The baby who is always plump always as a good appellte, always has a clear ye and a rosy cheek, and is always sollve and playful. Is the cholcest tressure this life affords. The medicine which keeps bables in such a condition or which restores them to it when they are ill is sortaluly a priceless boon to humanity. There are many medicines which produce sleep, but their action upon the child is similar to that which whisky or opium has upon a foll grown man. They deaden and stopely and are the most injurious things which can be given to children.

The only safe course is to use nature's smedies. Nature has provided a vegetable pure for every ill, and her remedies for children's disorders are relentifical,y compounded In Baby's Own Tallets. For diarrhose, countination, colic, simple fever, croup irritation when teething, indigestion and all the disorders of children so familiar to mothers, this remedy is con seded by the medical profession to be without an equal. Its effect is gentle, soothing promptly cornilve and never failing it will save palu, auxiety, doctor bill and perhaps a life. All mothers who have used Haby's Own Tablets for their little ones speak of their lu terms of warmest praire. Mrs. Ben Beward, Korfer, Oat., says: "I have used Haby's Own Tablets und can highly recommend them to all mothers. My baby was outting his tooth, and was very proce when I gave them to him They soted like usedo, he out 'ils teeth almost without me knowing, and gave him such was that they proved a blessing both to child and myestf.
