### CANADA'S GREATEST FAIR.

T his year will mark the coming of age o Cauada's Great Fair and Industrial Exposition, which will be held in Toronto from August 28th to Sept. 9th. It is just twenty-one years since Toronto Exhibition was established as an annual institution under the present management. During that time it has increased five fold in every direction, and to-day can fairly lay claim to have assumed a national character. Last year upwards of 800,000 people attended, and this year such arrangements are being made as will warrant the expectation of a still larger attendance. Many entirely new features will be presented, while the exhibite, with an increased amount given in prizes (totalling \$35,000), will undoubtedly growd the six hundred thousand dollars' worth of buildings to their utmost. from exercising common sense? You can't do it. As the old rhyme runs ; The man's a fool who tries by force or skill. To turn the current of a woman's will For if she will, she will, you may depend on't. And if she won't she won't, so there's an end on't."

Common sense tells a woman that when she's sick she needs a doctor. Common hense tells a woman that in disease the first question is not of man or woman, but of recognized medical ability. Common sense applied to advertisements which invite women to "write to a woman because she is a woman and understands women," will show the women so appealed to, that it's no use to write to any woman bout disease unless that woman is

Common sense used in the reading of ertisements will discover that no claim is made in them to a physician's knowl-edge or diptoma. And that is not because the claim would be morally culpable as a lie, but because it would be legally pun-ishable as a fraud. The law permits you to masquerade as a doctor in an advertisement, just so long as you don't actually claim to be a doctor, or put M. D. after your name. That's why the advertisement is worded "write to a woman" instead of write to a doctor.

Common sense has brought more than half-a-million women, afflicted with some form of female disease, to Dr. R. V. Pierce as one of the most expert physicians in the United States in the treatment of femnie diseases. Dr. Pierce is a specialist. Ho has given more than thirty years of active practice to the treatment of female diseases. Dr. Pierce is not a "physician" by courtesy. He is a physician regularly gradlegally empowered to practice and with thirty years of experience in the treatment of diseases of women, which he has made his specialty.

The offer of free consultation by letter made by Dr. Pierce is a real offer, an honest offer. It is an offer backed by a medical institution, with a world-wide reputation,

a staff of nearly a score of regularly grad uated physicians, a practice which reaches every state in the Union and a record of more than half-a-million women treated and ninety-eight out of every hundred perfectly cured. Write to a doctor. That's the first thing. Write to the doctor. That's the next thing. The woman's doctor, is Dr. R. V. Pierce, of the Invalids' Hotel, Buffalo, N V.
