A small church was sadly in need of repairs, and a meeting was held in it for that purpose. The minister having said five hundred dollars would be required, a very wealthy and equally stingy member of the church rose and said he would give one dollar. Just as he sat down, however, lump of plaster fell from the ceiling and his him on the head, whereupon he rose ap hastily and called out that he had made mistake, he would give fifty dollars. This was too much for an enthusiastic member present, who, forgetful of everything, called out fervently : "O Lord, hit bim again;"

THE VOICE OF LONDON. A writer in the Strand Magazine de scribes the astonishment he experienced when, riding over London in a balloon, at a height of more than half a mile, he heard the deafening roar of the great city beneath him, as it could not be heard when on the ground. The noise, even at that height was so harsh and intense as to be painful to the ear. How perfect a sound conductor the air is was shown when the balloon drifted far over the city to a wooded part of the country, where the murmur of the leaves moved by the wind, half a mile ling. Every one present craned forward below, was distinctly heard.

WHAT TO EXPECT IN CHILD'S

I do not think we should expect of children the sort of love of which we ourselves are capable. The child's love for the parent and the parent's love for the child are essentially different, and we may only arouse a sort of antagonism in the young by insisting upon our right to self sagrificing affection. Let us content with the sweet dependence, the demonstrative fondness that is nature's re-pouse to our nature promoted bostowa of ourselves upon our children. A degree When more flesh is needed; of stordy selfishness, however, is the prerogative of healthy childhood and capnot be regarded as and cannot be tegarded as altogether blameworthy .-Woman's Home Journal.
