NOTES AND COMMENTS. The justice for the protests in Ontario contested elections will be Justices Osler, Falconbridge, Ferguson and Rose. They will have a big contract if all the protosts cutered go to trial.

Arrangements have been made for omference to-day of the representatives of several of the provinces with the Minister. of Marine and Fisheries at Ottawa as to revising of the control of the fisheries as between the Dominion and the several provinces, in pursuance of the judgment of the Privy Council recently rendered.

At the Synod meeting of the Church of England at Toronto last week a strong declaration was made against the lease of church lands for hotel or saloon purposes. In the debate on the question Bishop Sullivan said he would hold up both hands for the nation and that the church should do right and trust in God. The declaration was carried almost unanimously.

At the present moment there are buildsecond, and ten third-class cruisore, two torpedo boat destroyers. Torpedo boats, l when completed, is estimated by Mr. gramme in addition for the present year, squadron of Commodore Schley. is three battleships, four armored cruisers, and four sloops.

Silver agitator, has raised a regiment to small chance of overcoming the force U. S. Government. President McKinley has made Mr. Bryan a colonel, and some people say he intends to ship him off to the Philippine Islands, in order that he may be out of the way when the next election comes on. Be this as it may, Mr. Bryan has come out flat-footed, in a recent retaining what it may gain in war.

At the meeting of the Liquor License Association at Loudon on Tuesday, in reply to an address by Mayor Wilson, Mr. Haverson, the Association's solicitor, said : "This association is no more the friend o advocate of rioting and drunkenness than the greatest anti-liquor man is. There that the question of negotiating peace is no man more objectionable to the liquor dealer than the man who gets drunk. The earnest desire of the association is lively correspondence between the Chanto have the liquor traffic of the country conducted on fair and honorable lines, and all the more because we are upon the verge | yesterday to remain on the alert and in of a vole being taken by the plebiscite."

The most ardent supporters of the war stren nous struggle for peace. As a polititian put it last night: "I was mad for war the officers and troopers, and saw what magnificent young men they were, I'm not so keen on having them shot to fragments or dying like dogs for the relief of a FIRST MATCH OF THE SEASON. handful of those dark little fellows (Cubans.) week. Mr. F. S. Spence, secretary of the plebiscite the cause of temperance was sure | in a score double that of their opponents, to win. It had already made marvellous as shown below : advancement in Canada; Canada already used one-fourth less liquor than the next best country in the world. In less than 22 years Toronto had reduced by one third the number of licenses in the city. Outelde of the temperance lodges there are 20,000 women in organization against the traffic. In a characteristic phrase Mr. Sponso declared that the temperance people had got a grip on the liquor traffic, and that even if the plebiscite were lost the temperance cause was sure to win.

Owing to the failure in Chicago last week, of Leiter, the broker who aimed at cornering the wheat supply of this continent, the prices for wheat have declined considerably. C. A. Pilisbury, the great flour miller of Minneapolis. says that Loiter's operations affected the price of 100,000,000 bushels of wheat, and that he handled at least one third of that amount himself. He thinks that the present price, which is 25 cents lower than it would have been if Leiter had not been forced out, is only temporary, and that wheat is selling at 25 cents below its actual value. This is good news for the farmer, who generally gets the worst of it in a wheat corner. It will reassure him to know that dollar a bushel wheat will probally again be the order of the day by the time the present crop is ready for market.

THE WAR WITH SPAIN.

Two Months Have Already Passod Since Hostilities Commenced. MORE TROOPS FOR SANTIAGO.

WASHINGTON, June 22 .- Two months ago coterday war broke out botween the United States and Spain, according to the procla mation of the President and the declaration of Congress. The end of that period finds nearly 16,000 U. S. troops lying off Santiaga preparing to land, and it finds cable communication established between the Government at Washington and th advance guard of the expedition in Cuba It finds Cuban territory in the possession of United States marines, backed by

equadron, and nearly all the commercial ports of Cubs bloosded. This is a'l apart from Dowey's great victory at Manilla, and the splendid results rehieved in organizing several armies in the camps. Therefore the officers of the administration feel that they have a tight to look back with pride over what has been accomplished in the

short space of two months, working in large part with raw material in both the army and navy. The Government has determined to sond heavy reinforcements to Genera

Shafter at Santiago. For this reason the first will leave Newport to-morrow morning, carrying Brigadier-General Duffield's separate brigade of the second army corps, made up of the Ninth Mass achusette, the 33rd and 34th Michigan and the 3rd Virginia Regiments, in all about 4,000 men. Expeditions will follow rapidly by way of Tampa, for while Fernandina and Miami are considered to have many good points for concentrating. troops, army officials are now satisfied

that Tamps can be retained with advan tage as the main point of embarkment. The next forces to go will include those of Brigadier-General Garretson, of the second Brigade of the first division, second army corps, embracing the Sixth Illinois Sixth Massachusetts and Eighth and Ninth Ohio regiments.

Rear Admiral Sampson says that the general landing of the troops of Gen Shafter's expedition on the coast of th province of Santiago de Cuba, will neces sarily be delayed several days.

A COOD DICTIONARY FOR THREE

A dictionary containing the definitions of 10,000 of the most useful and important words in the English language, is published by the Dr. Williams' Medicine Co., Brockville, Ont. While it contains some advertising it is a complete dictionary.

In compiling this book care has been taken to omit none of those common words whose spelling or exact use occasions at times a momentary difficulty, even to well educated people. The Library Will Be Open to the Public on Monday Evening, 4th July.

SPLENDID LIBRARY, AND VERY

ATTRACTIVE QUARTERS. For a mouth or two there has been frequent enquiry on the part of the reading public as to the date of opening of the new Free Library. For nearly three months the members of the Board have been assidiously engaged in assorting, repairing, selecting, classifying and cataloguing the books, and in putting the Library room into a condition highly attractive and con-

The work is now so far advanced that at the meeting on Monday evening the date for the opening was fixed for the evening of the 4th of July. On that evening the Librarian and Members of the Board will be present to give information as to the system under which the library is to be operated; to receive applications for membership, and to dispose of catalogues and ruem berehip cards.

That the people of Acton will be surprised when they see the extent and excellence of the library and its very attractive quarters, goes without saying. The Chairman and members of the Board take a

Launching of the New Battleship "Albion."

Landon, June 22-During the launching the new British Brat class buttleship Albion, of 12,950 tone, at Blackwall yesterday, by the Duchess of York, the displacement of water caused an immense mass of water to rise on all sider, completely submerging one of the lower stages of the yard and immersing hundreds of people. It is estimated that fifty persons were drowned.

The victims are mostly working people on a holiday, who had trespassed on the shipbailding yard, where the launching took place. They crowded upon a staging from which they had been warned off, but the force of police on the spat was inadequate to control the immense crowd. The bodies of five men, eighteen womer and cloven children have been recovered at scene of the distator.

Extract of Wild Strawberry. The change of food and water to which hose who travel are subject, often produces an attack of Diarrhoa, which is as unpleasant and discomforting as it may be dangerous. A bottle of Dr. Fowler's Extract of Wild Strawberry in your grip is a guarantee of safety. On the first indication of Cramps, Colle, Disrrhosa or Dysentery, a few doses will promptly check further advance of these diseases. It is an old, reli-

able remedy, with over forty years' of whose merit is recognized everywhere and one that the doctors . recommend inproference to all dealers everywhere Always insist on the genuine, as many of the imitations are highly dangerous.
