ENJOYABLE CIVIC HOLIDAY. A Succession of Interesting Events

From Morning Till Night. It has usually been deemed necessary if Civio Holiday was to be made an occasion of pleasurable cognation from every-day toll, to go out of town on an excursion to some city or lakeside resort. The experience of Tuesday has proven the contrary. Our oivio holiday this year will be remembered as most enjoyable and the programme of proceedings varied and

interesting. The day was cool and pleasant. The early morning rain gave nature a look of freshness and beauty, and the heavy storm in the afternoon agreeably came between the conclusion of the afternoon programme and the evening concert.

The first event of the day was the celithumping procession, which from the standpoint; of the ridiculous was at eminent success. From little Johnnie Mullen astride a donkey, to the Gold Prospector with his mining outfit bound for the Klondike, the get up of the various characters was very creditably accomplished, and the parade brought to the surface all the latent risibilities of the multitudes of citizens and visitors who viewed it. would be invidious to give the palm to any single participant or company. They all excelled in ludiorous costumes and outfits, and as a whole made a burlesque serenade of the first order. "Brooke's Marine Band" from their beautiful (?)

ever, including but one air, "Marching through Georgia." The baseball match in the forenoon between the Victorias of Guelph, and the Beavers of Acton, was a well-contested match, and was witnessed by a consider able crowd. Both sides played well and for inniors their play was generally complimented. The score was 20 to 11 in favor of Acton. McCann and Edmiston was the

chariot discorded music along the line of

Harvey, for Guelph. Ed. Ryder umpired. At one thirty in the afternoon the cyclists to the number of about forty assembled at the Town Hell for their parade | H. Rolaton of decorated wheels. Their wheels where very gaily decorated and the variety of form and color lent a pretty panoramio effect. Much ingenuity was manifested in the decorations and the parade through the town and around the course at the park was much enjoyed by those who witnessed it. The cyclists who engaged in the parade are to be complimented upon the success of their first effort in a decorated parade.

Interest in the afternoon's proceedings centered in the lacrosse match between the Tuscarora Indians and the Crescents of Acton. Two hours of spirited play provided an exciting and interesting place in the afternoon's programme for the large gathering of spectators. To see the native Indian in his national and historical game lent a peculiar interest. The match, however, proved that the Indians were not so fleet of foot nor so strong in combination play as our own local team, and the result of the match showed this conclusively. There were, however, many brilliant plays on both sides. The Crescents have a team to be proud of and there may be unlooked for developements of a creditable character before another season is concluded. .The Indians were good-natured, stalwart fellows and their visit was enjoyed by those who came in contact with them. The score

was 4 to 7 in favor of Acton. The bioycle and foot races and other sports were the only weak part in programme. The events contested not worthy of record:

GOOD TIMES THIS FALL

This seems to be the general cry, and we will join in, as we have every reason to believe there will be extra good times this fall and winter. The crops are generally good and the indications are that the prices will be good. Then our manufacturing industries have not been so busy for years, and the result will be lots of money in circulation. We are therefore making great preparations for a big trade this season. MR. BOLLERT who is at present in the European markets is doing some shrewd and courageous buying especially in the better class of goods such as this store is noted for keeping.

How often customers are heard saying, "If they want anything extra good in Dry Goods they always go to Bollert's for it." We can assure such that they will not be disappointed this autumn, as we will undoubtedly have the finest and most up-to-date stock in this city and we will have it in abundance as Mr. Bollert is buying just about double the amount he usually does, with the exception of an unusual large trade. We have already received and placed in stock a consignment of French and German Goods, thus saving the customs extra duty of 25 per cent. This means that you will be able to buy such goods from us 25 PER CENT. LESS. "Goods well bought are half sold," is an old and true saying. Wherever we see the best goods at the lowest prices is our market. We are limited to nowhere and to no person. LOOK OUT FOR BIG THINGS AT BOLLERT'S THIS FALL. Now in the meantime our Big Summer Sale will continue as we have many lines of Summer Goods that simply must be cleared out, as we do not wish to carry over a single yard or article of such goods, so out they go regardless of cost.
