereditary and incurable. I was induced by a neighbor to try Sloan's Indian Tonic, and I am happy to say I did so. A few doses gave immediate relief, and one bottle and a half made a complete cure.

This was three years ago and the headaches have never returned. I was also troubled with asthma and nothing helped me like your Sloan's Indian Tonic. I can heartily recommend it to all and will be glad to give any particulars to anyone afflicted as I was. W. C. KEOUGH.
