Mostly of a Local Character, and every item Interesting.

Wedded at Lloydtown Yesterday.

An interesting church wedding consummated in the church of St. Mary Magdaleb, Lloydtown, yesterday afternoon, in which the son of one of our best families was one of the principals. The ceremony | Winnipeg. was performed by Rev. J. E. Hand, rector of the church and brother of the bride, and the ritis of holy matrimony sealed the vows of Rev. Frederick W. Goodeve, M. A., rector of Horning's Mills, and son of C. F. Goodeve, Esq., merchant, Acton, and Miss. Emma Hand, of Lloydtown. Miss Goodeve, sister of the groom, and Miss Verner, of the Desconess Home, Toronto, attended the bride, while Rev. C. W. Holdsworth, B. A., of Mono Mills, was the groomsman. After the wedding dejenner the happy couple amid the best wishes of all departed parsonage, Hornings Mills.

tary-Treasurer. Epworth League Forward Movement. This movement commenced two years ago among the Leagues of Hamilton Conference has met with such general success that it is being adopted generally by the Leagues throughout the Church. The object is the deepening of spiritual life ; a better know-Jedge of the scriptures; the conversion of -Milton's collector's roll for 1897 was souls; an increase of missionary zeal rallying the forces of the church for the fall and winter campaige. The movement -Acton Cornet Band will give a concert for the present season was inaugurated last Sanday in the Methodist Church here with an appropriate sermon by the pastor, and the League and congregation united in reading the gospel of St. John consecutively during the remaining twenty-one days of the month-a chapter a day. Sunday, 23rd inst., will be observed as Young People's Sunday. The services will include a sunrise prayer meeting at 7.80 a.m. appropriate sermons by the pastor and a mass meeting, with suitable addresses and singing, after the Sunday School service.

> To Rise from its Ashes. On the twenty-third of June last, when the planing mill of Mr. Thomas Ebbago, with its machinery and contents, was swept away in a few moments by fire, and there was no insurance to recompense the loss, Mr. Ebbage naturally felt that his business operations were at an end in Acton. For some time he felt inclined to remove to Gloversville, N. Y., where several members of his family are doing well, but latterly he has concluded that his time may be spent with greater comfort in the community where so large a portion of his life has been lived. To that end he has decided to rebuild a factory suited to the requirements of a general jobbing and pump making business. The latter especially offers a good opening, inasmuch as no other shop in town has undertaken it. The new factory will be erected at once on the rear of the lot occupied by hie residence. A steam engine and boiler. planer and saws, and pump making machinery will be put in. The people

generally will be pleased with Mr.

Ebbage's decision to remain in Acton, and all will hope for his future success. How the Earth Came as It Is. A very interesting and instructive probred this year. He secured first prizes gramme was provided at the meeting of the both at Georgelown and the County fair | young people of the Baptist Church last Friday evening. The first of a series of eight addresses on "Geology" was given by the the pastor, Rev. W. S. McAlpine. The subject matter was so vividly presented that all present enjoyed the address, notwithstanding that it was of a very scientific character. Profuse illustration by means of charts and diagrams diplained the processes of formation of the earth, and helped to fasten the facts presented in the memory. Mr. R. D. Warren, editor of the Georgetown Herald, followed with descriptive essay on "Canada's Minerals." which gave ample proof of the vastness and wealth of our mineral resources, as well as of the wide range of minerals existing within our borders. At the conclusion of the service the audience was invited to inspect a large collection mineral specimens, probably a couple hundred, named. Mr. McAlpine, who has given goology careful study, explained the character, uses and values of the various minerals. The evening was not only enjoyable but decidedly educative in char-

sofer and was appreciated by all. Amother Professional Change. Like all other professional young men who are anxious to advance to the highest attainments in their profession Dr. A. S. Elliott has felt for some time a desire take post-graduate courses in medicine and surgery, and with this one in view has just disposed of his practice to Dr. F. J. R. Forster, late resident physician and sur-coon to Victoria Homital for Sick Children, Toronto Dr. Forster is not an entir stranger to Acton as some of his boyhood' days were spens here when his father -Dr. M. Forster, now of Palmerston-was resident here. He has always had kindly feelings toward Acton since, and the oppor tunity having offered to settle here for the practice of his profession, he has accepted it and will this week succeed Dr. Elliott Dr. Forster has had exceptional advantages for securing superfor attainments and is spoken of by those who have been most intimately associated with him profession ally in Toronto as a young physician of eminent skill and brilliant promise. Not only is he the son of a spoossful family physician, but his experience, since graduation; on the staff of the Victoria Hospital was most valuable. During the past sum mer he was for some time in charge of the practice of Dr. Powell, one of Toronto's most prominent medical men, / Buccess noute will be attained hare. It will be wish feelings of regret in many quarters that Dr. Elliott severs his connection with

MUST BE DISSOLVED.

Kidney Disease Can Only Be Cured by a Remedy Which is in Liquid Form-Common Sense of Science

For a disordered stomsch or sick head sohe, pills and powders are not without effect, but when these same remedies are said to cure kidney disease the common sense of science rebukes the claim. Thi insidious and growing disease will not be driven from the system unless a medicine is given that will dissolve the hard sub stance-urle sold and oxalate of lime-that give rise to the distress and pain that is com mon toall who suffer from kidney complaint South American Kidney Oure is a kidney specific. It dissolves these hard substances and while it dissolves it also heals. The ourse effected leave no question of its merit

Totally Deaf .- Mr. S. E. Crandell, Port Perry, writes : "I contracted a severe cold last winter, which resulted in my becomin totally deaf in one car and partially so in the other. FACTS ABOUT HEALTH

Is Easy to Keep Well If We Know How-Some of the Condition & Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such record of cures as Hood's Sersaperilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Barsaparills. It is depended upon as a family modicine and general regulator of the system by tens of thouands of people. This is because Hood's Sarasparilla makes the blood pure, This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Barsaparilla, which absolutely cures when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take CHAS. L. NELLES
