EDITORIAL NOTES
A four-line ad of \$14.517.358—includes \$22,201.00 in printing & typesetting for Canadian Thimble, which appears approx'd. at \$148,027.40 per month, averaged \$65,100,777 in 1892, and the free imports in the fiscal year ended June 30th, 1902, were worth \$77,322,000.

In 1901 the number of inhabitants by provinces to each conviction for drunkenness in Canada was as follows: Ontario 520, Quebec 537, Nova Scotia 322, Manitoba 310, New Brunswick 235, British Columbia 117, P. E. I. 126, The Territories 231. Average for Canada 421. Ontario leads the list of soberly. While the number of inhabitants to each conviction in the whole of Canada is 421, Ontario is 500.

The sale of ice cream and cold drinks on Sunday is a violation of the Lord's Day Act and druggists and restaurant keepers in various parts of the province have been fined for Sunday selling recently. Last week some Toronto druggists were charged with the offence, pleaded guilty and were fined \$10 and costs, as were also several restaurant-keepers for the sale of ice cream on Sunday. The Toronto police determined it must cease in theory.

Upon the recommendation of Comptroller-General Surgeon of the Department of the Treasury, the Secretary of the Treasury has dismissed J. E. DeBarry, immigrating inspector, stationed at Buffalo, N. Y. There were several charges against DeBarry, the principal one of which was unethically conduct towards ladies travelling between Canada and the United States. DeBarry has been for years a menace to good feeling between the two countries.

The education department has adopted regulations under which it will give aid to public school libraries throughout the province. Under the regulation every rural school board which has a library selected from the catalogue submitted by the Minister of Education, will be entitled to a share of whatever money the Legislature appropriates for the purpose, the grant to be equivalent to half the amount expended by the board, but will not exceed \$10 in a year. In case the Legislature does not vote enough money to justify the full grant, a pro-rata payment will be made.

Thoughtful citizens generally will admit that there are too many boys and girls who run the streets at night. The W. C. T. U. curfew agitation seems to have been allowed, unfortunately, to lapse. In many towns the curfew remedy had proved very successful in guarding against the growing and dangerous evil of boys and girls, idling after closing the streets till ten o'clock at night, if not later. Already one thousand towns in Canada and the United States have passed a curfew ordinance, selected at stated time, in most cases 9 p.m., through three-quarters of them in winter, the town bell rings and all boys and girls must immediately get to their homes. The necessity for such ordinances has long impressed itself upon the attention of the managers and officers of industrial and reformatory institutions. An officer of a state industrial and school for boys says that official reports show 107,227 youths arrested in a hundred of the largest cities in the United States, in one year. He adds: "I feel confident that a careful investigation of this matter will convince any one that at least twenty-five per cent. of these arrests were due to the failure to impose a strict night-closure law." Leaving out of account the need of early sleep and healthy moral teaching in the home, these towns never those the almost certain destruction of pure instincts and the sanguinary vice of idleness, soul-destroying thoughts, whose children roam the streets at will after dark.

Citizens of this good town are beginning to wonder, in view of the subsequent inactivity, what the Committee on Electric Light mean when they presented this following report:

"Your Committee in view of the light, after careful investigation and experience gained in conducting the electric light plant, find that the flat rate now forced to unprofitable and unsatisfactory. We therefore recommend that this Council provide such funds as necessary for the purchase of meters and take electric system out of the hands of the manufacturers and install and contract for the electric light plant, thus giving the consumers the option of purchasing their own meters without any extra charge, or by a flat rate, and monthly bill, the use of same, and that the meter rate be reduced to 10c. per 1000 watts."

GEO. HYND, Chairman Committee on Electric Light.

Nearly two months have since elapsed and, as far as the minutes of the Council are concerned, no further action has been taken. If, as the report states, "The flat rate now in force is unprofitable and unsatisfactory," why is it continued? The members of the committee which presented this report are in the minority in the Council; why do they not put into effect the recommendation of their report? The people wonder, and the citizens who want electric light installed wonder, if as is claimed, the adoption of meters would effect a large saving of current—why it is not adopted and they are given the light they want, and the revenue of the plant to that extent increased.

CORONATION ON AUGUST 9TH.
Official Notification Has Been Issued
For the Above Date.

THE KING RAPIDLY RECOVERING
London, July 22.—An official notification has been issued that by the King's command, the arrival of King Edward and Queen Alexandra will take place August 9th. The rehearsal of the procession from Buckingham Palace to Westminster Abbey is being held and the officials of the various state departments concerned in the Abbey ceremony are making busy with preparations for the crowning.

