## The Actor Free Press

THURSDAY, FEBRUARY 2, 1800. NOTES AND COMMENTS.

Mr. W. J. White, Immigration Department, says that spring will see 7,000 French Canadians and others brought to the Canadian Northwest from the United

The number of burials recorded for the month of January, 1800 is 281, as compared with 168 for January 1898, and 101 for 1807. Physoians say la grippo is responsible for the great increase .-- Toronto

"It is not an uncommon thing" Said Mr. Shaw, of Loudon, England, in an interview the other day "in fact it is a common thing, to hear people ask for Canadian butter or Canadian cheese in preference to Danish butter and Danish cheese, just because the produce comes from Canada, and the same in respect to other products.

It is said that one of the bills to be presented at the present session of the Optario House will be a "Good Roads" bill to provide a grant towards the main when the matter is reasonably considered. tence of the main roads, providing Governsupervision, leaving the townships to look the suggestion that the Government advance money on debentures to the counties in order that the work may be entered on simultaneously. This would be right in line with the bicyclists' desires.

An article of particular interest just now is "The United States and Her New Possessions," contributed to the February Chautauquan by Mr. John W. Hardwick. The question of expansion, with the attitude of President McKinley and many prominent citizens, is discussed; interest ing statistics of the commerce of Cuba; Paerto Rico and the Shillipines are given ; movements toward the reformation o existing conditions in these islands are cited; and the form of government to be adopted and the expediency of annexation agitated. The paper is at once exhaustive and conclusive.

The beneficial effect of the establishing of the Provincial Municipal Auditor's Department is already manifest. Last year the defalcations on the part of municipal officers totalled over \$100,000. For the year just closed they will not come to one quarter of that amount. One effect of the introduction of the new books has been the appointment of new municipal treasgrees and clerks in many places. The returns now coming in to the bureau of Industries are signed by new men wh have superseded those who could not carry on the work of keeping the books in proper manner.

Statistics quoted by the retiring President in his valedictory to the Toronto Board of Trade ought to prove to the farmers of Ontario that their future occupation consists largely and most profitably in the growth of live stock and the manufacture of dairy products. While our exports of have fluctuated up and down from year to year, that of animals and their produce has steadily increased each year during the present decade. This trade has developed from \$25,106,995 in 1890 to \$44,801,470 in 1898. Canada now supplies 60 per cent of the cheese imported by Great Britain. As yet we supply only one-thirtieth of the butter imported by the Mother Country but this fact only shows what an immense market is available to us, and what big figures our exports of butter will reach we only cultivate this market as we have that for our cheese.

WEIGHTS AND MEASURES. Several Important Changes in the

Act, of General Interest. The Weights and Measures Act and its in two circuits independent of ouch other, regulations have been altered in some important particulars, the scope of which the commercial service, also independent. public should be informed. Auctioneers, The main driving belt is a 16 inch belt, second-hand dealers, and repairers or 65 feet long, and the dynamo belt is a 10 adjusters of weights and measures, or inch, double, endless. Both were supplied be ready for his long journey. weighing mechanics are "dealers" within by the belting department of Acton Tanthe meaning of the act, and therefore cannot have in their possession any weights, measures or weighing machines but such as can be inspected, nor can they sell or allow these to go out of their possession until they have been inspected and

eighty pounds. The equivalent for a bushel of onions is fifty pounds. Weighing machines used for colleries, cheese factories, clevators, flouring mills (other than grist mills), grain warehouses, public markets, and for the weighing of coal are to be inspected every year, also spring scales. The using with a weighing machine a greater number of weights than is required by its certified capacity subjects the delinquent to a penalty of ten dollare. For determining the weight equivalent of a bushel of certain cereals, lime and coal, a smaller measure than a bushel shall

In case of dispute as to the correctness of a weight, measure or weighing machine, if an Inspector or Assistant Inspector is requested to inspect them, the fees for the inspection shall be paid by the person

against whom the decision is given. The inspection of weights, measures and weighing machines is to be done by the Weights and Measures officers on the premises of the traders, unless the traders voluntarily bring them to the offices of the

Inspector. No weighing machine with a "scoop on" or "scoop off" or similar contrivance is to be permitted, and any now in one are to permanently fixed in compliance with

Spring scales of a superior quality and after having been subjected to hydraulio

pressure tests by the Department at Ottaws, are permitted to be used. since it has done so much for me.". May The inspection of a computing scale Rayn, North Street, Oungah. Outario.

