BORN

MIDGLEY—At Ramsyhide, Kts., on Monday, July 7th, to Mr. and Mrs. Geo. Midgley, of Lambton Mills, a son.

The Acton Free Press

THURSDAY, JULY 10, 1902.

EDITORIAL NOTICE.

The Dundas Banner points out that although Joshua Sandford spent 100 hours in the well, he did not kick the bucket.

The latest projected railway is to cross Labrador from Port Arthur, on Lake Superior, to Hamilton Inlet, on the Atlantic. Evidently there is haste among railway builders to secure territory before we abandon the subsidizing policy.

The fact that this year, as in the past, extensive stretches of permanent pavement are to be laid in town, shows that Acton's progressive spirit is still abroad. Acton was one of the first of the small towns to initiate this improvement and the steady progress made in this direction has gratification to our citizens. Permanent walks outside of their material value, add much to the town's cleanliness, and besides made a decidedly good impression on visitors in regard to the town's solidity, and progressive spirit. Acton's old board sidewalks are rapidly vanishing and in a few years more the streets of our pretty little town will all be bordered by the broad white ribbon of cement walk.

A NOTED THREAD-MAKER DEAD.

LONDON, July 8.—William Clark, the prominent thread manufacturer of Paisley, Scotland, and Newark, N. J., whose death was announced yesterday, passed away on board his yacht Cherokee, off Southampton.

COLONIAL PREMIERS DINED.

The Prince and Princess of Wales Act as Hosts.

LONDON, July 8.—The Prince and Princess of Wales gave a dinner this evening in the State apartments of St. James Palace, to the colonial Premiers now in London and 50 other representatives of the colonies and their ladies. Mr. Chamberlain, of course, was unable to attend, but Mrs. Chamberlain was present. St. James Palace was handsomely decorated for the occasion, and the dinner was altogether pleasant and not particularly formal.

FLOODS IN THE WEST.

Water Several Feet over the Railway Near Calgary.

WINNIPEG, July 8.—Traffic with the west is delayed by high water west of Medicine Hat. Passengers are being provided for at several towns by the railway company. The water is reported to be several feet over the track at one point near Calgary. The floods are the most serious experienced in years.

THIS IS A WARM DISTRICT.

The following item from yesterday's World shows how warm the recent hot spell has really been:

Tuesday the thermometer at 4 o'clock in the afternoon registered 91 degrees above zero. This is exactly 20 points higher than the maximum on the same day last year. The hot spell was prevalent all over Canada. The Soo registered 82 degrees, Fort Stanley 86, Montreal 80 and Quebec 84. Toronto was the hottest town in Canada, and was fourth in degrees of heat in North America. It was beaten by St. Louis with 92, Cairo with 91 and Memphis 90.

DEFORESTATION.

A report recently issued by Mr. Thomas Southworth, director of forestry for the Ontario Government, shows to what a serious extent the evil of denuding the country of timber is being carried on in certain sections of the Province. In some of these, more especially in the older parts, this disappearance of the forest has already been attended by detrimental changes in the climate. Authorities declare that the percentage of the total area of any district should be under perpetual forest in order to secure favorable climatic conditions and regulate the water supply is 25 per cent, and that 20 per cent. may be regarded as the very lowest proportion to which the acreage of woodland can be reduced without seriously endangering the interests of the farmer. Mr. Southworth's report which is based upon township assessment rolls and other guides, shows that in very many cases the danger line has been long since passed, and that the evil is yearly becoming more marked. In the eastern section of the Province, the conditions are not so bad, as six counties still keep over 25 per cent. of their area in woodland, and one county has as much as 58.51 per cent. Against that, however, there are ten counties which have between 20 and 25 per cent; sixteen between 10 and 20 per cent., and no less than eleven have a less proportion than 10 per cent. Taking townships the showing is still more startling, for no less than forty-four have under 5 per cent. in woodland. Another unsatisfactory feature is that in some instances the process of deforestation has been accompanied by an increase in the acreage classified as waste, indicating that even land unsuitable for agriculture is being stripped of its forest growth.

