FOUGHT DEATH SUCCESS

Paine's Celery Compound Saves a Little Girl's Life.

Users of Paine's Celery Compound never suffer disappointment. The great medicine at all times and under all oiroumstances brings to all sufferers relief and a permanent cure. Mr. Maxime Martel, 189 Mitcheson Street, Montreal, tells what Paine's Colery Compound accomplished for his little daughter, whose case was comsidered an

incurable one; he says: "My daughter, now eight years old, was afflicted with terrible secondula dor nearly six years, and we thought her case an incurable one. We had several physicians to attend her, and she took meditine of all Having had our attention drawn to he wrought cares after all other medicines failed, we procured a supply, and after a fair use of the medicine we can report that the disease is overcome, and we trust has disappeared forever. Our little girl is now bright, strong and healthy, sleeps and eats well, and her blood is now as pure as it can possibly be. I have great pleasure in recommending Paine's Celery Compound as a cure for scrofula and blood diseases

A CONTAGIOUS ELEMENT.

Dirt is contagious. If anybody doubts let him observe the streets - Littered with all sorts of rubbish, they offer a positive invitation to everybody to toss or sweep his surplus matter into them. If the streets were kept in a proper state of cleanliness no decent person at least would think of throwing anything upon the roadway or in the gutters; There is slio ... moral effect. Cleanly surroundings beget clean habits. Children going to and from school are unconsciously influenced by what they been and, Birty Attock Deign's standing example of uncleanliness in those to whom they naturally look for leading, they grow indifferent and careless. Thus the toleration of dirt on the streets becomes not only a menace to health but an influence for evil. Consideration of this sort may have no place in the average aldermanic mind, which seems to take its inspirations from mediaeval times, when the public throughfares were the common sewers.

Peter Tumbledown's motto is "Always leave your farm implements in the field, so that they will be there when you need them next time."
