While the evidences in the West Haron election trial alleges more or less crocked ness in connection with the recent byeelection in that constituency, it is a great satisfaction to know that not a tithe of evidence or enspicion of irregularity attaches to the fair name of our old friend, Mr. Robert Holmes, of the Clinton New Era, late President of the Canadian Press Association, who represents the riding in the House of Commons.

Quite a political sensation was caused in England on the 5th of July, when the Liberals won both seats in the division of Oldham, where a bye-election was held-The seats had been held by Conservatives. The temperance people interviewed all the candidates and found the Liberals in favor of Sunday closing and local option, which is the propaganda of the temperance people at present. As a consequence all the independent temperance voters awang together onlto the Liberal side and elected their. candidates.

THE NATION'S HOLIDAY Toronto's Exhibition this year will un-

The entries for live stock, dairy products, ladies' work, manufact irers, grain, field roots and horticultural products close this week, but entries of dege and poultry will be received up to August 19th. The indications favor the grandest exhibition in every depart ment that Canada has over seen, many novelties in manufacture and the latest aventions, being shown. A large amount of money has been expended in the erection of new buildage, and the improvement of others, while to show that the exhibition exi-to for practical as well as amusemer t purposes, the prize for cattle and horses have been materially increased, and clarges added for butter-making competions and export bacon hogs.
