MARRIED

KING—BYDALEK—At the Methodist Parsonage, Nassagaweya, by Rev. E. L. Flarg, Benjamin F. King, to Mary A. Bydalek, all of Nassagaweya.

DIED.

BENGOUGH—At 16 Bickborough Ave., Toronto, on Tuesday, Sept. 2nd, Mrs. J. W. Bengough, wife of J. W. Bengough, Journalist.

The Acton Free Press

THURSDAY, SEPTEMBER 4, 1902

EDITORIAL NOTES.

The Ontario Department of Agriculture is endeavoring to eliminate the "fake" element from fall fairs, and to make them more useful and instructive. One plan for securing this end will be the giving of lessons in cooking and domestic science at a number of fairs this fall.

There will probably be a big circulation of Dominion notes this fall, as a number of the Canadian banks will by that time have reached the limit of the circulation of their own bills allowed by law. No doubt several will make use of Montreal, Merchants' Bank of Canada, and Bank of Commerce bills to tide them over till the circulation falls again toward winter.

MANITOBA'S 1901 CROP.

A Total of 60,000,000 Bushels Raised Last Year.

WINNIPEG, Sept. 2.—Practically all of the crop of 1901 has now been moved. The last twenty-two cars were inspected at Winnipeg on Saturday, and almost to a bushel it is possible to give the exact figures on the wheat and other grain shipments from last year's crop. This last month, added to those from Sept. 1st, makes a total amount of grain inspected at Winnipeg for this year from Sept. 1st to August 31st, 575,000 cars, or 46,200,000 bushels of grain, calculating on only 800 bushels to the car. This amount is greater by nearly five thirds what was moved in 1900-1, when only 15,105 cars were inspected here, and nearly double that of 1899-1900, when 23,023 cars were inspected. This amount shown as inspected here does not include flour or any feed milled west of Winnipeg, but does include wheat milled here or at Keewatin and all shipments whether via Emerson or Winnipeg. About 7,000,000 bushels had to be added as having been used in the country for seeding, and another million for milling purposes, bringing the total crop up to 60,000,000 bushels, including 2,000,000 bushels still in the country. Taking an average of 55 cents per bushel for all of this the country has realized on last year's crop about $33,000,000.

An Edmonton despatch says the last week of August in the main has been very favorable for ripening crops. The high wind of Wednesday evening was followed by a light rain during Thursday, Friday, Saturday, Sunday and to-day. There has been no frost, and the grain has not been lodged much by the wind. Cutting has been in progress in all of the districts during the week and will now be general. Oats are being cut, and a large proportion is ripe, while the remainder is safe.

So far the weather has shown no signs of frost, but there is a coolness in the night air which tells that the heat of summer is over. The quality of grain is unsurpassed and the yield will be large. While the foregoing is the case throughout the district at large, the information which has come to hand indicates that the hailstorm of last Wednesday destroyed the crops in several districts, estimated at 200,000 bushels of wheat and 400,000 bushels of oats.

The first car of Manitoba's new wheat has been graded No. 1 hard by the chief inspector. A car of new wheat reached the city yesterday from Plum Coulee and graded No. 1 hard.

The grade of the new wheat is said to be superior quality and has not the slightest trace of "frost bite." It is expected that by the end of the week a number of elevators will open throughout the country, but none that could be learned of were open, as was expected, yesterday.

It was reported on the exchanges that frost had visited the Manitoba district. Vines and vegetable plants were touched, but the wheat there is now all cut and no damage resulted. Reports from Qu'Appelle also state that frost occured there, but to what extent, if any, the damage to the wheat was could not be learned.

ANOTHER CANADIAN SMELTER.

English Directors Investigating at Grand Forks, B. C.

GRAND FORKS, B. C., Sept. 3—Mr. G. S. Waterlow and Dr. H. Lewis Jones, London directors and Mr. A. J. McMillan, Managing Director of the Snowshoe Gold and Copper Mines, owning the Snoeshoe mines near Phoenix, to-day inspected several smelter sites in the valley in this vicinity. The visitors left for Phoenix and after inspecting other smelter sites, will return to Grand Forks in a fortnight. Mr. Waterlow said: "Experience has taught us that low-grade properties in the Boundary must own their own smelter plant. Our mines are now developed to a point when they can produce a tonnage of six hundred tons a day, a figure that can soon be very largely increased. We are looking for a site and intend to determine the merits of the various properties where sites are available. Our idea is to erect a 1,000 ton plant. The site shown us at Grand Forks is an excellent one. If we locate here our decision will largely hinge upon the inducements of your city. We will return here very shortly and final action will be taken by the board in London after considering our report. Mr. Thomas A. Edison, the American inventor, has been experimenting with Snoeshoe and other ores, with a view to perfecting a system of treating them by what he calls the magnetic process. The method has not yet been perfected, but Mr. Edison intimated to me his intention of resuming his experiments as soon as he completes his new storage battery."

