

## INDIGESTION

If you have it, you know it. You know all about the heavy feeling in the stomach, the formation of gas, the nausea, sick headache, and general weakness of the whole body.

You can't have a week without your blood being impure and your nerves all exhausted. There's just one remedy for you.

# Ayer's Sarsaparilla

There's nothing new about it. Your grandparents took it. It was an old Sarsaparilla before other sarsaparillas were known. It made the word "Sarsaparilla" famous over the whole world. There's no other sarsaparilla.

### LITERARY NOTES.

The May number of the *Metropolitan* Magazine is another number of the Empire series of the Magazine, with very handsomely illustrated articles on "The Majesty King Edward," and "Victoria the Beloved." Much prominence is given to the "Beloved," which is an illustrated leading article, "Husk and its exile system," and a reprint from Prince Kropotkin and other authorities. Professor Shaw, of Montreal, has an admirable paper on the origin of the May Day festival, and a full review of the nineteenth century in art, science, and literature is given, and an interesting account of the Grand Canyon of Arizona, and numerous other articles with the usual departments of Religion, Intelligence, World's Progress, and Book Notes—complete, an excellent number.

Toronto: William Briggs, Montreal: C. W. Coates, Halifax: H. F. Hueston, \$2.00 a year; \$1.00 for six months.

### HOW TO MAKE BIG SOAP-BUBBLES.

It is a great sport to make soap bubbles but it is twice as much fun if you can make them so big that they will float in the air. The secret is to use a soap which is very soft and to use a very fine wire for the frame. The soap should be made of a good quality of tallow and a little of the best glycerine. The wire should be made of a fine wire and should be twisted into a spiral. The soap should be melted and then the wire should be dipped into it. The bubbles should be blown into the air and should be kept in the air as long as possible.

### CHILDREN'S COUGHS.

There's nothing so good for children's coughs and colds, croup, whooping cough, or bronchitis as Dr. Wood's Norway Pine Syrup. It is a natural and healthy remedy and is made from the Norway Pine which grows in the mountains of Norway. It is a natural and healthy remedy and is made from the Norway Pine which grows in the mountains of Norway.

### CHILDREN CRY FOR CASTORIA.

Are you sure you are right—and then be certain you are sure. A medicine is not a medicine until it is used. It is the name of the medicine that is used that makes it a medicine. It is the name of the medicine that is used that makes it a medicine.

### THIN CHILD.

If a child is thin, let him take a little of Scott's emulsion of cod-liver oil. Some children like it too well; begin with a little. A half or quarter-teaspoonful is enough at first; if the stomach is weak; but increase, as you find the stomach will bear.

### A SUGGESTIVE MATTER.

A Chinese cook served long and faithfully in the family of an officer of the United States Army, now retired, who has many friends in Cleveland. He was careful and highly skilled in his art, especially distinguishing himself in making cakes. At a certain western post the wife of the general soldier in question had a desire to see him make his cakes in any way that he might think suitable, but when the big cake appeared she was amazed at the result. The cook was then regularly invited to make a cake for her. He was invited to make a cake for her. He was invited to make a cake for her.
