NOTES AND COMMENTS.

A cross-petition was filed last week against Mr. McNish, the defeated Liberal candidate for West Elgin in the recent Provincial elections. This makes the 71st election petition.

Those Americans who meer at a British alliance are perhaps not aware that through her friendship for the United States, Englaud is sacrificing a trade of \$75,000,000 a. year with Spain.

The plebiscito question was discussed in the House last Thursday and given a third reading. The vote will be taken early in the full and two mouths notice will be given to enable all interested to complete the campaign.

The Order in Council appointing M. C. Cameron, M.P. for West Huron, Lieutenant-Covernor of the Northwest Territories was passed on Monday. The Free Press has pleasure in nominating Mayor Holmes, of the Clinton New Era, and President of the Canadian Press Association, to fill the vacancy in the House of Commons, as representative for West Huron.

While congratulating Victoria, N. S. W. on her vastly increased butter trade with Britain-we cannot help wishing that about four-fifths of that butter had come from Canada. The Victorian trade has increased from \$250,000 to \$4,500,000 in seven years, and we regret to say that their butter takes bigber rank in the British markets than that of Canada. Can not our duiry experts change all that?

glorious use of the old flug. They are embroidering it on canvas shoes, emblaztable crockery, painting it on baby carriages and making money on all sides. They even weave webs of the stars and stripes, which are cut up into nightgowns, underthirte and pyjamas.

The Municipal World says telegraph and telephono poles and equipments can be legally assessed within an incorporated municipality, and made to contribute to the public exchequer. Both telegraph and telephone companies escape in Milton. In Orangeville they are assessed. They Elliott, Jos. Shortill, Alex. Maud, J. In order to answer the thousand-and-one extra 15 days allowed. questions that people are saking these days about the Phillipine Islands, the Review of Hericus for June contains two valuable illustrated articles, one giving the observations of a very recent visitor to the islands. Mr. Juseph T. Mannix, and the other by Mr. Chas. Johnson, late of the Bergal Civil Service, on "The Phillipines in History." The relatives and friends of the thousands of young American volunteers. who will shortly be called to serve in that distant part of the world will be interested in what these writers have to tell about the islands and their inhabitants.

The men who managed the civil war for the United States are dead and the presentwar so far as the land forces are concerned is in the hands of amaleure, Alger, the Kingston penitentiary. The July issue of The Ladies' Home Journal is to be called the "President's Number." It will show the President on horseback on the cover, with the President's new "fighting-flag" flying over him; a new march by Victor Herbert is called "The President's March"; the State Department has allowed the mage zine to make a direct photograph of the Independence, while the President's own Pringle, friends and intimates have combined to stories and anecdotes about him which

Persons who are ruptured, especially extreme cases that heretofore have found every means fruitless, and parents having children so sillicted, have now an opportunity of consulting free, a competent specialist in this line. Thos. W. Egan, of Toronto, will visit Acton - "Dominion Hotel"-Saturday June 18th. The evi denoe furnished of his skill is exceptionally to be well founded.

For some five years the editor of this journal has made weekly visits to Brooklin in search of nows. One of his earliest recollections of the village was in noting that Miss Levina Rodd was very ill. Miss Rodd was well known, and as week after week rolled round, it was natural to ask how she was getting on, and the reply always came that she was no better. Time went on and it became a settled fact that Miss Rodd was a confirmed invalid and that such she would continue until a kind Providence took mercy on her by allowing death to end her sufferings. None of the villagers anticipated any other ending. Our astonishment can better be imagined than described, therefore, when Mrs. Bert Wells hailed as one morning with "Well, editor, we have some news for you to-day." "What is it?" . "Why, Miss Rodd has gone on a visit to Columbus friends." "Why. I thought she was a confirmed invalid?" "So she was, but she has been improving so much lately that she is now able to help herself a good deal, and it was thought a is certainly news," replied the quill-pusher, "and good news too; but what cured her?" "Dr. Williams' Pink Pills," replied Mrs. Wells. We then decided to ask Miss Rodd upon her return for an interview, but it was and partly owing to a desire to wait and permanent. However, after many put-offs, we finally called at the home of Mrs. Doocarefully cared for her during the long illness. At the request of the editor Miss

Rodd made the following statement :-"I am fifty years of age and have lived in Brooklin ton years. Five years ago I was taken ill with acute rhoumatism, and have not done a day's work since. The trouble began with my feet and the ewelling extended to my arms, wrists and shoulders, and finally settled in my neck. I had such pain that I was obliged to use a walking stick to case me in moving about, and two and a half years ago the stick had to make way for a crutch. At this time I used to get up a little each day, but it was not long the next six months I was perfectly helpless head or put a cup of tea to my mouth. got completely discouraged after ineffectually being treated by two physicians and trying the different medicines recommendhelpless condition my niece came in one day and prevailed upon me to try Dr.