Many a man could love his wife dearly if she had married somebody else.

Children Cry for
CASTORIA.

A GLIMPSE AT NEW ONTARIO.

Entertaining Letter from One of Our Boys, Who is in Itinerant Missionary Work.

SETTLERS IN THE NEW COUNTRY.

DEAR MR. EDITOR:

Yes, I am at Emo, in Ontario, yet might just as well be in British Columbia for all the chance I have of seeing old Acton again. On my way back here from Shebo. N. W. T., I stopped over at Winnipeg, where I had to change cars, and had the pleasure of being entertained at the home of Mrs. Kennedy (nee Edna Miller) and found her happy, and glad to see some one from Acton. From Winnipeg I took the C. N. R. for Emo and arrived here safe after a threesome journey of 187 miles, in the conductor's van of a freight train, over a track—well, I venture to say it is no exaggeration, that it is the roughest in the country but may also say that it is being improved very rapidly for a new road.

Arriving at Emo, I found it a nice little town, for a country like this, of about 150 inhabitants, and situated in a very ideal place, right on the banks of the Rainy River. Here we have two saw mills, seven stores, post office, blackshop, barbershop, laundry, two dressmakers, two hotels and a liquor store and—one church building owned by the Presbyterians. Oh, yes, and last but not least, a Methodist parsonage—a pretentious affair of lumber having a shanty roof. It is twelve feet square and has one door, and one window looking out over the river. Here the Methodist Parson holds out and is his own chief cook and dish washer. I must say I enjoy it immensely, for here I have only about two minutes walk to the store where I dead; five minutes to the post office, and on Sunday five minutes walk and I am at the church where we hold forth. It does not seem like keeping bachelor's hall to have everything so convenient.

I do not keep even one horse here, but walk it. My field is only ten miles long—as compared with Shebo which was sixty miles long—quite a difference. I enjoy the change very much. The walk is somewhat heavy if it rains, but in dry weather it is rather pleasant. In the morning (Sunday) I do not have to hitch up and drive eighteen miles as I have often done before to get to my appointment, but just trot out and in five minutes am at church. Here at Emo we have a pretty good congregation for a Western Youngmen's Mission; I have had as high as sixty out. After service I have dinner and then take the road and sprint it for five miles and hold services at my middle appointment, Fishers Road. Here we do not have as many as we might have—only about twenty-five. Then in the evening I hold forth at Devlin, my third and last appointment ten miles east of Emo. Here for a farming community, I have a good congregation—as high as seventy attending, and the prospect of more when the winter comes and the roads are better.

Everything here is somewhat primitive. Great stretches of road are corduroyed or the muskegs would be impassable, and the government is spending large sums in improvements on the roads. But even with the corduroys it is pretty rough for new comers—suits me alright though. The houses are nearly all log, some of them have scoop-roofs and others split shingles, while the most are shingled with good sawn shingles. The land is heavily timbered and here the old story is repeated—chop, log, burn, drag amongst the stumps, and sow grass—hay crop for two years—then stump, break up and work land well—then a crop after very hard work. At first cut hay with scythe and rake with hand-rake, then stack with hand barrow, etc. But do not think that the people are badly off. They do well, for in winter they made well in the woods and hard cash is always on hand. They are all comfortable. The most comfortable settlers I have struck since coming west, and I believe one reason of it is that they are all Ontario people, from Wellington, Bruce, Huron and other counties. I may say that I have Mr. Joseph McCouch, late of Fergus, as my steward at Emo. They are good friends to me and knowing so many that I know makes them seem like kin.

I enjoy it very much. I am glad they sent me here. Everything seems so near to my liking as could be. I enjoy the river very much, and am often out rowing. I was over to see my Superintendent, Rev. H. Ireland, at Fort Francis, 20 miles east, last week; went over by train and returned by the "Kenora", a large steam boat plying between the Fort and Rat Portage. This boat calls at Emo three times a week,—Oh, everything is lovely, and I like my work also. I do not think since my first call that I have felt such a desire to do good for the Master. Every day I pray for this. This is the secret of true success and I want to be successful in keeping Bob Ednaston out of sight and holding Christ up to the world. May God help me. Kind regards to all old friends.

R. J. EDMISTON.

$32.00 TO THE PACIFIC COAST

from Chicago via the Chicago & North-Western Railway every day during September and October. One-way second-class tickets at very low rates from Chicago to points in Colorado, Utah, Montana, Nevada, Idaho, Oregon, Washington, British Columbia, California and various other points. Rockwood, Oct. 7.
Woodbridge, Oct. 15 16.
Centre Wellington—Fergus, Sept. 25th and 26th.