does not include the computing part, only the part that weight. Former regulations requiring certain qualities of tin in measures of quantity are

capcelled. All that is now required is "atout tin plate." The foundations for weigh bridges and hay scales are to be of stone wherever

A GRATIFYING SUCCESS.

electric light was an established fact and

that the streets were brilliantly lighted in

installed the lights in their places of busi-

noss, as well as by those who have had it put

into their residences. With the prevailing

moon-light the new incundescent electric

lights were somewhat at a disadvantage,

but the contrast over the old coal oil lamps

was striking and emineutly satisfactory.

impatience was manifested at the apparent

delay of the contractors for the electrical

machinery in sending forward the dynamo

and connections. But it arrived and was

placed in position just as soon as the rest

of the plant was ready for it. In fact the

wire men might have gone on another

week with the installation of lights without

causing inconvenience to any one. The

expedition which has characterized the

putting in of the plant, in every depart-

ment of the work, is indeed, a marvel,

Do our citizens realize the fact that the

vote by which the property owners gave

assent to the by-law was not taken until

the 4th of November last; that the by-

law was not ratified until the 15th, and

that the contracts were not signed until

the 22nd of that month? Further, that

after this date-when winter had begun in

real earnest - the excavations for the

power house were made, the building erect-

poles out in the bush, hauled to town

peeled and trimmed; the plan of the town

holes dug and the poles erected; the wires

strung; the buildings wired; the lamps

installed on the streets and inside, th

machinery built, shipped and erected; the

whole accomplished in a little over two

months? Is there any room whatever for

complaint of lack of dispatch? Certainly

For this remarkable accomplishment

special credit is due first to Reeve Pearson

and the Fire and Light Committee. These

gentlemen failed to spare thereselves in

every department of the work in operation.

They were at the beck and call, of engine

and boiler makers; the electrical manufac

turers, the builders, the line men, etc., and

they gave their best consideration to these

matters day and night. Their efforts were

seconded by all who had charge of the

various works. Electrician Reynolds had

general oversight of plans and arrange-

ments; Mr. N. Forbes and Officer Graham

of the erection of the power house; Mr.

W. Cowan, of the Goldie & McCallough

Co., of the placing of the boiler and engine

machinery department for the W.

Johnson Electric Co. Every man

dispatch and as a result we have withi

maple with walls and trimmings

dressed red birch. The engine and dyna-

mo room is 24 by 37 and the boiler room

24 x 18. The engine is of the Wheelook

type; capacity 75 h. p. nominal and the

boiler 00 h. p. These were supplied by

the Goldle and McColloch Co., Galt., and

aphold the reputation of that well-known

firm. The dynamo is a fifty kilowatt

machine, with a capacity of 1000 incandes-

cent lights. It is of the alternating current

type, which system has been placed with

much success in various electric stations.

This firm also supplied a fine two panel

of controlling instruments. There are

82 c. p. incandescent street lamps, arranged

and a third circult for domestic and

sufficient to meet all the demands of the

light produced is clear, bright and steady,

Mason, will presch next Subbath. The Rev. J. A. McLachlan, M. A. Acton, read a paper before the Ministerial Association at the Manse in Norval on Monday on "Christian Science. The subject was carefully considered and the paper highly appreclated. During the meeting Rov. T. R. Forbes, Acton, was elected President. The retiring President, Rev. G. A. Mitchell, suitably introduced Mr. Forbes, who made a very appropriate

introductory speech. Dyspepeja's Clutches .- Dr. Von Stan's Pincapple Tablets are nature's most wonderful remetty for all disorders of the sigmaght. The digestive powers of pineapple oan be tested by mixing equal parts of pincapple and beef and agitating at a temperature of 180 . Fahrenbei

A VICTÎM OF NEURALGIA

MRS. ROBERTS, OF MONTREAL News Itoms Supplied by Corres-TELLS A WONDERFUL STORY. pondents and Exchanges.

