EDITORIAL NOTES.

The term of Lieutenant-Governor Daly
of Nova Scotia expired on Monday,
Hon. A. G. Jones, who was Minister of
Militia in the Macdonald Government, will
successor Mr. Daly, who has held two terms
of government.

The London, Eng., *Times* of Tuesday
morning criticizes Canada's decision not to
receive any more desists. Immigrants
in view of the spread of anarchist riot recom-
mends a similar course of action.

European States.

A despatch has been received at the
Japanese Legation, Washington, from the
Japanese Foreign Office announcing that
the Government of Japan had prohibited
for the present all emigration of Japanese
laborers to the United States and Canada.

At a meeting of the Executive of the
South Ontario Liberal Conservative Asso-
ciation, held yesterday afternoon, it was
unanimously decided to proceed with the
protest against the election of the Hon.
John Dryden.

According to a cable received by the
Military Department from Lord Strathcona
on Saturday, no invalided Canadian
soldiers are en route home, but the War
Office is making arrangements to send
home about a hundred men now in
England.

An Imperial ukase by the Russian
Government announces an increase in the
dues to meet the expenditure in the far
East. The additional range from fifty per
cent. on tobacco and other important
articles to ten per cent. on a large number
of commodities.

Prices of canned salmon will be advanced
at least twenty-five per cent. when the
subsidies are fixed on Aug. 10th. The
known shortage in the supply has already
been recognized by the dealers, and prices
have been advancing. The fishing season
has now reached a stage where it can be
assumed that the catch that the pack will
certainly fall short of half of what it was
last year, and probably more.

Canadian failures for July were 21 in
manufacturing, for \$223,614, and 70 in
trading, for \$43,532, with only one "other
commercial," for \$400, a total of 92 failures
for \$766,646. *Daily Review* says: "The
return is generally satisfactory, not a
single failure being reported in iron, tools,
woollens, cottons, hats, chemicals or print-
ing, while a copper and gold mining com-
pany to British Columbia accounts for
nearly half the manufacturing liabilities."

The New York Times says: "Light of
almost blinding intensity" is the light pro-
duced as it exists in the United States by
the disposition made of the money
raised in Washington, nominally for the
benefit of the needy classes of the South
African republics. The amount collected
was \$1,124,30, and now that the expenses
of the receptions and meetings held while
the Boer delegates were in the capital have
been met, there is left to send to Kruger
and the rest of exactly \$181.

Except in Manitoba the crop prospec-
tive seem to be good over all the Dominion and
it is remembered that a shortage of
the wheat crop is not such a serious matter
in Manitoba now as it was a few years ago.
Mixed crops are more generally practiced
than it used to be. The cities and towns
of Manitoba already require considerable
quantities of meat, vegetables, fruits, butter,
cheese and eggs and the development of
milling and manufacturing in North-
Western Ontario is creating a demand for
such farm products in that section, which
must be largely supplied from Manitoba.

One of the storming scenes of the present
session of the British House of Commons
occurred Monday evening, when Mr. Ah-
med Barlett Barlett, Constance, Conservative
member for Westminister, demanded greater
powers for the hospital commissioners to in-
vestigate the management of the military
hospitals in South Africa. He declared
the truth would not be learned under the
present plan of investigation, as the soldiers
would be afraid to tell all. Mr. A. J.
Hastor, Government leader, in his defence
of a bitter reply, accused Mr. Barlett
of "maliciously attacking the character of the
British army," and accused what he
called "the honorable member's evident
derisionous attitude to the result of the in-
quiry."

The London Daily Chronicle says: "Rev.
Dr. Carmen, General Superintendent of
the Methodist Church, Quebec says:
Imperial Federation must be attained by
the virtue of healthful British institutions,
the voluntary patriotic movements
such as have signalized recent years; it
will not be attained by threats or by
coercion. There must be a representa-
tive council of some kind, the germ from
which will grow the ultimate and permanent
Imperial authority. In my judgment
we are not prepared to that represent-
ation either in the Privy Council at home
or the Imperial Parliament. To start
with, I would have a Council, say of the
Premiers of the Provinces and of the
Colonies under Parliamentarian government,
or commissioners appointed by the re-
spective Cabinets. This new 'Council'
would not be legislative or mandatory, but
consultative and advisory."

Canada has an immense surplus of
ordinary revenue and extraordinary expendi-
ture is a result of last year's public budg-
get, amounting to \$7,500,000. Indeed,
there will be a surplus of ordinary
revenue over ordinary and extraordinary
or capital expenditure of over a million dollars,
by which amount the public debt
will be reduced. Only in two former years
has there been an equilibrium of total
revenue and total expenditure, namely in
1871 and 1881. The ordinary revenue of
the last fiscal year, ending the thirtieth of
June, exceeded that of the preceding year
by over four and a quarter million dollars.
In view of the extraordinary increase of
last year over the previous year and of each
recent year over its predecessor, this great
augmentation of the revenue is the more
wonderful and the more a matter for
national congratulation, as it indicates
extraordinary prosperity and progress—

PARIS FAIR A FAILURE.

Paris, Aug. 6.—No loud has become the

outcry of those holding stockades at the

exhibition on account of the loss of money,

that finally a committee has appealed to

the commissioners general. The Committee

is really anxious to know, as bankruptcy

is staring them in the face. An effort will be

made to settle them. He says the manage-

ment has agreed to the inauguration of a

series of fêtes and spectacles in an attempt

to attract the crowd which has been de-
sidered waiting round.

CHENER.

at Pretoria that President Kruger is will-

ultimate destination.

Halifax communication with Natal has

been re-established by Gen. Macdonald's
capture of Harrismith.

Lord Roberts reports to the War Office,
under date of Pretoria, August 6, as
follows:

"Kitchener surrendered on August 4.
The neighboring country seems to be the

front of the force south of the

Vaal River. He is yesterday by a

strong detachment of British Horse and

Canadian Regiments.

"The Boers attacked the garrison of

Eland's River to the morning of August 4.

Information was sent to Carrington, who

was on his way to Eland's River.

Hamilton, who reached Eland's River yester-

day, reported hearing heavy firing in the

direction of Eland's River. To-day the

fire seems more distant, which looks as if

the Boer's garnison were

retiring and was retreating toward Zwartberg.

A special despatch from Pretoria says:

General Lord Kitchener has narrowed the

circle around De Wet and Steyn through

the capture of the latter.
