

Creeping Consumption

Do not think for a single moment that consumption will ever strike you a sudden blow. It does not come that way. It creeps in very slowly. First, you think it is a little cold, nothing but a little loss of weight; then a harder cough; then the fever and the night sweats.

The suddenness comes when you have a hemorrhage. Better stop the disease while it is in its infancy. You can do it with

Ayer's Cherry Pectoral

You first notice that you cough less. The pressure on the chest is lifted. That feeling of suffocation is removed. A cure is hastened by placing over the chest.

ORIGIN OF VEGETABLES.

Potatoes came from far Virginia; Parsnips were sent us from Barbados; French beans, from growing in the earth. To distant India trace their birth; Not scarlet runners, say and tall; That climb upon our garden wall, A cheerful sight to all around.

In South America were found, The onion travelled here from Spain; The leaf from Sicily and the gain, Gestic from Italy obtain.

Spinach in far Syria grows; When kinaboh was reigning here, Pars came from Holland, and we dear; The south of Europe lays its claim To beans, but some from Egypt came.

TWO HAPPY THOUGHTS.

From far-away Cayton comes a funny little story. A tea planter who had a glass eye was desirous of going away for a day's shooting with a friend, but he knew that as soon as the natives who were at work on the plantation heard that he was going they would not do a stroke of work. How was he to get off? That was the question. After much thought an idea struck him. Going up to the men he addressed them thus: "Although I myself will be absent, yet I shall leave one of my eyes to see that you do your work." And much to their surprise and bewilderment of the natives, he took out the glass eye and placed it on the stump of a tree and left. For some time the men labored industriously, but at last one of them, seeing his tin in which he carried his food, approached the tree and gently placed it over the eye. This done, they all lay down and slept sweetly until sunset.—Waverly Magazine.

A Carefully Prepared Pill.—Much time and attention were expended in the experiment with the ingredients that enter into the composition of Parmentier's Vegetable Pills were brought to the state in which they were first offered to the public. Whatever other pills may be the result of much expert study, and all persons suffering from dyspepsia or disordered liver and kidneys may confidently accept them as being what they are represented to be.

Advice is cheap; following it is what counts.

If there is a history of weak lungs in your family, take Scott's Emulsion. It nourishes and invigorates.

It enables you to resist the disease. Even if your lungs are already affected, and if besides the cough you have fever and emaciation, there is still a strong probability of a cure.

THE SCHOOLBOYS POSTSCRIPT.

When Dr. Temple (now Archbishop of Canterbury), was the head master of Rugby, a boy came up before him for a simple breach of discipline, and the facts seemed so against the lad that he was in imminent danger of being expelled.

His father, a doctor, but being in either clear-headed nor fluent in the presence of the headmaster, he could not make it clear. He therefore wrote home to his father, detailing at length his position and his explanation.

His father very wisely thought the best thing he could do was to send the boy's letter as it stood to Dr. Temple, merely asking him to overlook any familiarity of expression.

Apparently the father had not turned over the page and seen his son's postscript, for there Dr. Temple found the following words: "If I could explain it would be all right, for though Temple is a beast, he is a just beast."

The Bishop, in telling this story, is aptly chosen to say that it was one of the greatest compliments he has ever received in his life.

NATIONAL SCHOOLS.

It is said that a small Catholic educational monthly in Ottawa has suspended publication for the reason that it advocated adopting the rule that all Catholic teachers should possess regular certificates from the different provincial Departments of Education. The Church has, of course, a right to do as it sees fit in the matter, but a more sensible way would be to have the Catholic teachers' union voluntarily join the Ontario Public School system in its desire. Truly this separate or voluntary school system will not down. The defenders of public schools have better look to their weapons. Sufficient light has, apparently, not yet been let in, and some more of the underbrush will require to be cut away.—Canadian Magazine.

Bakers' Bad Backs.

We little know the toll and hardship that those who make the "Stout of Life" undergo. Long hours in superheated and poorly ventilated work-rooms in hand on the system, give the kidneys more work than they can properly do, throw poison into the system that should be carried off by these delicate filters. Then the back gets bad. Not much use applying liniments and plasters. You must reach the kidneys to cure the back. DODD'S KIDNEY PILLS cure all kinds of Back Aches by restoring the kidneys to healthy action.

Dr. Water Buchanan, who has conducted a bakery in Barrie, Ont., for the past 15 years, says: "I was previous to taking Dodd's Kidney Pills in a great deal of pain in the back of my head, dizziness, weary feeling and a general feeling of depression. I am now in perfect health. I have not got pain or ache about my head in the slightest since I began to use your pills, and my health is better now than for years."

When a man has reached the point at which he no longer relies a little rest; rest from the world, he is in a most perilous condition.

A Permanent Cure

Of such serious diseases as scrofula, old sores, eczema, ring worms, ulcers, and all malignant diseases having their origin in bad blood can only be obtained through the use of Burdock Blood Bitters.

Why do honest docks dip their heads under water? To liquidate their little bills.

A Successful Medicine.—Everyone wishes to be successful in any undertaking in which he may engage. It is, therefore, extremely gratifying to the proprietors of Parmentier's Vegetable Pills to know that their efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations. The endorsement of these Pills by the public is a guarantee that a pill has been produced which will fill everything claimed for it.

When a man gets himself into a snug place on a remunerative salary, and then begins to write about the split of a cent in his brethren, we are tempted to smile.

Catarrh of Long Standing Relieved in a Few Hours.

It is not alone the people of our own country, and prominent citizens like Urban Lippe, M. P., of Joliet, Que., and other members of Parliament, who, having used Dr. Agnew's Catarrhal Powder, pronounce it the most effective remedy they have ever known, but people everywhere are expressing their gratification at the effectiveness of the medicine. C. G. Aronoff, of Brewer, Maine, says: "I have had catarrh for several years. Water would run from my eyes and nose days at a time. About four months ago I was induced to try Dr. Agnew's Catarrhal Powder, and since using the wonderful remedy I have not had an attack. I would not be without it." It relieves in ten minutes.

LIFE'S SPRING IS POISONED.

If the Kidneys do not Carry off its Blood Impurities—South American Kidney Cure Keeps Them Sweetly Healthy.—Bright's Disease and Bladder Difficulties.

Every drop of blood in the body goes through the kidneys for the removal of its impurities—every three minutes—night and day—while life lasts. The kidneys are the filter—and it stands for reason that if the filter is out of order the impure matter in the blood goes to every part of the body at every heart beat. When the first indications of kidney disease present themselves, resort at once to South American Kidney Cure—the tried, tested and proved specific for Bright's disease, diabetes and bladder complications. It never fails.