The remedy of this state of things is an important matter. Active measures have already been taken to guard against the destruction of forests by fire, by means of the creation of a fire-ranging system and the establishment of forest reserves in the country still remains in the hands of the Government. To counteract the evil of over-clearance on private lands, however, but little has been done. In some of the States, where the gravity of the problem has been sufficiently realized, laws have been adopted giving bonuses or partially exempting from taxation those land owners who keep their property under trees or who replant it with such. Perhaps something of this kind could be done in Canada.—Monetary Times.

Mr. John R. Barber, M. P. P., will have a copy of the above report sent to anyone requesting same by post-card or otherwise.

KING WANTS EARLY CROWNING.

Anxious to Get It Over and Declines to Agree to Any Other Plan till It's Accomplishment.

MUST UNDERGO ANOTHER OPERATION.

LONDON, July 8. The bulletin regarding the condition of King Edward, posted at Buckingham Palace at 10 o'clock says: "The King's progress is all that can be desired. (Signed) Treves, Larking, Barlow."

The news that the coronation of King Edward was to be held before the middle of August was published in the United States and Canada before it was known here. The London Times and other papers this morning confirm the Associated Press announcement. From the same excellent source, the Associated Press learns today that the pressing forward of the coronation was due to the personal insistence of the King. His doctors were at first opposed to such an early date, but the King declined to agree to any other plans until he is crowned, and the doctors, finally realizing that more danger was likely to arise in opposing His Majesty on this point, agreed to it. They now see the King was right, and that it is far better for him to get through the turmoil of the coronation as soon as possible than to have it hanging over him for months. King Edward has determined not to break up the court at Buckingham Palace until after the coronation. He may go on board his yacht for a few days' cruise, but he is more likely to remain in London till the affair is over, and take a prolonged holiday.

CHICAGO, July 8.—The Record-Herald's correspondent in London cables anent the fixing of the coronation for August that there are some who ascribe this change to an earlier date than planed last week to a clamor by the people for a coronation as soon as His Majesty will be well enough to bear the strain of this important function. Though there is no danger of a fatal termination, it is known that the royal patient must submit to another surgical operation, as the primary cause of the ulcer has not yet been found. It is believed that removal of the vermiform appendix may be necessary.

This fact naturally causes constant apprehension, so it is considered an act of wisdom to crown His Majesty as soon as possible.

The King himself also desires an early crowning, so as to be able to gainsay the many prophecies of ill-omen that have been circulated of late.

ADJOURNED COUNCIL MEETING.

Petitions Presented for Several Blocks of Permanent Pavement.

The adjourned meeting of the Council was continued last Thursday evening. All the members were present with Reeve Williams in the chair. Petitions requesting that permanent pavement be laid on the frontage tax plan were received from property owners on Frederick street, Elgin street, John street, and Main street. The petitions were satisfactory, the property owners being sufficiently represented, and the work was ordered to be begun at once. During the next few weeks the several sections of these streets mentioned in another column will be laid with permanent walks.

No further business being before them, Council adjourned.

CANADIANS BEAT RHODESIANS.

The Bisley Team Victorious by a Margin of Nineteen.

BISLEY, Eng., July 8.—The Canadian rifle team shot a match with the Rhodesian rifle team yesterday and won by 19 points. Eight colonial teams have entered for the Kolapore match against the mother country, the highest number on record.

SOUTH AFRICAN GARRISON.

Permanent Force 50,000 Men Under Lieut-Gen. Lyttelton.

LONDON, July 9.—The Daily Mail this morning says the permanent garrison in South Africa is to be 50,000 men, under the command of Lieut-Gen. Lyttelton. Besides this force the system of having a large number of reservists scattered throughout the country, either on farms or in official positions, will be extensively followed. The reservists could be called upon for service in case of an emergency.

THOMAS BERRY KILLED.

Struck by the Midland Train at East Toronto Yesterday.

Thos. Berry, a sectionman employed by the Grand Trunk Railway, was struck by a Grand Trunk passenger train at East Toronto at noon yesterday and almost instantly killed. Dr. Walters was called to see him immediately after the accident, and the man's life was then extinct.

