## LIVES OUT OF TUNE

The secret of a serene, strong, inspiring life is a life in perfect tune with God's keynote. Many a man has at least a subconsciousness of an importest adjustment of his life. Somewhere, in some way, self is grating against duty just enough to give paid a visit, the result of which was the And, just as one tosses aimlessly on the exchange of all his right and title for the bed when uncomforable in sleep, constantly seeking ease in new positions, so the for peace. Such a one usually has a vague expectancy that, some time or other, he too will possess such experiences as he hears described by others. Some day he too will reach his best estate, will live a life calm, strong, elevated above petty harassing. But that can be attained to Though lime in its many forms is one of | now. Adjustment of the life to God's revealed plan is the remedy.

COOKERY FOR BOYS. coys of the family to be brought up to a knowledge of cookery. Still every boy should be sufficiently instructed in this art to be able to cook without ensking a disgusting and uppalatable mess of it, the army ration or any other equally simple and common articles of food. All boys need not be and should not be gooks. but every young man of 18 or 20 should for the sake of being able to meet a possible omergency in demestic or national life know how to boil rice, stew fruit, fry bacon and make coffee. The idea that it is beneath the dignity or does not belong to the duties of the boys of the families to assist their mothers and sisters when occasion requires in the domestic realm is inimical to the production of good soldiers and, it may be be added, of good husbands.-Portland

A good story is told of Sir Walter Scott. It seems that he was far from being a brilliant scho'ar, and at school he was usually at the foot of his class. After he became famous he one day dropped into the school to pay a vielt to the scene of his former. woes. The teacher was anxious to make pupils through their facings co as to show them to the best advantage. After awhile Scott said :

teacher called up a poor fellow, who looked temporarily increased, short date policies the picture of woe as he bashfully came can be placed in addition to the yearly toward the distinguished visitor. "Are ones. you the dunce ?" asked Scott. "Yes, sir, said the boy. COLONIAL VALENTINE TO A BELLE IN 1770. There's not a damsel in ye towne But distanced is completelle

That fits her forme see neatile. I would I were ye golden pinne That clasps her frock securite. Soo I might kisso her dimpled thin pe When downe she looks demurite.

By Polly in her prim graye gowne.

Yo little rulle at her wriste I envis for its nearnesso To her faire hand, which of hath kirsed These folds of puckered Sheernesse.

Thro' filmy lashes glancinge, Within my rober Quaker guise My hearto is set a dancinge. And when upon yo windy square

If I behold her eyelids falle Beneathe my glancos steadle cannot belp but hope withal, Sluce we are "Friends" alreadle.

My all-too ardent passion-I foar sometimes yo Spirit moves In very worldie fashlon-For in this citie where ye Penn Above ye sword hath bonour.

Had best not gazo upon her; For the' I am a manne of peace. And the my hearte is tender, I'd challenge all vo Colonirs . If needs were to defende her

That thou wilt doign to heare it; Tis onlie that Sainte Valentine For thee and me discovers That we should walk as thine and mine-Not friends alone, but lovers .-Jennie Betta Hartswick in the February

FIRE INSURANCE. Keep your premium paid. "How much insurance do you carry"? and not; "Are you insured?" is the question now asked, as experience has shown it to be a most valuable asset, and in many cases the unly maset after a fire. Insurance, in case of fire, not only embles a merchant to resume business; an impression on the writer and put the but to meintain his independence by obiviating the necessity of asking favore. How much to carry ? 72 per cent. on the average value of his property, is not too much under ordinary oircumstances, and one, surely? Show him to me." The during the seasons, when stocks are

> A notion seeins to prevail among a great paying a loss is concerned), and as the premiums do not vary to any extent, the merchant buys insurance, unlike anything else, generally giving the order to some friendly agent, with whom it is well to be on good terme, for business or personal reasons; the question of examining the quality of his insurance never enters his mind. Always seek the best and most

> reliable companies, in which to place your neurance. It is advisable to examine your policies carefully, see that the dates and amounts agree, as well as particular items, very slight errors such as omissions or substitutions of seemingly unimportant words

will at times make a great deal of trouble. THE BOY AND HIS TRADE. "Seventeen is the preferable age for

going to a trade, but in many cases sixteen

is not too young, nor eighteen too old."

writes Barton Cheyney in the February

Ladies' Home Journal. "But, all condilions being favorable, it is well for a boy to arrange his apprenticeably so that he can finish his trade by the time he is twentyone. One of the advantages of going to a trade early is that it allows the lad time to. vocation, and there is no infallible method or rule that can be followed in order that such mistakes can be avoided. But the best course to pursue is for the lad to fally I have used Hagyard's Yellow Oil for the acquaint himself with the details of the past ten years and find it a splendid trades to which he may incline before he remedy for Neuralgia, Bronchitis, Croup, makes a selection. This can be easily Sprains, Chilblains, etc., in fact we use it | done at the expense only of a little observafor almost every pain and it always tion and inquiry. Then the matter of natural aptitude can be considered-and it is a most important factor-so that the Gentleman (purobasing butter): and lad can avoid going into anything for which he has no special fitness. It is asserted that every one is adapted for some one thing better than anything else, and the boy should strive to discover what that one thing is. It would be a great Wood's Norway Pine Syrup. It never | mistake for a lad without a natural bent for mechanics to attemp to learn the machinist's trade, and the chances would be against such a boy's proper advance-
