Parliament Prorogued Last Friday with a Brief Speech by His Excellency.

BRILLIANT MILITARY DISPLAY. OTTAWA, Aug. 15 .- The prorogation of the present session was somewhat precipitately brought on last Friday, several days earlier than predicted in last issue. Thus the fourth session of the eighth Canadian Parliament was brought to a conclusion and it will go down among the members who have participated therein as one of the longest and most wearisome in the country's history. The leaders on either side are by no means sorry to part, while the bulk of the members dispersed weeks

The prorogation ceremonies were somewhat shorter thun usual by reason of the smell numbers of measures requiring to be read, the bulk of the bills passed during the session having received the Royal assent. One only has to glance at the official returns in the gold mining industry alone to realise this. The present is only about the eight season, that any gold mining records of this district have been kept, and the figures show that whereas in 1892 the Only 50 cents, at J. D. McKee's Drug | total output was less than \$37,000, droping two years later to \$89,770, in 1996 had risen to \$121,000 and in 1808 to \$275,000; while it is estimated that this year the clean-up will realize \$600,000.

All this means prosperity for the east as well as for the west, for New Ontario will never be largely a manufacturing district nor extensively interested in agriculture, though it has opportunities for both. The farmer of the east therefore is as much interested as anyone in the opening up of this country, for its progress will as assuredly put money into his pocket as if

North Perth, Stratford, Oct. 8, 4.

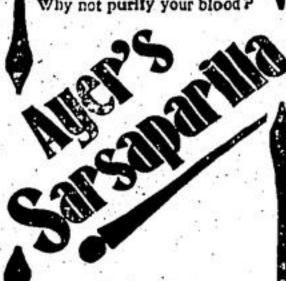

In the little bamlet of Montrose, Welland County, resides a lady who gives much praise to the onrative power of Dr. Williams, Pink Pills. The subject of this testimony is Mrs. Richard Hanns, an estimable lady who has resided in that locality for many years. A reporter seek. ing an interview with Mrs. Hanna found her willing to give full details, which are given in her own words. Five years ago I was taken ill. I attributed the trouble at the time to an injury suctained by, a fall. Time went on and I did not get better. The symptoms of my complaint were pelpitation of the heart, extreme weakness, stomach troubles and terrible beadaches. I was very nervous, had no appetite and experienced much wakefulness at night. Finally I was compelled to take to my bed, being too weak to sit up any longer. In this condition I was treated at different times by three doctors, and took a great quantity of medicine but realized no benefit. Not one of my neighbors thought would get well. In the meantime I thought myself that death would soon end my sufferings. One day Mrs. Smith. Port Robinson, came to see me and persuaded my husband to procure for me some of Dr. Williams' Pink Pills, and he purchased six boxes. After taking the six boxes I had improved very much and was able to be up, though yet too weak to walk. I sent for another six boxes and as a result consider my care complete. I can relish food better, sleep soundly, and stand more fatigue than I could for years previous Although I have passed the meridian of life I feel as healthy as when I was in my twenties. With great pleasure and a

grateful heart I give this testimony. The public is cautioned against numerous pink colored imitations of these famous pills. The genuine are sold only in boxes the wrapper around which bears the words "Dr. Williams' Pink Pills for Pale People." If your dealer does not have them they will be sent postpaid at 50 cents a box, or six Syrup the best medicine to expel worms | boxes for \$2.50, by addressing the Dr.

BUSINESS

PRINCIPLE.

It is only a store with a small unprogressive trade, that has no underlying business principle on which it is built Each store that makes any pretence at being a live, upto date business has some definite principle as unalterable as the laws of the Medes and Persians. We have always tried to keep before the public our system of doing business. Why? Because we find it pays when people know that we sell for cash and cash only. They come here expecting to pay cash and get goods at the lowest cash price. We believe in doing straight business. No juggling with prices here, no free gifts or underhand dealing-everything square and above board. On this basis we have built up our business until to-day we occupy a leading position in the Dry Goods trade of Guelph. But we do not intend to rest on our laurels. We will still bend all our energies into making this business still bigger and better.

Our MR. Dowler has advised us of large purchases of Fall Goods and we can assure our customers that their interests will be well looked after this fall.