Berry was on his way to dinner, and was running across the tracks in the Grand Trunk yards to reach a yard engine. He probably failed to see the Midland train, which was coming west, and which struck him with terrible force. Berry was a widower about 55 years of age, and lived on Gerrard street east, Toronto. He leaves several children.

GENUINE EXCURSIONS.

Metropolitan Pleasures for Everybody.

Nearly every one living in this community will doubtless want to visit Guelph on Monday July 14th, when the Adam Forepaugh and Sells Brothers' great consolidated shows, comprising double circus, double menageries, double museums, double museums, double hippodromes, will appear there. These great shows are the only ones that exhibit in New York city. No others dare even attempt to exhibit in the metropolis. They opened this season at the Madison Square Garden in New York, and the newspapers, without exception, stated that it was the greatest circus this country had ever seen. The menagerie contain the greatest number of rare wild animals ever seen in one collection. In the circus there are 300 star performers, and in addition to all the standard circus acts there are a score of sensational features. All lines of travel will offer especially low rates of fare and provide all the necessary accommodation for the throngs who wish to go to see them. Adv.

GOOD APPLE CROP.

Heavy Export Trade Expected in Early Varieties.

OTTAWA, July 8.—Reports to the Department of Agriculture state that the prospects are good for a fairly large crop of apples in Canada. Red Astrachans, St. Lawrence, and similar varieties will be abundant enough to provide a comparatively large quantity for export.

MON. JOE CHAMBERLAIN INJURED

Installed in a Hospital, and Has Many Callers on His Birthday.

LONDON, July 8.—There was a constant stream of callers at Charing Cross Hospital today both to confide with Joseph Chamberlain, whose forehead was severely cut in a cab accident yesterday, and to congratulate him on his birthday. Mrs. Chamberlain was an early arrival with a supply of flowers and cushions.

The bulletin issued from the hospital at 11.30 a. m., read:

"Mr. Chamberlain is progressing very rapidly. He passed a good night. Absolute rest is essential. He will remain in the hospital for the present."

THE MINERS' STRIKE.

Attempts to Settle the Dispute Not Yet Abandoned.

WILKESBARRE, July 9.—The Associated Press is able to announce that the National Civic Federation, which tried to prevent the anthracite coal miners' strike, has not exhausted all its means to bring about a settlement. The investigation, started soon after the strike began, is still in progress, and it is understood that the Federal Government through the Department of Labor is assisting. Recently Walter E. Weyl, a statistician in the Department of Labor at Washington and Prof. John R. Commons of the Civic Federation, made a tour of the anthracite coal regions in quest of information. They interviewed all persons familiar with conditions in the coal region. While in Wilksbarre Prof. Commons held a long conference with President Mitchell. Mr. Weyl contributed to the report made by Commissioner Carrol D. Wright to President Roosevelt. The plan to be formulated cannot be learned here. President Mitchell returned from New York today.

TO WELCOME KITCHENER.

Will be Entertained by the Prince of Wales.

LONDON, July 9.—The programme for the reception of Lord Kitchener upon his arrival from South Africa is similar to the one carried out upon the occasion of the home-coming of Lord Roberts, the Commander-in-Chief of the forces. After his elaborate welcome at Southampton, Lord Kitchener is expected to reach London at noon, July the 12. He will be escorted to St. James' Palace, where he will be entertained at luncheon by the Prince of Wales. The Prince will act for the King, and it is said that his Majesty, were it not for his illness, would have honored Lord Kitchener by entertaining him at luncheon as he did Lord Roberts when the latter returned. The resolution adopted by the London County Council to tender Lord Kitchener the congratulations of London upon the successful termination of the South African war was opposed by labor members of the Council and by Lord Russell (Liberal), who remarked that he could not forget or forgive the judicial murder of Commandant Scheepers. The resolution was passed with only a dozen dissenting votes.

WABASH RAILROAD.

Special excursions to Denver, Colorado Springs, Pueblo, Glenwood Springs Col., Salt Lake City, Ogden, Utah; Hot Springs and Deadwood, South Dakota.