London, July 22.—Reports from the royal yacht Victoria and Albert continue to chronicle King Edward's improvement. It is said that he walked a few steps yesterday. The King will hold his first audience A.J. Balfour became Premier on board the yacht shortly. It is expected that the name of the Lord Lieutenant of Ireland, to succeed Earl Cadogan (whose resignation was made public July 17) will be announced.

ROYAL CORONATION
There was practically no house-night Friday because there were few, if any, buyers—Hendall.

LINCHHOUSE
There was great disappointment and considerable loss occasioned here during the downpour of rain Saturday, which rendered it impossible to hold the splendid civic holiday planned, however, the weather was still fair. Nothing but rain Saturday, however, did not stop the programme. Nothing but rain Saturday, however, did not stop the programme. The programme will be the same as previously announced. An enjoyable afternoon and good dry harvest weather are hoped for.

NOT A HOLIDAY
Royal Salutes to Fire on Coronation Day the Only Celebration

OTTAWA, July 22.—There will be no public holiday throughout Canada on coronation day, August 9, but royal salutes will be fired at Victoria, Winnipeg, London, Toronto, Montreal, Quebec, St. John and Charlottetown. Unless special observances are arranged for by the municipalities, this will be the only exercise of the day.

ENGLISH TEACHERS COMING
Will Make a Tour of Canada This Summer

TORONTO, July 22.—Hon. Richard Harcourt today received a letter from Hon. George W. Bain, in which the Premier states that he will remain in England until the convention takes place. The Premier also states that many English school teachers will make a tour of Canada during the present summer. Mr. Harcourt will arrange to have every facility afforded the teachers to see all that is to be seen in Ontario. The Premier states that he is in good health.

A PRACTICAL QUESTION
Confederation of Newfoundland and Canada

SIR JOHN NYLAND, July 22.—Wide-spread interest is developing here over the speech delivered in London last week by Sir Robert Bond, the Premier of Newfoundland, in which he declared that the confederation of Newfoundland with the Dominion of Canada was mainly a question of terms from the later. Press and public are discussing the matter eagerly, and the feeling is generally expressed that Prime Minister Bond's speech makes the question a practical and likely to result in action being taken to advance the matter at the next session of the Legislature.

THE CANADIAN ARCH
Police Want It Removed, but City Council Say It Must Remain

LONDON, July 23.—A curious squabble is in progress in the Canadian embassy in Whitehall for the coronation. The commissioner of police has written to the Westminster City Council, requiring the removal of the arch, which the commissioners claim obstruct traffic by attracting crowds of sight-seers. The Westminster corporation committee want the arch to remain, and it is considered possible that the City Council will decide that it shall not be removed.

A TORONTO MYSTERY
The Disappeared Death of Two Men in Toronto Waterfront—Police Suspected

TORONTO, July 22.—It is announced that the examination of the body of Geo. Whalley, shipped in the warehouse of Evans & Sons, who was found dead in the warehouse on Sunday under circumstances that point to foul play, disclosed no wound that could have caused death, nor anything that would explain the fatality. The Government has ordered an analysis of the stomach of Mr. Whalley, and it is found the body of E. Green, a young Belleville man, who on June 7 was found in a dying condition in the warehouse, where he too was employed, will be exhumed and the stomach examined also. It is now recalled that there was frost around Green's mouth when he was found, and the doctor who attended him says that the weather was quite comfortable with a slight frost. Green was supposed to have taken it, might also have been caused by poison. Green had been taking sulphur by a doctor's orders, and a bottle of that liquid was near him when he was found.

HOT WEATHER AILMENTS
Caren's Tablets Will Keep at Hand the Means to Cure All—
ments That Otherwise May Prove Fatal

When the weather is hot the sands of the little life are apt to glide away before they know it. You can't watch the little one too carefully at this period. Dysentery, diarrhoea, cholera infantum and disorders of the stomach are alarmingly frequent during the hot mid-weather of the summer months. At the first sign of any of these or any of the other ailments that afflict little ones give Baby's Own Tablets. These Tablets will specially relieve and promptly cure all weather ailments. Keep them in a precious place, use them often. Mrs. Herbert Burnham, Smith's Falls, Ont., says: "When my oldest child was six weeks old he had an attack of cholera infantum and was at death's door. The doctor advised to use Baby's Own Tablets and in twenty-four hours baby was better; the vomiting and purging ceased and he regained strength fully. I have used the Tablets for other ailments of children since and always with the same results. I can sincerely recommend them to mothers as a medicine that should always be kept in the house."

Little ones thrive, are good natured, and grow plump and rosy in beauty where Baby's Own Tablets are used. Children take them readily as candy, and crunched to powder, they can be given to the youngest infant with the best of results. Sold at drug stores you can get them post paid at 25 cents a box by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y.

