Poetry.

If all who hate would love us And all our loves were true, The stars that hang above us Would brighten in the blue

If cruel words were kinses, And every soowl a smile, A better world than this is Would bardly be worth while If purses would untighten

To meet a brother's need, The load we bear would lighten Above the grave of greed. If those who whine would whistle And those who languish laugh, The rose would rout the thistle, The grain outrun the chaff;

If hearts were only jolly, If grieving were forgot, And tears and melancholy Were things that now are not-Then Love would kneel to Duty. And all the world would seem

A bridal bower of beauty.

A dream within a dream.

Then every day would gliston,

And every eye would shine.

If men would come to worry, And women come to migh, And all be glad to bury Whatever has to die-If neighbor spoke to neighbor As love demands of all, The rust would eat the sabre. The spear stay on the wall;

Mrs. Phelps Revelation. "Madam, I need help : won't you gi

me something ?" The question was addressed to Mr. Phelps, who had just entered her carriage. "No, I've no money to waste on lazy vaga bonds!" was her sharp reply, as the

arriage door slammed. Mrs. Phelps, a wealthy young widow prominent in fashionable society, was in an appleasant frame of mind. She had just visited three of the largest stores in the city in a valu search for a certain costly fabric, and now felt that she was an exceed ingly unfortunate and most ill-used individual. Presently the carriage drew up front of another store, which Mrs. Phelps entered, after instructing her four-year-old son to remain seated in the carriage until her return. Master Phelps was ver obedient for about three minutes; then his attention was attracted by something which appealed to him quite as strongly as to a less aristocratic juvenile—the antice of a monkey under charge of a peripatetic musician. Standing on tiptoe, he laid his hand egainst the door, which, having been socidently left unfastened, yielded to the pressure and partly opened, and in a very short time the young gentleman was out of the carriage and half-way across the street Then, in an instant there was a hourse ory of warning, a woman's shrick, and some thing grasped the boy, swung him from right in front of a runa way team, and laid

him, frightened and soreaming in his mother's arms. After she bad soothed the child and pu nim into the carriage, Mrs. Phelps turned to the rather shabbily dressed man to

But the man refused the proffered gold "Why should you award a lazy vagabond? That is what you called me a bit ago when I asked you for comething," he remarked.

rickety, filthy stairs, was admitted to s small attic room, lighted by a single window. The floor was carpetless. A cracked tove, an old table, a large box which served as a copboard, a bed, and two or three broken backed chairs, were the only furniture. But though so bare and comfortless, the room was clean. Upon the scantily covered bed lay two persons, a woman of perhaps thirty-five, and a little girl of about six, both evidently Ill, and both sleeping

"I asked you to come here because wanted you to see this," said Thompson, in a low voice. "This," with a comprehensive wave of the hand, "is my home. You see all my furniture, except what's at the pawnshop. I have no fire, and no fuel to by the dostor, but none of the comforts needed by my sick wife and child. This madam, is why I asked you for help this morning." Mrs. Phelps covered her face.

"I never dreamed of anything like this, she said. "There are many things which you riol people never dream of," said Thompson bitterly.

"How long have you been in this deplorable condition ?" asked Mrs. Phelps. "To-day is the first I've had to beg," was the reply : "I'd have thrown myself into the river rather than do it if it hadu's been for them. But I couldn't see them starve.

ALCOHOL A BRAIN POISON. It is so to all intents and purposes. It seizes with its disorganizing energy upon that mysterious part whose steady and undisturbed setion holds man in true and responsible relations with his family, with society, and with God, and it is this fearful part that gives to government and society their tremendous interests on the question. Is not society, is not every individual who makes, sells or patronizes the use of alcohol and leads the wretch to temptation and death, responsible ? Must not alcohol be a subject of law? Surely it must. There has always been a jurisprudence of alcohol; there is still; and the necessity for it will continue. But, the demand of the age is for a new, a higher and juster legislation, for more thorough potential law, through which the most obiquitous and omnipotent energy of government shall be expressed for the protection of society.-E. AS BIG AS A SAUCER. A youth at school in Haddington who lacked musical talent, and whose voice consequently jarred during the singing losson, was always allowed a holiday on singing days. In answer to her query as to why her son was sent home or such occasions, the teacher said, "Why. simply because he has no ear !" "What !" she exclaimed. "Nae ear? A SPLENDID NEWSPAPER

Talk about charity, patience, sociability and bank accounts in connection with the happiness of a home! Why these things are but parts, not the whole of home life. A very necessary constituent part of social happiness is a good family newspaper. Not one devoted to market reports, murders and the morbid doings of the decaden undergrowth, but a brightly edited, finely printed, well illustrated, clean review of daily events in the world, comments and characterizations thereupon, and such an admixture of humor, poetry, personal gossip, and protty plotures as shall add spice to the whole dish. . Such a journal i Toronto Saturday Night, which for eleven years has been a source of joy in thousands of Toronto and provincial homes, and i eagerly looked for by those up happily exiled from this Queen City of the West. Satur day Night takes life seriously but not sadly. Whilet it has no party to serve nor fad to float, it keeps a free lance for humbug corruption and superstition, under what ever guise they present themselves. Its features of personal and social gossip, and current comments by Don and other writers won for it an immediate field which

has ever since been held. There have been mitations but there is only one Saturday Night. Its editors and contributors are men and women who travel and think, and that is the reason their weekly output is so entertaining. Go with them and they'l split thy sides with laughter and make life something more than a dull round of toil. Saturday Night really does not cost one anything, but the publishers and news dealers expoot 50, per copy or \$2.00 per year. Printed and published at Saturday
