The first month of the operation of the preferential tariff at Montreal showed really remarkable results. The receipts for August, 1898, were \$700,070, as against \$580,958 for August, 1897, an increase \$128,721. The increase is the more note worthy by reason of the heavy imports immediately prior to the putting in operation of the new tariff. The increase is no special line. It is an all round increase

The Patriot's special correspondent "Mao," being in the eastern section of the island on business, heard many complimentary remarks concerning Dr. Williams Pink Pills, which appear to be the favorite medicine in all parts of Canada. Among those who are very emphatic in the praise of this medicine is Mr. Neil McPhee, J. Mr. McPhee was found at home, and as he is a very entertaining and intelligent gentleman, our correspondent was soon "at home" too.
