The American and Spanish commissions met in joint session at Paris on Monday and the Spanish commission immediately announced the acceptance of the American demands. These include the acquisition of the whole of the Phillipine and Salu groups for \$20,000,000, and it is also understood the United States will purchase the Caroline group. The question of the debt

of Cuba was left unsettled.

Replying to a question in reference to the date when Parliament will likely be summoned for the despatch of the business, a member of the Ottawa government, while in Toronto the other day, ventured the opinion that it would not be called earlier than the lat of March and not later than the 15th. The International Conference, now in session at Washington, will probably interfere with the Government being able to consider necessary work for the session before the Christmas holidays.

After a short discussion the convention decided to undertake the partial support of a missionary in British Columbia and the following persons were appointed a committee, viz. Revs. J. G. Scott, J. Like a skilful physician Mr. Crows was always ready with the remedy, which, if applied faithfully, would be attended with beneficial results in strengthening the weak places.

"The Literary Evening" by Miss Harrion, of Elora, and "The Social Work of the League" by Miss Featherstone, of Acton, were papers of high merit and were much appreciated by the convention.

"This 'Year's Reading Conrec" was introduced by Rev. Mr. Crews in such a happy and forceful manner that many o our Leaguers will no doubt be induced form reading circles for the purpose of becoming better acquainted with these charming books of the course.

The many cases brought to his notice of residents in this vicinity being oured from physical disorders through the agency of Dr. Williams' Pink Pills, have created in the mind of the Acadien representative a sincere belief in the healing powers of this remedy. · Yet withal he was a little incredulous the other day when told of a young man who had been cured of a very serious and deplorable disease by the use of only some two boxes of these little miracle workers .- It seemed impossible that such a remarkable healing could be wrought even by Dr. Williams' Pink Pills in such short order. Accordingly he was possessed of a strong desire to investigate. Mr. Winfred Schofield, of Gaspercan, was the address given us by our informant, and we were not long in hunting him up. We found Mr. Schoffeld to be a bright young

man of about twenty years of age and of

more than ordinary intelligence. His air of candor and straight-forwardness dispelled any doubts we may have had. In a very few words he stated to us his case. "Two years ago," he said, "I was taken with an attack of St. Vitus Dance. Sometimes when at work I found that my fingers would all at once straighten out and I would be compelled to drop anything I was holding. One day I was using an axe when seized with one of these attacks. The axe slipped from my hands and in falling struck my foot and gave it a nasty out. After that you can depend upon it I left axes alone, and it was not long before I had to give up casing any kind of tool. My complaint rapidly grew worse and I was soon unfitted for any sort of work and took charge of the work of the conven- Everything possible was tried by me in order to get relief, but I got no better.