GEORGETOWN.

The Georgetown Horticultural Society is offering prizes for collections of fruit, for domestic use and shipping respectively; variety to be named in prize list; also equal amounts for foliage and flowering plants, at the fall fair.

NASSAGAWEYA.

Forty-five juveniles of the Methodist S. S. spent Saturday afternoon at the parsonage. It was agreed that they had a good time.

Mrs. D. Agnew, of Knatchball, has been under the doctor's care for two weeks. We hope she will have a speedy recovery.

ROCKWOOD.

A very enjoyable time was spent at the O. A. C., Guelph, on Saturday last by Miss Reeve, of Rockwood and her music class who were pupils here. The class went by train and were accompanied by their parents and friends, who on arriving at Guelph went to Burgess' studio and were photographed. Miss Reeve by her energy and tact has gathered together one of the largest music classes in the county. Miss Reeve speaks very highly of the reception given her and her class by the officials of the college.

LIMEHOUSE.

Mr. and Mrs. Alex. Doble, of Hamilton, are visiting friends here.

Miss Sadie Bell, of Toronto, is spending her holidays at Mr. Jas. Nicholl's.

Mr. and Mrs. Arthur Ivens, of Toronto, spent a few days with friends here during the week.

Mr. Wm. Nickell, of Sarnia, and Dr. R. Nickell, of Georgetown, spent Friday at Mrs. Jas. Newton's.

Mr. and Mrs. Wise and son, of Stony Creek, are visiting at Mr. T. Marshall's.

Miss Ella Ivens, of Toronto, spent a few days with her parents here.

Mrs. McDonald, of Toronto, is visiting at Mr. Jas. Newton's.

CREWSONS CORNERS.

Mr. J. Walker sowed a quarter [illegible] of land with a half bushel of [illegible] oats last spring and when he [illegible] them the yield was 18 bushels [illegible] large yield of 72 bushels to the [illegible]

[illegible] Cripps has in his garden the [illegible] pillica pullower that we have [illegible] season. It has 52 flowers in full bloom on it now.

Miss Minnie Nickell went to Milton on Tuesday to attend the Model School there.

Miss Annie Anderson, Acton, spent a day last week at Mr. R. Cripps'.

Misses Alice and Nellie Brown, Acton, visited at Mr. Geo. Graham's over Sunday.

Mr. W. Lamb, who had his hand badly lacerated a few weeks ago has quite recovered.

Mrs. John Bennett, sr., is visiting her daughter, Mrs. G. Guy, Pualinch.

Miss H. L. Ramshaw returned home after visiting friends in Guelph and Aberfoyle.

Miss Pearl Guy, Pualinch, is visiting friends here.

ASHGROVE.

Mr. Wm. Morrison, B. A., left on Saturday for St. Mary's to resume his duties as teacher in the Collegiate Institute.

Miss Belle Linfoot, of Hamilton, spent from Saturday to Tuesday with friends here.

Mr. Stanley Nixon, of Keewatin, paid a short visit to his uncle, Mr. J. H. Nixon, this week. Mr. Nixon is now station agent for the C. P. R. at Keewatin. During the last month he has been visiting in New York State and in Eastern Ontario.

Mr. and Mrs. J. Wright spent Sunday at Mr. J. Coyne's, Drumquin.

A trio of enthusiastic exhibitors left here on Monday night to attend the Exhibition. Mr. H. Morrison is showing a fine bay carriage team, a single carriage horse and a combination saddle and harness horse. Mr. M. Nixon shows a three-year-old general purpose colt, while Mr. W. Alexander has a number of fine fowl to show. No doubt these three exhibitors will make a good record and bring some of the laurels to the Grove.

Mr. Albert Downes met with a serious accident on Tuesday evening near Hornby. While coupling the tank to the traction engine he was caught between the front of the tank and the engine causing a serious and painful injury to his back. Dr. McColl, of Milton, was quickly summoned and upon examination it was thought that the spine was broken, but fortunately the injuries have not proven to be so serious. Mr. Downes was cared for at home where he is now doing as well as can be expected.

MONEY FOR MISSIONS.

Report to Methodist Conference Will Be Cheering.

The income of the Methodist Missionary Society, which in 1897-8 was $223,651.90, has now reached $266,377.31 since the last report was made to the General Conference. The increase has been steady from year to year during the quadrennium, the only decrease being in 1900-1, when there was a heavy falling off in legacies, but an advance in all the other sources of income. The ordinary subscriptions and collections have increased $21,280.25; juvenile offerings, $1,501.01; Epworth League contributions, $1,555.00. The amount of $18,332.47 received from the Twentieth Century Thanksgiving Fund is not included in this statement.

