Spreading A Good Report

It's a great thing. We believe a better advertising even than the good report of the people. Superior neighbors how well they have been treated, the low prices they have paid for goods, the advantage of trading and saving the trader's profits.

Almost every body who buys once from us comes again, because she finds that we told her the truth about the goods we sold her. Our theory is that it pays to be honest with the people. Some dealers go in for humbugging the people. It may pay for a while, but we don't believe in it. We pin our faith to a fair square deal.

Watch this advertising space and test the fulfillment of our statements. What We Say We do.
