Stricken With Paralysis.
While engaged at his work in the yard of Acton Tanning Co. on Monday morning, Mr. James E. Cobban was suddenly stricken with paralysis on the right side. For a short time he was unconscious, but soon rallied and was conveyed to his home. For the past two days there has been very little change in his condition. He had not been very well for several weeks, but was out to the anniversary service in Knox Church on Sunday and felt quite equal to his usual work on Monday. His speedy recovery is sincerely hoped for by all.

The Sudden Death of Miss Maggie Cook.
Rev. R. B. Cook returned from the funeral of his grand-daughter, at Palmer on Thursday evening. Her death was very sudden. She was never very robust in health, but was going about as usual the day before, and retired at her usual hour. A sister who passed through the room at nine o'clock spoke to her and received a jesting reply. She failed to come down to breakfast next morning and when her mother went to her room, she found that her spirit had peacefully left the mortal coil. She was twenty-two years of age, and a bright, happy, Christian young woman. Her friends feel keenly their sudden bereavement.

The Special Services This Week.
The evangelistic services in the Methodist Church have proceeded during the week with a growing interest and larger attendance. The services are announced by Mr. McDermid and his interesting and impressive discourses have had a manifest effect in stirring up Christians and awakening sinners. The methods adopted are thorough, have the fullest sympathy of the congregation, and a short, but permanent results. A prayer meeting attended with much power was held at 9.45 Sunday morning and the services at the Sunday School in the afternoon and with a large congregation at night were very fruitful. The services are announced to continue until next Tuesday evening. The subject this evening will be "Out of the Mine into the Oubliette"; to-morrow evening, "Bible Studies"; Sunday morning, "Abolish Surrender"; evening, "The Mag Who Missed It." At 8.30 on Sunday afternoon Mr. McFarley will speak on "The Pleasure Dance," by request.

Another Successful Anniversary.
The anniversary of Knox Church held on Sunday and Tuesday evening was another successful one. The services were held at 8.30 on Sunday afternoon and 8.30 on Tuesday evening. The choir, which was well rendered, as were also the other numbers. After singing Rev. Mr. Molloy, the lecturer of the evening, was introduced. After a few pleasantries he plunged into his lecture on "What's Wanted." The lecturer emphasized: 1. That men are wanted. 2. That what is wanted is quality, and not just quantity. 3. That true men are wanted in every place—in the church and in politics. The lecture was enjoyed by all and on its conclusion a vote of thanks was tendered the lecturer on motion by D. Henderson, M. P., seconded by Mr. William McPherson. The Rev. Mr. Forbes of the congregational Church kindly presented the choir and the ladies for the parts performed by them in the entertainment. This was heartily appreciated by Mr. Molloy. The proceedings closed with the doxology.

BROOKVILLE.
A meeting of the Halton Farmers' Institute was held here last Thursday. Simpson Rennie, Milken, and J. E. Orr, Fossiland, were the Government deputation at the afternoon session.

Mr. Orr gave an address on "Spraying an Apple Orchard." There are just three stated times that can be manipulated for spraying: 1. Just before the trees come out in bud; 2. Before the blossoms open; 3. After the blossoms fall. For the protection of honey bees a law has been passed prohibiting spraying while the trees are in bloom. After three sprayings a farmer must use his own judgment. The solution recommended is as follows: Copper Sulphate..... 4 lbs. Lime (fresh)..... 4 lbs. Paris Green..... 40 gals. Water..... 40 gals.

Mr. Rennie gave an address on "The Importance of Fall Cultivation." Flow shallow immediately after the crop is taken off and harrow to encourage germination of small seeds and then plow again before winter and most of the small seeds will be killed. Mr. Rennie follows an eight year rotation of crops as follows: two years clover, one year pasture, one year peas, one year fall wheat, one year oats, one year roots and one year barley and seed down with clover.

A. McGillobay, Esq. Beave of Nassagaweya, occupied the chair at the evening session. The hall was crowded to the doors, there being about five hundred present.

Mr. Rennie spoke on "Our Country Past and Present," and Mr. Orr on "The Common Insect Attacking Fruit and How to Destroy Them."

The address was interspersed with music, vocal and instrumental. Forty-two names were added to the membership list at the meeting, which brings the membership up to the largest number it has ever had in Halton County.

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my kidneys were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued to use and in his made me a new woman. I cannot praise it too highly." Mrs. SUMMERSVILLE, 217 Osgoode Avenue, Toronto, Ontario.
