NOTES AND COMMENTS.

It is rumored in London that a tentative agreement has been reached whereby the Alaskan boundary is settled. Canada is to have ports on the Lynn Canal and at Pyramid Harbor, and the United States gets additional rights for New England fisheries.

It is rumored that a committee of leading manufacturers is being formed in Berlin, Germany, for the purpose of German participation in the Paris Exposition of 1900. Similar action is reported from various points in Great Britain and the United States. This is one of the results of infamous treatment of Dreyfus.

English advices report continued drought in many cattle and sheep-raising districts. Pastures have been bare for many weeks. Cattle are being sent to England in half fattened condition while lambs and sheep are being sacrificed at prices which would be doubled in another month if pasture were plentiful. It is expected the effect on the market for imported cattle will be favorable to Canadian shippers.

In an interview at Ottawa on Monday, Premier Greenway of Manitoba said: "I estimate 50,000,000 bushels for Manitoba and the Northwest. This would be giving 50,000,000 to Manitoba, and 20,000,000 to the Northwest. Last year the total for Manitoba and the Northwest was something less than 30,000,000 bushels. An increase of that kind ought to make every-one look bright and cheerful."

Postmaster-General, the Duke of Norfolk has shown a profit of nearly \$18,000,000 on the working of the British Post-office for the year. The number of postal packages of every kind delivered during the year was 5,495,000,000. London received 83 per cent of the total of letters posted. The third of the working classes is shown in the increase of Post-office Savings Bank deposits, which now stand at \$124,000,000.

The license department of the Ontario government has furnished the license inspectors with the following circular: "Representations have been made to the effect that very many druggists throughout the province do not comply with the provisions of the law, and as in the hands of selling liquor as a beverage. I am directed by the provincial treasurer to bring this matter to your notice and to express the hope that you will give the matter your special attention and see that there are no further grounds for complaint in your district."

A London telegram, later stated that Welsh colonies may soon invade Canada in large numbers. In the sixties 8,000 Welshmen went to Saskatchewan, in spite of the sterility of the country, they triumphed and now send to Europe some of the finest wheat grown in South America. The Argentine Republic, which until recently made no claim on Patagonia, now demands military service from the settlers, and compels them to fight in the ranks. They are beginning to look to Great Britain for assistance. Other Welshmen who desire to emigrate have been looking about, and following the invitation of the Canadian High Commissioner, David Lloyd George, member of Parliament for Glamorgan, and two others are to sail for Canada. Mr. Lloyd said he and his companions were going to spy out the country, and that he could say nothing further until the end of the visit.

The Attorney-General has sent a communication to all magistrates throughout the Province, in which he says: "It has been found upon investigation that most of the numerous burglaries and other crimes of violence committed recently in the Province have been the work of tramps of the class usually found working along the lines of railway and camping in the woods and barns on the outskirts of cities, towns and villages. It is deemed necessary that these men should be driven out of the Province as soon as possible, and in the results of giving them the option of a fine or so many hours to clear out of the municipality is producing very unsatisfactory results. You are requested therefore, upon any of these men being brought before you, to see that the law is strictly and vigorously administered."

The funeral of Miss Jane Stewart on Wednesday was well attended. The casket was opened at the grave that the friends there might have a look at the remains. Mr. Hugh Black made a few very appropriate remarks and the remains were interred. The meeting of friends here and those from a distance was touching to onlookers.

Mr. and Mrs. Wm. Black, of New York, spent a day or two with their parents here last week. Mrs. Charlton, of Montreal, came on Saturday and remained over Sunday. They had gathered in Toronto to meet with Mrs. Postony before she took her departure for Colorado.

Mr. Jas. Gray, of Rockwood, spent "two days last week with old acquaintances here."

Mr. Emmal Fielding, of Erin, and Mr. and Mrs. Lafferty, of Rockwood, visited at Mr. J. Grindell's on Sunday.

Mr. Hugh Black preached here Sunday morning and Wm. Towell in the evening.

DREYFUS FOUND GUILTY.
Sentenced at the Close of the Great Trial to Ten-Year Imprisonment.

WILL PROBABLY BE PARDONED.
Rennes, Sept. 9.—At 5:02 p. m. the court rendered a verdict of "Guilty," and Dreyfus was sentenced to ten years' imprisonment. The crowd displayed great excitement in cheering for the army. The court stood five to two for the condemnation of the prisoner. The court found Dreyfus guilty of espionage. The judgment will be carried to the Military Court of Appeal, which will be a formal matter. The Appeal Court will only quash the judgement and order a retrial if it should be established that the present court-martial has erred in a matter of procedure.

The Court of Cassation has also the right to order a retrial if it should decide that the court-martial has deviated from its instructions.

London, September 11.—Though the pessimists of the press had predicted a heavy fall in the price of the "yellow metal" during the last few days had some-what prepared the people for the worst, yet the actual news from Rennes of the Dreyfus verdict of guilty came like a thunder-clap to London on Saturday. To say that such a disappointment was unexpected would be utterly inadequate. The feeling aroused is really of mingled anger and disgust.

The news spread like wild fire through London, banishing every other topic, even the "transvaal" and it was possible to hear the cry of "Dreyfus" from every street. The feeling aroused is really of mingled anger and disgust.

It would be difficult to describe adequately the indignation the verdict of the Dreyfus court-martial has evoked everywhere in England. At the music halls, especially the Palace Theatre, where cinematograph pictures of the incidents and leading actors of the Dreyfus affair were exhibited, the news was greeted with groans and hisses.

