The Young Folks.

A SLUMBER SOMO. FOR THE PISHERMAN'S CHILD. Furl your sail, my little boatle,

Here's the harbor, still and deep, Where the dreaming tides, instreaming. Up the channel creep. See, the sunset breeze is dying, Hark, the plover landward flying.

Softly down the twilight crying: "Come to anchor, little boatlo. In the port of sleep." Far away, my little boatio, Roaring waves are white with feam; Ships are striving, onward driving,

Day and night they roam. Father's at the deep sea trawling. in the darkness rowing, hauling. While the hungry winds are calling . "God protect bim, little boatie, Bring him safely home!"

Not for you, my little boatle, Is the tide and weary sea, You're too slender and too tender. You must rest with me. All day long you have been straying Up and down the shore, and playing : Come to port, make no delaying ! Day is over, little boatle,

Night falls suddenly. Furl your sail, my little boatle. Fold your wings, my tired dove, Dows are sprinkling, stars are twinkling Drowally above.

Cease from sailing, cease from rowing : Rock upon the dream-tide, knowing Safely o'er your rest are glowing, All the night, my little boatle. Harbor lights of love. -Henry Van Dyke, D. D., in Secribner Magazine.

RIGHTEOUS OVERMUCH.

We knew a man who was in the babit of putting "God willing" on the postale he sent out to the trade appounding that he would call on them on or about a certain date. Occasionally a scripture text graced these and other similar missives. It may have been merely a coincidence, but this individual was one of the narrowest. smallest-souled men it was our lot ever to have met, and our estimate of him was pretty generally shared by those who had business dealings with him. A prominent man in this city showed the writer an application for a situation received the other day from a young man who headed each page with a text. That young man is still without a job. There is no plethora of gennine righteousness, but there is an awful surplus of the kind that looks for trade or preferment through donning its garb. These men, with one hand on the Bible, and the other clutching their neighbor's throat or in his pockets, are more menace to Christanity than all the atheists on earth and the devils in hell. What the world does respect is goodness, and a man does not need to quote Scripture texts to convince people he has the right kind. I would rather know what a man's wife or omployees think of him, or hear what the travellers say of him who sell him goods, than get my ideas from bis certificate of church membership or the handsome testimonial presented by his fellow-officers and teachers in the Sabbath School. It is in the home, store, warehouse or factory that the test of goodness is found. Charles Dickens, when asked to address a large boye' school in Boston some years ago, arose and said, amidst impressive silence, "Boye, be good," and sat down. Oh! for that goodness which. like the precious cintment, fills the surrounding atmosphere with its fragrance and turns the arid desert into a garden of roses .- Baker and Confectioner.

Keep in mind that Scott's Emulsion contains the hypophosphites.

These alone make it of great value for all affections of the nervous system.

It also contains glycerine, a most valuable, soothing and healing agent. Then there is the cod-liver oil, acknowledged by all physicians as the best remedy for poor

blood and loss in weight. These three great remedial agents blended into a creamy Emulsion, make a remarkable tissue builder.

soci and \$1.00, all druggists.

ORIGIN OF THE DOLLAR SIGN.

Dr. Marous Baker, of Washington, recently published in one of the magazines in account of a theory which he has to account for the origin of the familiar dollar,sign. This has long been in dispute. All sorts of explanations have been given, the most common of which is that the initials of the United States are crossed. But there have been seven or eight other theories, to account for the dollar sign which are about as good. Dr. Baker, in his researches in the library of the Burcau of Education, came across an old book enmetic, Designed for the Use of Schools, and act of sweeping the floor caused her at Lansinburg, N. Y., in 1797. Its author | she is as well as ever she was. was the Rev. Channey Lee, of Rutland, Vi. In this book was set forth a system of so-called "characteristics," by which one vertical stroke was to designate the mill, two vertical strokes the cent; these two crossed by one durved stroke the dime; Toronto, says he suffered over two years | dare? He was mine broder. He got ze and for the dollar a sign consisting of two from Sciatios. The pain would shoot verticals combined with two ourved strokes, down the back of his leg into his beel. now so familiar, was proposed. At that Three boxes of Milburn's Rheumatic Pills for dat goat, he drop ded mit his track." time the people of the country were just have removed the pain and made him as emerging from the use of pounds, shillings limber as a boy. and pence, each separated in writing by a space from the next denominations. It seemed necessary to Mr. Lee to have an arbitary mark for each of the denomina; tions of our monetary system. But he

soon found that one obsracter, with the aid of a decimal point, was all that was necessary, and in the latter part of his own book all that elaborate system of symbols except the one intended to mark the deliar was found to have been dropped. Dr. Baker certainly finds the dollar sign

in this old arithmetic, and does not find It in use at any earlier date. By the time Adams' arithmetic was published in 1805, the symbol had become well established. Dr. Baker, therefore, regards Mr. Lee as the inventor, and believes the sign to be absolutely arbitrary in its origin. Since the publication of his paper in one of the magazines, Dr. Baker has received many letters on the subject, but none in which his conclusions are challenged. He in tends, for further verification to, make s study of the departmental records to see when the dollar sign first appeared in the treasury accounts. He also hopes to make more thorough search of the old text

books to see if by chance any use of this sign prior to that of the Rev. Chauncey Lee can be discovered. Perhaps rome of the descendants of Mr. Lee will be able to find the author's manuscript, in which case with it. additional light might be thrown upon the subject. It is certainly interesting to know the origin of a thing in constant use as the dollar sign. Dr. Baker's discoveries seem likely to take all the sentiment out of the matter, but this is the result of modern historical research .- New York Post.

I could not stoop without great difficulty, and I had severe neuralgle pain in both temples. Seeing the advertisement of Dean's Kidney Pills, I got a box. They have given me quick relief, removing the pain from the back and sides, and banishing the neuralgic pains from my bend. The urinary difficulty is now entirely gone, I feel fresh and vigorous in the mernings, and am much stronger in every way since taking and am much stronger in every way since taking these pills." OLABENCE E. SEEDS, Carpenter and Builder, Trenton, Ont.

It is doubtful if the devil is ever driven back an inch by the testimony of a stingy

There never was, and never will be, a unliversal panacea, in one remedy, for all ills to which flesh is heir-the very nature of many curatives being such that were the germs of other and differently seated liseases rooted in the system of the patient -what would relieve one ill, in turn would aggravate the other. We have, however, in Quinine Wine, when obtained in a sound unadulterated state, a remedy for many and grievous ills. By its gradual judicious a , the frailest systems are led into convalescence and strength, by the influence which Quinine exerts on Nature's own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondence and lack of interest in life is a disease, and, by tranquilizing the nerves, disposes to sound and refreshing sleep, imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the bealthy animal functions of the system, thereby making activity a necessary result, strengthening the frame, and giving life to the digestive organs, which naturally relations. demand increased substance-result, improved appetite. Northrop & Lyman, of Toronto, have given to the public their Quinine Wine at the usual rate, and, guaged by the opinion of scientists, this wine approaches nearest perfection of any