Lowest round-trip rates ever made from Canada to the above points. Tickets on sale June 1 to 21 and June 24-to-30 inclusive. Special excursion June 22 to 25. Other cheap excursions during July and August. All tickets good until Oct. 31, 1902. All tickets should read via Detroit and over the Wabash, the short and true route to all Colorado points.

This will be the grandest opportunity ever given the people of this country to visit this beautiful country of grand mountain scenery at a low rate. Full particulars from any railroad agent, or J. A. Richardson, District Passenger Agent, northeast corner King and Yonge Streets, Toronto.

A LIFE IN PERIL.

STORY OF A GIRL BY A NEWSPAPER ARTICLE.

She Suffered From Headaches, Dizziness and Night Sweats—Her Friends Feared She Was Going Into Consumption.

Among the thousands of young girls who bless Dr. Williams' Pink Pills for safely carrying them through that most perilous period of their lives when they step from girlhood into the broader realm of womanhood, there is none more enthusiastic than Miss Gabrielle Thomas, a young lady known to most of the residents of St. Jerome, Que., and greatly esteemed by all her acquaintances. To a reporter of L'Avenir du Nord, Miss Thomas said: "From the time I was fourteen until I was eighteen years of age my health was very bad. I was very weak; had no appetite, and could do no work. At night I perspired greatly and frequently slept but little. I suffered from headaches, dizziness and could scarcely move about without becoming breathless, and I finally reached a stage when my friends feared I was going into consumption. I was under the care of doctors, but their treatment did not help me. I then tried several advertised medicines, but with the same poor results and I had come to think I could not get better. One day I read in a newspaper the statement of a young girl whose symptoms were almost identical with my own, who was cured by the use of Dr. Williams' Pink Pills. I then decided to try this medicine and have reason to bless the day I did so. I had only used the pills a few weeks when I began to get better, and in a couple of months every symptom of my trouble had disappeared and I was as strong and healthy as any girl of my age. I have since always enjoyed the best of health and I shall be glad indeed if my experience proves helpful to some other suffering girl."

The happiness of health for both men and women lies in the timely use of Dr. Williams' Pink Pills, which act as a nerve tonic and supply new blood to enfeebled systems. They have cured many thousands of cases of anaemia, "decline," consumption, pains in the back, neuralgia, depression of spirits, heart palpitation, indigestion, rheumatism, sciatica, St. Vitus' dance and partial paralysis. But substitutes should be avoided if you value your health; see that the full name "Dr. Williams' Pink Pills for Pale People" is on every box. Sold by all dealers or sent postpaid at 50 cents a box or six boxes for $2.50 by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

SPECIAL EXCURSION RATES.

Via the Chicago and North Western Railway to Denver, Colorado Springs, Pueblo, Salt Lake, Hot Springs and Deadwood, South Dakota, during June July and August. A splendid opportunity is offered for an enjoyable vacation trip. Several fine trains via the North-Western line daily. Full information and illustrated pamphlets can be obtained from H. H. Bennett General Agent, 2 King St. East, Toronto, Ont.

The belly is a bad adviser.

"Haunts of Fish and Game."—An exhaustive description of the fish and game resorts on the line of the Grand Trunk, telling where to go for the different varieties. Includes a resume of the fish and game laws of the States and Provinces reached by it. A book that appeals to the angler and sportsman. New this year.

"Lake Nipissing and the French River."—A story of the many attractions of that beautiful northern locality tersely told and containing a fund of information for the camper, and lover of rod and gun. New this year.

"Routes and Rates for Summer Tours."—Containing a list of desirable tours with rates and valuable information for the summer traveller.

"Orillia and Couchiching."—Describing the lakes and resorts in close contiguity to Orillia and Barrie, dealing principally with the Lakes Simcoe and Couchiching as a resort for the angler and a charming locality for the summer tourist. Beautifully illustrated and contains list of hotels, etc.

Any of the above publications will be sent free, upon application to H. A. RICHARDSON, General Passenger & Ticket Agent, Grand Trunk Railway System, Montreal, Canada.
