Fractured a Bone in a Lacrosse Match. During the lacrosse match at the park last Wednesday, Mr. A. E. Gurney, of Gurney & Co., had the misfortune to fall over his check and in the fall fractured one the bones in his right hand leading to the index finger. He was very plucky over the accident, however, and played out the game without retiring. He carries the hand in a cling now, and is more ornamental than useful behind the counter of the firm.

Palufully Burned with Coal Tar. Last Thursday while engaged in roofing a new building at the Acton Tanning Co., Mr. Arch. McNabb elipped while carring a bucket of boiling coal tar and fell with his right hand in the scalding mass. He wore a short leather mit and this partially saved his hand, but it was terribly burned about the wrist and palm. The removal of the tar which had hardened over the wounds was a very painful operation. Mr. McNabb suffered very much for a few days but the injury is now less painful.

Splendid Graphaphone Entertainment. With commendible enterprise Mr. Bert Parsons, of Burlington, has secured one of Edison's latest improved graphophonesthe largest manufactured-and gave an entertainment with it in the town hall on Monday evening and the audience was delighted with it. The records are four or. ave times as large as thosewased by the phonographe in previous entertainments here, and the sounds produced are proportionately louder and stronger.

Parson's repertoire is varied and interest ing. It is made up of reproductions from Gilmore's and Sousa's and the U.S. Marine bands, Columbian Orchestra, new and popular vocal selections, and instrumental and vocal solos and duets. The fluest number given on Monday evening was "The charge of Boosevelt's Rough Riders" portrayed by music. The county fair, the banjo solo and the handicap race were also in much favor, but nearly every number was rendered in a superior manner.

SUCCESSIVE VICTORIES.

Acton's Invincible Crescents Twice Defeated St. Mary's, and Won a Victory Over Beaverton During the Week.

Victory has surely perched upon th banner of the Crescents of Acton. Three times in succession during the past week, in three of the stiffest games of lacrosse this season, they have proven their superiority in point of skill, endurance, and effective combination work, and come of victors. This splendid feat has been al he more appreciated by the friends and

admirers of our boys, when it has been realized that their opponents were the champions of the Western and Northern As a result of their prowess the heartiest receptions have been accorded them upon their arrival home after each game, and toroblight processions, band serenades and

complimentary speeches, owing to their

frequency, are beginning to become commonplace and stereotyped. The climax of the season's efforts will be eached to-day. The final game for the Intermediate Championship of Ontario will be played with Wiarton on the grounds of the Ferges team this afternoon. That it will be an exciting contest goes without saying. The coming together of the two teams who have earned the laurels of victory over all the districts with which they have been associated up to this poin in the struggle for championshin over all, means a contest of the most interesting character. The Crescents will be accompanied by a large contingent of citizens and it is confidently believed that after

The first goul was scored by the visitors, then Acton won five goals goals gave Acton three and St. Mary's one in very brief periods. Both teams played outplayed St. Mary's at nearly all points. Mr. Jackson of Scafort's referred to the satisfaction of both teams. The same teams played in St. Mary's on Friday, when Acton again won in a score of 8 to 2. | week St. Mary's won the first and fifth goals, in 6 and 21 minutes, respectively, and Acton won the second, third, and fourth

Mr. Jackson also referred this game. This game gave Acton the championship of the Royal and Western Districts with the Northern and Saugeen Districts, championed by Beaverton and Wiarton respectively, yet to conquer.

goals in 5, 24, and 28 minutes respectively.

Late on Saturday the Crescents were advised by the President of the association that they must play Beaverton at Stouffville on Monday. This was very brief notice but with undaunted spirits the boys left on the 6.35 a. m. train Monday mornins and before the day was over had ecored another signal victory. They defeated Beaverton to the intense chagrin of that team, by a score of four goals to two. In this game Beaverton won the first two goals, but Acton followed with four goals which ended the game and won. The referee was Mr. Batton, of Stouffville.

Acton's splendid players, who won these successive victories, were F. R. Watson, goal; W. Shields cover; F. Ryder, J. Watson, A. E. Gurney, defence; R. Scott, centre; C. Williams, F. Copper Mining Stocks.

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal, but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as

Three and Four Hundred Per Cent. has to our knowledge already been realized on some of these investments. The Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every copper mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9 to 18 cents. The Supply of Copper from the Mines of the World

To-day is only About 80 per cent. of

the Consumption. That is the reason why finaciers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies

are so easily picked up by investors. If you have any money to invest we would ask you to consider the shares of the Superior Gold & Copper Company, Limited. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least 100 per cent. in Six Months. Send for prospectus and particulars. Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested, write to us at once.
