NOTES AND COMMENTS.

Among the new members of the Provin oial Parliament on the government side, whom the Toronto Star refers to as "Stars among the new members" is "John R Barber, the well-known proprietor of the large paper mills at Georgetown, the mem ber for Halton."

The withdrawal of the Patrons as a political organization being admitted, the two old parties are not to be left to fight i out alone, but are to have the opposition of a third in the shape of the Canadian Compatriots, an association which intended to unite what is left of the patrons for the purpose of concluding a treaty of at her father's; Mr. J. A short, sharp, decisive campaign will characterize the plebisoite vote. Voting will take place on Thursday, September 20th, and for the next eight weeks the opposing forces may be expected to give themselves almost unreservedly to the process of organization, and to the task of arousing enthusiasm for or against probibition. So far there has been little oratory but now that the date has been announced the advocates of prohibition will probably take to the platform and give good and valid reasons why this Canada of ours would be materially better off if the manufacture and sale of intoxicating liquors were annihilated.

In what has already come to him, the Canadian business man should find cause for gratitude, and for what is likely to come to him he may look forward with devout and happy anticipation. Last year we had a great crop in our fields and it helped everybody, inspiring hope and starting the rusty wheels of trade. This year we are on the eve of another which promises to beabundant. At last accounts the prospects were generally excellent. If such another crop as that of last year is vouchsafed to Canada the effect upon all branches of business will be prompt and beneficial, for the prosperity of the farmer means prosperity to merchant and artisan. The feeling among merchants is one of confidence and hopefullness.

The New York Voice is authority for the statement that the great Catholic university at South Bend, Ind., which has 1,500 students is in the advance guard of the prohibitionists. Father Burns and Father Cavanaugh, leading members of the faculty, are pronounced total abstinence advocates. President Morrissey, and almost every other professor are opposed to the saloon and drink in all forms. The following standing paid advertisement has appeared in two daily newspapers of the place for thirteen years: "I hereby give notice that I will prosecute to the fullest extent of the law, and regardless of cost, any liquor dealer or person who will give or sell liquor to students, or in any way assist in procuring it for them. There is no doubt that many papers would give a more hearty support to the prohibition cause if they felt they had the patronage of the temperance people, and it would be well for our temperance friends to think this matter over and try to counteract the influences that are being brought to bear on newspapers by the money-spending opponents of probibition .- Whitby Chronicle.