The British press comments are singularly unanimous in their condemnation of the infamous verdict. "The Daily Mail" says: "Rennes is France's moral Sedan." "The Daily Graphic" says: "The Rennes verdict will live forever as the supreme act of human wrong-doing." "The Daily Chronicle" says that Marcellus from the case as one of the blackest soundrels in history.

"The Daily News" remarks: "It is no longer Dreyfus, but France herself that is on trial." "The Morning Post" declares that: "The indignation of the sentence will be interpreted all the world over as evidence that the judges who condemned Dreyfus really believe him innocent."

"The Daily Telegraph" says: "This infamous judgement disgraces France, dishonours her army, and humiliates the Kaiser and offends the best principles of humanity. There seems nothing left for France but a revolution and a war that will reduce her to the level of Spain."

"The Standard" says: "We are watching by the deathbed of a great nation, none knowing what new and deadly foe the madman may assume."

"The Times" observes: "We do not hesitate to pronounce it the grossest and most appalling prostitution of justice the world has ever witnessed in modern times. All the high authorities of the world are in the course of the trial left to insignificance beside the crowning scandal of the verdict."

There is a wide-spread feeling throughout Europe and America that as a result of this prosecution of Dreyfus the Paris Exposition will be largely boycotted by exhibitors and visitors. "Paris, Sept. 11.—Commenting on the verdict in the Dreyfus case, the 'Temps' says: It is possible that Dreyfus may not lose the benefit of the Judges reference to espionage circumstances. It would be more for the credit of France to give him pardon. This solution would bring about the pacification of which France is in need."

ESQUENING TOWNSHIP FAIR.
Date Changed from September 25th to October 4th.
The Directors of Esquening Fall Fair met on Thursday and decided to change the date from September 25th to October 4th. This was owing to the fact that Brampton Fair had been announced for the 25th.

The Directors had encouraging reports to make regarding the Fair, and prospects are that there will be a large and interesting exhibit.

A liberal prize is offered for a Band competition which will probably be one of the features of the day.

The usual reduced rates will be given on the railroads, and there is reason to believe that the Fair of 1899, both as to exhibits and attendance, will be in every way a success.—Herald.

MONEY FOUND IN MAIL BAGS.
"It seems almost incredible that in the neighborhood of \$40,000 in actual cash should have been concealed to letters during the last year, and harder still to credit that the same could have been done and that the owners are now fourth of that amount," writes Edith Lyell Collins in the Ladies Home Journal for September. "The envelopes which are addressed are kept on file for four years, blank ones not so long. But in either case a liberal margin of time is allowed for them to appear before the money is finally turned into the Treasury to the credit of the Post-Office Department. In addition to the money concealed in letters during the same period something like \$10,000 was found loose in the mails. It is officially issued 'lost money'."

MRS. ANDERSON'S BABY.
"You couldn't convince Mrs. Anderson that Celia ever was as pretty as her little girl."
Mrs. H. C. Anderson is well known in the County, where she has lived for the owners of one fourth of that amount, writes Edith Lyell Collins in the Ladies Home Journal for September. "The envelopes which are addressed are kept on file for four years, blank ones not so long. But in either case a liberal margin of time is allowed for them to appear before the money is finally turned into the Treasury to the credit of the Post-Office Department. In addition to the money concealed in letters during the same period something like \$10,000 was found loose in the mails. It is officially issued 'lost money'."

She writes:—
"I have a beautiful little girl, one year and six months old. She was born on the 15th of June and is the most beautiful child I ever saw. She has a beautiful complexion, bright blue eyes, and a sweet disposition. She is very intelligent and is learning to read. I am very glad to have her, and I hope she will be a great blessing to me in the future."—Edith Lyell Collins, in the Ladies Home Journal for September.

MANSLAUGHTER.
Willie Houston, the 15 Year Old Chatham Boy, Committed for Trial.
Chatham, Ont., Sept. 11.—Police Magistrate Gossell, of Bloomfield, to-day committed Willie Houston for trial on the charge of manslaughter. The 15-year-old lad fired four shots at Eric Beach, one of which struck Lyell Stephens, son of Geo. Stephens, bar-tender, mercantile of this city. The shooting occurred on August 14, and two days afterwards young Stephens died. The boy charged with the shooting is the only son of Police Magistrate Houston, of Bloomfield.

Clear trouble, biliousness, allow complexion, yellow eyes, jaundice, etc., yield to the curative powers of Lax-Liver Pills. They are sure to cure.

PONTON'S SUIT DISMISSED.

Toronto, Sept. 8.—Ponton's \$60,000 suit against the Dominion Bank came to grief again in the Divisional Court yesterday. Last March the case was dismissed by Judge Street at the Cobourg Assizes, the plaintiff refusing to go on after the judge had reserved his opinion on the trial. The Divisional Court held that they could not interfere with the discretion exercised by the trial judge in refusing the application. The house files of the application were affected by the fact that when the plaintiff was made notice of the case he said that his witnesses were not present. The appeal was dismissed with costs.

Another great discovery has been made, and that too by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recover by purchasing a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Lottie Lett. Thus writes W. O. Harnick & Co., of Elmhurst, N. C. Trial bottles free at J. D. McKee's Drug Store.

"Gossips can't really bring in a great man, and with a small one the process is superfluous."
