An Appreciable Difference.

The policy holders of the Gore Distric Mutual Fire Insurance Co., of Galt, have an experience very different to that of the policy holders in another company doing business here. The Gore is giving its policy holders a refund of 20 per cent on the premiums paid in 1897. . The contrast with the other company referred to is that those insured are specially assessed, above the usual assessments, 20 per cent extra on their premium notes, to keep the machine going.

The other replied: "In my opinion the advertisements are far from being the least valuable part of it. I look them over carefully and save at least five times the cost of the paper through the business advantages I get from them." Said the other: "I believe you are right-I know that they pay me well and rather think it is not good taste to find fault with the advertisements after all."
