

Asthma

"One of my daughters had a terrible case of asthma. We tried everything, but without relief. We then tried Ayer's Cherry Pectoral and three and one-half bottles cured her." — Emma Jane Entminger, Langville, O.

Ayer's Cherry Pectoral certainly cures many cases of asthma.

And it cures bronchitis, hoarseness, weak lungs, whooping-cough, croup, tickly coughs, night coughs, and hard colds.

"These alone are enough for an ordinary cold, but when you have hard colds, etc., it will soon make them go away." — J. C. AYER CO., Lowell, Mass.

THE LOST BALL.

Handing one day on the golf links, I was weary and lit at ease; And I balled and fouled idle.

I lay down and I was dreaming; Or where I was rambler there I but I wept that bold a sudden, With the force of two-score men.

It sped through the crimson twilight Like a shot from a gun great gun And it came from my fervent vision To the realm of the vanished sun.

It chased over the bushes,

It crossed the green hill;

It went into the infinite;

I suppose it is getting still.

It chased each perplexing strophe,

With infinite nerve and ease;

And bared right on through the bushes;

As if it were the last great game;

It chased each thought I valued;

That ball of the steaming sun,

It chased into space.

It may be some blithe soddy Can outlast or later than;

May be there is no heaven;

I shall find that ball again.

PERPETUAL MOTION WOULD PAY.

"Talking about inventions," said the business man, "I have a little machine in my place that would make me a millionaire, if I could only keep it going all the time."

"You don't say! What's that?"

"A cash register."

FAME.

"Who is the puffed-up fellow?"

"Why, that's the man who sent a cable to the President when he heard that there was rats in the White House."

Anastasis.

You have been told to "pitch your wagon to a star"—that Nature will assist you. There are times, however, when you should assist nature, and the spring is one of those times.

Nature is now undertaking to cleanse your system—if you take Higgin's Barbita, the undertaking will be successful, and your complexion bright and clear.

The way to make the most of life is not by finding many conditions, but by making the conditions we have serve us best.

A Ride in Care.

Always follows the use of Peppermint's Corn Extract, which cures all kinds of colds in 24 hours, without pain. Peppermint gives the best results.

A man writes to know if one could be a Christian on \$5 a week. It would all depend upon how much his wife had.

When a man has a piece of good advice to give, he should first see that he follows it himself.

When a woman bears a child, going to bed tired, she just naturally turns up her nose and says, "Well, she is old enough."

There is more money lost out at the hole in the top of a man's pocket than any other way.

SEVEN TO ONE

Sometimes the weight goes up that way when taking Scott's Emulsion. Seven pounds of new, healthy flesh from a one pound bottle of Scott's Emulsion is on record.

Scott's Emulsion brings everything to its aid; good appetite; strong digestion; rich blood; new body strength, and above all the power to get all the good out of ordinary food. For those who are in need of more flesh there is nothing better. Thin folks—try it!

Will send a little free, if you like.

SCOTT'S BROWN, Cheshire, Lancashire.

CHARACTERISTIC.

A few friends who had travelled in a number of foreign countries, recently dined together, and told some anecdotes, which, if not true, were well invented to illustrate little national peculiarities. "No man living," said one, "is so obedient to orders as the low caste Hindoo. He says, 'Yes,' it is well. You have least respect of God, Dufferin who uses plain English, and English flowers near his fingers, and directed a couple of drops of water to water is every minute for two hours."

He went to the hills to escape the heat, and returned when the rainy season was more advanced. During this time there was an incessant downpour. Roads and garden beds were pools of water, but there stood his faithful servant, with his watering-pot, pouring a steady stream on the dead plants, as they grew every morning since she began to sweep.

"That is just what they would do," said one of the party who had been in India, "and when we would move about the station in the hills would make him a comfortable dinner. The man, a Hindoo, shut the door, and silently wired to the main office in Bombay:

"Tiger outside on platform. Telegraph instructions."

An American, one of the company, said, "A year or two ago a tiger belonging to Hamro's manager, escaped from the cage and attacked a passenger train. Then he could find no station to which he could get back."

"A woman never feels comfortable unless she does not accomplish."

Some persons have periodic attacks of headache, dysentery or diarrhoea, and have to use great precautions to avoid disease. Change of water-cooking, and green fruits is sure to bring on the attack. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. It is the only one who has been in Yellow service in India, and we would have many more.

"The average man deceives himself often than he does others."

Men with narrow views are apt to be broad in their conservatism.

If religious preference could be sold for one cent we would have many more.

Influence is a sluggish stream, but it eventually undermines the last winter a man has.

MANY STRENGTH AND WARMTH.

Depend on purity of blood, and much of that purity depends on perfect kidney filtering. If these organs are not healthy, the body cannot be strong for health.

Mr. Charles E. Black, Godrigian, One who was directly saved by the use of Peppermint's Compound after colic had failed to do any good work, writes as follows:

"I am a tanner by trade, and about thirty years ago had an attack of rheumatism. While recovering I took a cold and had a relapse which ended in inflammatory rheumatism, and I was laid up for years. I was also afflicted with sleeplessness, and my doctor said I would not live to see my thirtieth year. While almost giving up despair I found Peppermint's Compound was recommended to me. I bought a bottle and took it, and to my surprise it gave me natural sleep and rest. After taking it I felt entirely cured. My wife also used your medicine for influenza, and before she used one whole bottle was entirely cured."

REGULARITY.

Baron Adolphus G. Clément of Whitefield, who makes a rheumatic victim, but South American Rheumatism changed the song from "Despair" to "Joy." He says: "I have a bottle of Peppermint's Compound, and when I take it I feel as though the doctor's medicine did me no good—two bottles of South American Rheumatism Cure did me twice as good as the first dose."

It is easier to follow some leader than to make out your own course, but do not go down stream instead of up.

Does it pay to buy cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung disease.

What shall you do? Go to a "warmer" and more regular climate? If possible, if not, seek the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles—Higgin's Quinine Wine.

It not only heals and stimulates the tissues to the bone, but

strengthens the heart, and cures the patient.

Try one bottle. Recommended many years by all physicians in the world. Hold by A. T. Brown.
