Many persons have their good days and their bad days. Others are about half sick all the time. They have headaches, ticks, and are restless and nervous. Food does not taste good, and the digestion is poor; the skin is dry and sallow and disfigured with pimples or eruptions; sleep brings no rest and work is a burden.

What is the cause of all this? Impure blood. And the remedy?

It clears out the channels through which poisons are carried from the body. When all impurities are removed from the blood nature takes right hold and completes the cure.

If there is constipation, take Ayer's Pills. They awaken the drooping action of the liver; they cure biliousness.

**CHEERFULNESS.**  
There is many a sorrow  
Would vanish to-morrow,  
And into darkness depart,  
Did we not worship,  
And constantly adore it.  
This sorrow that vexes our heart,  
There is many a trouble  
Would burst like a bubble,  
Did we but furnish the means;  
But always intending,  
In quiet the brooding,  
And hatching most horrible dreams,  
No let us be merry,  
Light-hearted and cheery,  
And put away sorrow and care;  
Let us look for the sun,  
And from trouble run,  
And never a sad face wear.

### TRAINING THE VOICE.

Beauty of Utterance in Speech or Song is a Mark of Culture in All Good Society.

Aristotle said: "It is not only necessary to have something to say, it is also necessary to know how to say it." A well-trained voice is a mark of culture in all refined society. This is as true in speech as in song; the same principles govern both, but are even more important in relation to speech. Song implies a distinct and a certain pitch of voice. Modern civilization exacts purity of speech and distinct articulation, but—

"Tis not enough the voice be sound and clear,  
The modulation that most charms the ear."  
Mr. Morrell Mickelson says: "It is a mistake to think that speaking requires no special training and exercises. Even in ordinary conversation speaking is an art, and a difficult one." For the man and woman of society who wish to speak with confidence and the speaking or conversational voice is to be handled with a deft and wholly unnecessary. A well-modulated voice may be acquired in adult life, but the preferable period of acquisition is in childhood and youth.

The majority of mothers are not aware to the beauty of utterance. If they were they would consider acquisition of a well-modulated speaking or conversational voice should go hand in hand with piano playing and singing. If the cultivation of the speaking voice had been given the attention and study that piano playing has received, the disagreeable element so often complained of in the American voice would have disappeared long ago.

Sprague said: "I believe that everyone should train his voice and body under some system of elocution. First, for the health it affords; second, for its equalizing effects; third, for the advantage it gives over others for usefulness."

The better half of the family never knows quite as much about how the other half lives as she would like to know.

When a man gets into trouble the majority of those who call to sympathize with him are only after the restoratives.

### CATARH CHOKED HIM.

Insidious, Deep-Seated, Relentless Disease—Brought to Vanish by the Dr. Agnew's Catarrhal Powder Treatment—Relief in Ten Minutes.

Mr. Benjamin F. Womb, St. McGee St., Toronto, says: "I was troubled with that insidious disease, catarrh—for many years. It became very deep-seated, and was rapidly growing worse, with disgusting discharges from my nostrils and the dropping in my throat almost choked me at times. I tried a dozen so-called cures without any relief, but after using a few bottles of Dr. Agnew's Catarrhal Powder I was completely restored, and I believe permanently cured from this loathsome disease." Sold by A. T. Brown.

The serum that is born to the procrier's heart, makes itself at home in the hearer's.

**WORSE THAN WAR.**

Hundreds are killed in war, but hundreds of thousands are killed by consumption. There would be no death at all caused by this terrible disease if people could be made to understand that germs which taken in the early stages, 25 cents, 50 cents and \$1.00 a bottle. Druggists will refund the money if a cure is not effected.

Love is the one universal badge of the Christian.

Rheumatism—Have you tried all the remedies you ever read or heard of hoping for a cure? If you're afflicted still, take Milburn's Rheumatic Pills. They never fail, guaranteed to cure or your money back. Price 50 cents.

Beligion and reason never disagree.

Mrs. Joe Doty, Fort Gilbert, N. S., says: "My little girl would cry her teeth, so I concluded she had worms. I gave her three doses of Dr. Low's Worm Syrup which acted with good effect." Price 50c.

**DUEL'S DEATH KNELL.**

Duelling is passing out of France. Recently a Paris news man offered a fellow by criticism, and to a letter received.

"You are below my level. So I sleepily send you a cuff on the ear by mail!"

In response this was sent: "Thank you for the cuff. In return I desire to shoot you with air bullets by mail. Consider yourself dead."

**STEALING THE BAIT.**

An amusing little comedy is reported to have taken place in Philadelphia, showing that the demure Quaker maiden is a match for the astute New York advertiser. It seems too bad to ring the curtain down before the final scene, but we are compelled to confess to a very pretty and witty advertisement, so we will give it a brief and uncomplimentary notice. The advertisement is a story of a young girl who had been seduced by a man who had stolen the bait. The girl was so much affected by the loss of her virtue that she was unable to work or eat. She was finally cured by Dr. Agnew's Catarrhal Powder.

## KIDNEY PILLS

The above is the name and trade mark of the original Kidney Pills.

The only reliable Kidney Pills. They were placed on the market by Mr. James H. Knapp, Kingston, Ont., Feb. 19th, 1885—long before other Kidney Pills were thought of.

Their phenomenal success in all parts of the world, as well as in Canada, has brought forth many imitations. Take nothing that has a name that looks or sounds like D-O-A-N.

Always ask for D-O-A-N Kidney Pills—the pills that quickly and thoroughly cure all kinds of Kidney Pills after other remedies fail.

Every man can think of at least a dozen business enterprises better than his own.

Wells and Kidney Difficulty—Mr. J. V. Wilford, J. P., Lafargeville, N. F., writes: "I am subject to severe attacks of Colic and Kidney Difficulty, and find Parment's Pills afford me great relief, while all other medicines have failed. They are the best medicine I have ever used." In fact so great is the power of this medicine to cleanse and purify, that diseases of almost every name and nature are driven from the body.

Nobody ever sees a train without wondering where everybody is going.

Holloway's Corn Cure is the medicine to remove all kinds of corns and warts, and only costs the small sum of twenty-five cents.

### HE WANTS AN EASY PLACE.

Oh, that's it; you want an easy place, do you? I understand you, my boy. I have been right along there myself. I travelled over that road many years ago, when, I was, probably, about your size; so, perhaps, you will permit me to offer a word of advice.

Don't you think of being an editor, or a lawyer, or a merchant; don't be a mechanic, avoid all shops and stores; the army don't want you, the navy has no use for you; don't undertake the practice of medicine; keep out of politics; all kinds of public speaking and oratory let severely alone; don't undertake to write for the papers; don't, don't, don't! don't you ever think of being a farmer; never do you sell your little hands with your mind; avoid all study, don't read your book, unless it is all back.

This is a busy world you have got into, young man, and it has nothing but hard places for you; in fact, the only right easy place the world has for a man is the place of a dead man.

If you want money and noble parents, have you? That makes not the slightest difference. You must build up a character of your own, young man.—Bain's Flare.

**BURNING GAS FROM ICE.**

A correspondent of Science describes an interesting experiment witnessed on a skating lake near Baltimore. White spots resembling air-bubbles were noticed in the ice, and one of the skaters bored a hole into such a bubble and applied a match to it, whereupon a flame burst out at the surface. Further experiments showed that a small hole bored down to the bubble a long thin jet of flame could be obtained which would last for a considerable time. The bubbles were due to accumulation of "vegetable matter at the bottom of the lake." The correspondent suggests that such supplies of marsh gas might be utilized for the illumination of skating ponds at night.
