

HAIR

So many persons have hair that is stubborn and dull. It won't grow o.w. What's the reason? Hair needs help just as anything else does at times. The roots require feeding. When hair stops growing it loses its lustre. It looks dead.

ACT'S HAIR VIGOR

acts almost instantly on such hair. It awakens new life in the hair bulbs. The effect is astonishing. Your hair grows, becomes thicker, and all dandruff is removed.

And the original color of early life is restored to faded or gray hair. This is always the case.

\$1.00 a bottle. All droplets. "I have used Act's Hair Vigor, and am really satisfied with it. It keeps my hair from coming out. It is the best hair tonic I have ever used. I shall continue to recommend it to my friends." MATTHEW HOLT, Sept. 24, 1895, Burlington, N. G.

If you do not obtain all the benefits of Act's Hair Vigor, send for our free book "How to Grow Hair." Dr. J. CLARK, Lowell, Mass.

For Young Folks.

TWO KINDS OF A DUO.
A little kiss is meant affront.
Upon the moonlit water,
With a kiss don't sit, forsooth,
With him who loves you best,
He has the shore a mile or more
Along the laughing water;
Then let the boat serenely float
And hug his neighbor's daughter.

Strength and Endurance.

Are factors of the greatest success.
No person can do full justice to himself without them.
In no season of the year are they more easily exhausted than in the spring.
We have to live up to our surroundings for this.
It's enough to say there is one, and that Hood's Saraparita gives strength and endurance, as thousands annually testify.

Praise undeserved is satire in disguise.—Brownsford.

The never failing medicine, Holloway's Corn Cure, removes all kinds of corns, warts, etc.; even the most difficult to remove cannot withstand this wonderful salve.

Hood's Saraparita is a poultice which must be like a stings—loin larger than nature, so as not to appear small.

Free and easy affectionately immediately relieves and frees the throat and lungs from viscid phlegm, and a medicine that proves this is the best medicine for colds, bronchitis, catarrh, influenza, rheumatism, and all diseases of the throat and chest.

This is precisely what Hood's Anti-Convulsive Syrup is a specific for, and where ever used it has given unbound satisfaction.

Children like it because it is pleasant adult like it because it relieves and cures the disease.

In a country where everybody wishes to be somebody, nobody is anybody.

Bach Radishes, however annoying and distressing, is positively cured by Lax-Liver Pills. They are easy to take and never grip.

Poison is often a means of revenue without a capital, a profession without apprenticeship.

Welling Done's Day.

If you neglect the aching back.

Urinary troubles and diabetes surely follow.

Don't's Pill relieves backache,

Cure every kidney ill.

If you are troubled try them.

History has more of warning than encouragement; it instills rather than consoles.

Milburn's Pills build up and sustain the nervous system, give color to the skin, allow circulation, increase the appetite, cure sleeplessness, nervous prostration, brain fever, and renew vigor and energy.

In French history defeats have left the deeper mark, though victories are longer remembered.

For Cholera Morbus, Cholera Infantum, Orange, Colic, Diarrhoea, Dysentery and Nervous Complaint; Dr. Fowler's Extract of Wild Strawberry is a prompt, safe and sure cure that has been a popular favorite for nearly fifty years.

Poist d'Arbois Jams are very sweet and natural.

NURSING MOTHERS

want Scott's emulsion of cod-liver oil, almost without exception. So before they get to be mothers, existing for two is no small tax, continued for months.

The emulsion not only is food itself; it gives strength for digesting usual food.

If the milk is scanty or poor, the emulsion increases supply and enriches quality.

We'll send you a little to try if you like.

NEW POSTAGE STAMPS.

Bearer the Portrait of King Edward.

Shortly to be issued.

Ottawa, June 4.—The issue of a new set of postage stamps to replace those which bear the head of our late sovereign, Queen Victoria, will shortly engage the attention of the "postal department." The government of the United Kingdom will probably get out its new issue before any stamps taken by the colonies, but here, as heretofore, there is probably a large difference, which it is difficult to say before the new issue is prepared. There is no precedent to go by in the matter, as at the accession of Queen Victoria there was nothing similar as a postage stamp, as we understand the term, in use. There are about fifteen stamps in use in Canada, on which the head of Queen Victoria appears. When the new issue is being prepared it is practically certain that the present eight-cent stamp, which was designed principally for use in registering letters, will be replaced by one of seven cents to correspond with the rate for registered letters since the reduction to two cents of the letter rate.

THE BEST TIME TO ANSWER.

The best time to answer a letter is while one is under its spell, and before your interest in it has grown old. Home letters should be regular. The glow and impulse of love, stimulated anew, will be responsive if stirred, if the reply is not too long deferred. I am always sorry for families who suffer the loss of communication between them to weaken or rest because of carelessness in writing, and many a time my heart has ached for the disappointment visible in an old face, when some young Jean or Molly, whose letter is patiently anticipated, has forgotten to send it at the right time.—Margaret E. Bangs, in *The Leader*.
