EDITORIAL NOTES.

In referring to the Royal Review at Toronto last Friday the Times says: "The Dominion Government is to be praised for taking the advice of the Minister of Militia and ordering a review which will rank perhaps as the chief glory of the royal progress through Ontario."

Educational bodies in some of the larger cities of the United States have been adopting shorter hours for young children. Two or three hours a day ought to be sufficient for children, say, under nine years of age.

Another order for 1,000,000 bushels of oats at New York to be sent to South Africa has been made to keep up prices of the grain in Ontario in the absence of export orders for shipment elsewhere.

Re post office matters, no appointment is likely to be made this year. Further than this, we believe it is practically settled that no outsider will receive the appointment.

A large shoe manufactory in Boston, with 2,000 employees, a pay roll of \$1,000,000 annually, and a daily output of 100,000 shoes, has voluntarily reduced the hours of work to eight.

The sinking of the "Albatross" and the great loss of life and property, a few weeks ago was the result, it is now shown of the drunken pilot and captain who had the command of the ship.

The London, Eng., Chronicle understands that there is some probability that Lord Minto will not complete the term of his appointment as Governor-General of Canada.

The proposal mooted at the meeting of the Public School Board last Friday evening, to have the school buildings heated by steam from the electric power house, will if found to be feasible, be both a popular and an economical project.

The death of Hendry of Mr. Thomas Reid, removes one of our oldest and best citizens. Mr. Reid was a quiet, unobtrusive citizen but many know of his practical warm-heartedness and all who know him will treasure his memory.

The decorations at the G. T. R. depot on Monday were rather meagre, but the Royal party did not stop long enough to notice the decorations.

The board will investigate the matter fully and decide promptly what action will be taken, so that, if practicable the plan may be put into operation for the coming winter.

NEIGHBORHOOD NEWS.

Quite a number of our villagers went to Toronto to see the Royal party, but they had a better view of him at our own station.

Home of our young girls were nicely decorated with the white and blue and red and white bunting, and the Duke and Duchess seemed to appreciate their painstaking as they passed through.

CONSUMPTIVE PEOPLE

CAN BECOME ENRICHED IN HEALTH AND STRENGTH.

The high, Red Blood Madder by Dr. Williams' Pink Pills Gives New Strength to Worn Nerves, Fibres and Organ of the Body.

From the Budget, Birmingham, N. B. "I have the young ladies of my household, there is some lady who more fully bears the impress of perfect health than Miss Lillian Durfee. Unfortunately this was not always the case, as a few years ago Miss Durfee became ill and her friends feared that she was going into decline.

A doctor prescribed, but his medicines did not have the desired effect. Her strength gradually left her, her appetite failed, she had frequent headaches, was very pale, and could not do more than a few yards of work.

The young lady's family sorrowfully observed that she was steadily falling, and feared that consumption would be the result. Her friends tried to get her to take Dr. Williams' Pink Pills, but she would not do so.

At last, however, she was prevailed upon to try a few weeks of the former. To her surprise, she found that she was getting on her feet, and her strength was returning.

She was able to do her usual work, and her friends were glad to see her so well. She is now as healthy as ever, and her friends are glad to see her so well.

Dr. Williams' Pink Pills is a powerful medicine, and it is well known that it is a powerful medicine. It is a powerful medicine, and it is well known that it is a powerful medicine.

The Rev. C. P. WELLS, of Villa Victoria, Ill., says: "Four trials of Asthmalene, and I tell you how thankful I feel for the good result from it. I was a slave, chained with pain and suffering, and Asthmalene brought me relief."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Beth Israel, New York, Jan. 3, 1901. "I have used Asthmalene for Asthma and Hay Fever, and its composition alleviates all my troubles which combine with my asthma. It is a most successful and wonderful medicine. After having it carefully analyzed, we can state that it is a most successful and wonderful medicine. Dr. TAYT BROS. MEDICINE CO. "I write this Testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as that of many others, I changed to your own skill upon your windows on 130th Street, New York. I am now cured of my asthma. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her asthma has disappeared and she is entirely free from all symptoms. I feel that I can conscientiously recommend the medicine to all who are afflicted with this distressing disease."