Sho Was a Sufferer for Some Seven Years, and Medical Treatment Falled to Give Her More than Temporary Relief --- A Herald Reporter Investigates the Case.

from the Herald, Montreal. "I thought it was something wonderful when I went three days without being ick," said Mre. Annie Roberts to a representative of the Montroal Herald, referring to her remarkable recovery from an illness of over seven long years. Mr. and Mrs. Roberts reside at 34 Wolfe street, Montthe finest rquipped farms, in this part of real, and the reporter was cordially welcomed, when he went to inquire as to the truth of the report that Mrs. Roberts bad been restored to health through the use of Dr. Williams' Pink Pills. Mr. and Mro. Roberts came to Canada from England a little more than five years ago, and Mrs. Roberts' illness began while still in the Old Country. "I was really the victim of a combination of troubler," says Mrs. Roberts. . For seven years, neuralgia; with all its exernelating pains, has been my almost constant attendant. Added to this I was attacked with the umatism and palpitation of the heart, and for the last five years, was not able to get out of doors during the winter months. Sometimes I felt as though those pains in my head would drive me mad; my nerves were all unetrung and a knock at the door would send me nearly crazy. I was treated at different times by four doctors since coming to Montreal, but without any lasting good, and I had given up hope of being better on this side of the grave. A friend of mine whose father had been helpless for two years, but was restored by Dr. Williams' Pink Pills urged me to try them. My conducted the service. The pall-bearers | busband asked the dector who was attending me what he thought of them, and the were his four sons and his two grandsons. doctor relpied that he believed them to be a good medicine. This persuaded me to can form any idea of my condition when I began taking Dr. Williams' Pink Pills, and I had only taken three boxes when I began to recover. But seven years of pain had nearly shattered my constitution and I did not look for a special recovery, and I was more than gratified to find that after I had used I think about a dozen and a half boxes, I was fully restored to health. It scomed all the more wonderful because the doctors both in England and hero never did more than give me temporary relief, and their treatment was much more expensive. The past summer was the first in years that I really enjoyed life, and I was able to go on a visit to Radnor Forges.

> beadache, but the pills have made her feel all right again. I never fail to recommend Dr. Williams Pink Pills when any of my friends are ill," said Mrs. Roberts. "While visiting at Radnor Forger, I urged a young lady triend who had long been a sufferer from curvature of the spine, and obstinate constipation to try them, and they have done her a vast amount of good."

> Dr. Williams' Pink Pills have also been of

much benefit to my daughter Violet. She

is just nine years old, but she suffered a

great deal from pains in the back and elck

The reporter confesses that Mrs. Rob ert's story is a wonderful one. That she is now thoroughly well is clear from her face, her manner, and her happy spirit. Mr. and Mrs. Roberts are intelligent and roliable people. Mr. Roberts is head engineer in the biscuit works of Viau and Frore, the wealthiest firm in this line in the Dominion, and he fully endorses the good words his wife has to say in favor of Dr. Williams' Pink Pills. In fact he says the speedy care they wrought in his wife's case has saved him many dollars.

Dr. Williams' Pink Pills have no purgative action and so do not weaken the body They build up the blood by supplying it with the elements that enrich it and strengthen the nerves. In this way they oure all diseases having their origin in poor and watery blood. Always refuse the Pink colored imitations which some dealers offer. See that the full name Dr. Williams' Pink Pills for Pale People is on every package you huy. If in doubt send direct to the Dr. Williams' Medicine Co., Brookville, Ont., and they will be mailed

Grateful content is a good sauce to serve with any dioner. JUST LIKE SMOKE.

BEAUTY

beauty differ sort of lovliness that all agree upon is the beauty of health. No matter what he

features, no sickly woman can be attractive. Sallow skin, sunken checks, plimply face, hollow eyes, lifeless lips these are repellant. And they can nearly always be traced to the one cause-womanly weakness or disease. Almost all the ills womankind are cured if you put the feminine organism into healthy, vigorous condition. All sickness of women seems to involve these delicate organs and so no matter what the symptoms may be it is best to look there for the real trouble. All such disorders are completely and permanently cured by Dr. l'ierce's Favorite Prescription. It is designed for just this one thing and is the only preparation of the sort produced by a regu-larly graduated physician — a skilled specialist in the diseases of women.

Miss Mand Kenyon, of 1533 Orango St., Los Angeles, Cal., writes: "I had been afflicted with my eyes for over a year with such a dreadful liching and inflammation that I could not use them for anything. Physicians had given me many different remedies which were like using so much water; they measured my eyes for glasses; the glasses did not benefit me in the least. My mother desired pie to write to Dr. R. V. Pierse, at Buffalo, N. Y., and explain the condition of my eyes. I'did so, and after following his advice, and using eight bottles of the Favorite Practition' and eight of the Colden. possible, sufficiently deep not to be affected possible.
