

Many persons have their good day and their bad day. Others are about half sick all the time. They have headache, backache, and are restless and nervous. Food does not taste good, and the digestion is poor; the skin is dry and sallow and disfigured with pimples or eruptions; sleep brings no rest and work s a burden. What is the cause of all this?

It clears out the channels through which poisons aro carried from the body. When all impurities are removed from the blood nature takes right hold and completes the cure. If there is constipation, take Ayer's Pills. They swaken the drowsy action of the liver; they cure biliousness.

Paine's Celery Compound

The only Medicine that Works Complete and Perma-

nent Cures.

The ablest and best men and women of our country-doctors, clergymen, lawyers, bankers, merchants and literary womenhighly praise and recommend Paine's Oelery Compound as a sure cure for rheumatiem and sciatics.

Remember well that disordered nerves. faulty digestion, and a slow and incomplete nutrition of the body invite rheumatism, just as they do nervous debility and neuralgia. There is no surer start for rheumatism than a run-down, nerveless condition. You cannot cure rhoumatism by outward applications. The disease is due to intern al troubles and must be constitutionally attacked and got rid of.

Paine's Celery Compound gives a health one to the stomach, increases the appetit and regulates the bowels, liver and kidneys to that they easily throw off poisonous matters that the sluggish system has allowed to lodge in the blood, causing rheumatism and like disorders.

Bear in mind that rheumatism neglected means increased sufferings and certain death. Be wise while you have a fair measure of health and strongth left. Uso Paine's Colory Compound and banish an enemy that has no mercy when it obtains the mastery. It solely remains with you to determine whether you will banish danger or remain in misery and wretched-

FAMILY READING. There are some well-meaning (Christian people who appear to have little or no concern in the literature which they allow their children to read. We prefer to think it thoughtlessness rather than indifference in regard to the kind of reading matter which they have in their homes. Every moderately intelligent person knows, or should know, that the mind is influenced to a more or less degree by the impression made upon it in early years, and where, side from actual observation, does the werage child or older person receive more ideas than from reading?

A farmer had a herd of cattle, and Jay Gould went to look at it. In the midst of the bantering, a woman appeared, who had little talk with the farmer. Gould caught a word now and then : "Now don' husband, I beg of you not to; if you have any regard for me, don't. I shall die i you do." "What's the matter with that woman?" said Gould. "Oh, nothing-my wife has a favorite cow; she is called 'Old Pailful,' and the woman is afraid I'm going to sell her." . The woman hung round, and of course, Gould demanded that "Old Pailful" should be brought out. She was a picture, and the young trader said that the sow must go with the lot if he made the purchase. The cows were driven home, and the father sent Jay out to see what kind of a milker "Old Pailful" was. He had scarcely seated himself before the cow threw him, pail and stool, sky-high; she tore around the pasture, leaped the fence, and started for home. Ever after, Gould never bought anything that a woman wanted to keep for herself .- Stamford N. Y