The prospects are that Manitoba and the Canadian Northwest will have another record-breaking crop this season. Twenty thousand men, it is understood, will be required to assist in the harvest, which will be pretty heavy draft on the harvesting forces in the provinces of the Dominion.

FAILED TO BENEFIT MR. JOHN POTTER OF WELANDPORT
But Dr. Williams' Pink Pills Cured Her, and She Is Now Enjoying the Best of Health

It is an uncommon occurrence for Dr. Williams' Pink Pills to remain in the body long, and even the best of hospital treatment has failed to benefit them. Among those who have been benefited in this way is Mrs. John Potter, a lady well known in Welandport. Off. Speaking about her illness to a reporter, Mrs. Potter said: "About three years ago I was greatly run down. My appetite was poor; I suffered from severe headaches and palpitation of the heart; I was very weak and had a constant feeling of weariness which made sleep difficult to overcome. At night I perspired freely and would wake up in the morning in a very feeble condition. To make matters worse my trouble became aggravated by the fact that I was unable to sleep at night, and was compelled to lie down. I had been ill for a long time, and the doctors they failed to cure me. I then went to the hospital in Hamilton, and although I received the best treatment that could be given there, I was not benefited. I returned home very much disengaged, and it was then that I decided that I would try Dr. Williams' Pink Pills. I got a supply and began taking them, and to my gratification they soon began to help me, and under their continued use my appetite returned, the headaches and violent palpitation of the heart disappeared, my weight increased, and all the troubles that made my life so unbearable vanished. I will give great pleasure if my experience will lead some other sufferer to try these pills. I am sure they will be beneficial."

MR. NC. FORBES AND HIS FAMILY
Mr. NC. Forbes and his family, and wife, have come to live at the corner of Main and Peel Streets, Brockville. He is returning from farming, and will take possession this fall. Mr. Forbes intends moving to Acton in a few months. Much regret is expressed over the loss of this good man and family were entertained for his recovery, but death claimed him on Tuesday afternoon.

SPYEYSHIDE
Cheerfully the event of the season for this community was the garden party held on Tuesday evening at the home of Mr. Henry Syers, Willow Brook Farm, under the auspices of the trustees of Speyeshide Mission Hall. Owing to the very moist weather for several days previous, fears were felt that it would interfere with the success of the function. Bright, warm sunshine prevailed Tuesday afternoon, however, and this was followed with splendid weather, both of which contributed to the success of the affair. The attendance was very large and the proceeds very encouraging. The programme was a variety of singing and melodious character. A man cornet band and Knox Church Sunday School Orchestra provided ample dance of instrumental music, while excellent vocal numbers were given by Messrs. Harry James, D. M. Henderson, A. T. Mann and E. J. Moore. Knox Church Choir also sang a quartette. Miss Jessie Smith was the accompanist. The pipes were skillfully manipulated by Pipe Boss and Douglas. Speeches were made by Rev. L. Perrin, H. A. Georgetown, and Rev. H. A. Macpherson. Mr. John R. Barber, M. P. P., was unable to be present and asked to be fined \$5.00 for his absence. The abundant tea and appetizing refreshments were thoroughly enjoyed. The dinner was occupied by Mr. D. Henderson, M. P., in his usual affable manner.

THE PROGRAMME
The programme is intended to be of great interest, and on conclusion of the musical entertainment, there will be a general social gathering for the benefit of the church. The programme will be the same as previously announced. The trustees will be in charge of the collection.

PLEADED GUILTY TO POBERRY
GALE, Ont., July 22.—Charles McKinley, of Ayr, an implement agent, who was arrested on July 12, at the instance of the Woodstock Waggon and Manufacturing Company for forged or a number of promissory notes and orders, and also for obtaining goods under false pretences, came up for trial before Police Magistrate Blake at Berlin yesterday morning. The prisoner pleaded guilty to all the charges preferred, and was remanded for sentence. McKinley was born in the Ontario Windmill and Wool Manufacturing Company, and the Brockville Carriage Company.

A NEW DEPARTURE
The Chicago, Milwaukee & St. Paul Railway has recently put in service its Pioneer Limited trains the large and handsome dining car ever built. It is 82 feet in length from tip to tip. Its body is 6 inches wider and higher than the dining car in seats 30 people comfortably in movable chairs, and has a kitchen large enough to permit the working of six cooks which with six waiters and a conductor make up the crew. The dining car therefore in service did not provide sufficient space to properly care for the large number of patrons of the Pioneer, so that it became necessary to have a larger car.