CANADIANS' GENEROSITY.

Lord Mountstephen and Lord Strathcona Endow King's Hospital Fund.

LONDON, Sept. 3.—The Prince of Wales, as president of King Edward's Hospital Fund for London, has just announced that Lord Mountstephen and Lord Strathcona have jointly presented the fund with an endowment which at present produces £10,000 a year, and is likely to increase in value. It is regarded as peculiarly appropriate that at a time when the ties that bind the colonies to the old country are being drawn closer two Canadians should have come forward to further the scheme which King Edward has so much at heart.

NEWS ITEMS.

Mr. Robert Lafayge, of Buscomb Station, was killed by a kick of a horse.

It is estimated that 70 persons were drowned during Sunday's storm in Algoa Bay.

The mines of the Pocahontas Colliery Company at Bramwell, W. Va., were fired by strikers.

Most of the strikers have resumed work at Florence, and business is returning to its normal condition.

A young man named Tassell, of Gracefield, was dragged through a wire fence by his team running away, and fatally injured.

Chester Longwell, of Demorestville, was blinded by a shooting accident while duck-hunting, and it is doubtful if his sight can be restored.

Chancellor Burwash was thrown from his berth on a steamer on his way to the Methodist Conference in Winnipeg and suffered strains in his back and head.

THE JUDGE AND HIS SON.

Dr. Dalton McCarthy to be Tried by Judge McCarthy.

A peculiar state of affairs exists in a law case in Orangeville in which Dr. Dalton McCarthy is charged with assaulting Mrs. D. J. Mungovan, wife of the editor of the Dufferin Post, who formerly lived in North Easthope. The accused is a son of Judge McCarthy. The latter in order to avoid appearance of unfairness, asked Judge Chadwick, of Guelph, to preside at the trial, but at the last moment a telegram announcing that gentleman's illness arrived.

The telegram came just when the case was to be heard at 10.30 a. m., Aug. 19th. County attorney McKay had intended asking for an adjournment owing to the absence of Mrs. Mungovan, who could not be found by the law officers, but an adjournment on this ground was unnecessary. It was concluded to call upon the accused to plead to the indictment for aggravated assault. Mr. McKay handed the indictment and depositions before the Police Magistrate to Judge McCarthy. Dr. Dalton McCarthy, the accused, stood up, and father and son faced each other—the father on the bench, the son the person mentioned in the indictment. The father read the indictment and the son was asked to plead to it. One of his lawyers pleaded "not guilty," and then the son was asked whether he elected to be tried by a jury or summarily. Again the lawyer answered for the son and demanded a summary trial. There was then an adjournment for a week, an order for bail was made, and then the brief proceedings were over. LATER—The case was further adjourned for a week and will be tried by Judge Mahaffy.

A GUELPH MAN'S UNFORTUNATE EXPERIENCE.

William Bolton, of Guelph, fell off a train while returning from Waterloo Saturday night. As Meaboro was being reached Mr. Bolton went out on the platform and for a moment conversed with a couple of young men, residents of Berlin, who were coming to Guelph to spend Sunday. Finally he turned to reenter the car, and as he did so one of the two young men, who were fooling with each other, stumbled up against him and knocked him off the train. They evidently did not know what happened, as the train was allowed to run through to Guelph and Bolton was left where he had fallen. The train was running at quite a speed at the time, and Bolton was thrown with such force to the ground that he was rendered unconscious.

If you are a sufferer from kidney disease, liver complaint, blood troubles, rheumatism, neuralgia or nervous prostration, we confidently recommend the use of Paine's Celery Compound. This reliable and never disappointing medicine is a true disease banisher and system builder. We supply the genuine Paine's Celery Compound. A. T. Brown, Acton Ont.

A GRATEFUL TRIBUTE.

FROM A MAN WHO LOOKED UPON HIS CASE AS HOPELESS.

Doctors Diagnosed His Case as Catarrh of the Stomach, but Failed to Help Him—Many Remedies Were Tried Before a Cure Was Found.

From the Bulletin, Bridgewater, N. S.

We suppose there is not a corner in this wide Dominion in which will not be found people who have been restored to health and strength through the use of Dr. Williams' Pink Pills. There are many such cases here in Bridgewater and its vicinity, and we are this week given permission to record one for the benefit of similar sufferers. The case is well known in this vicinity and the tenacity of the disorder was remarkable. For six years Alfred Veinot, a surveyor of lumber for the great lumber firm of Davison & Sons, was a victim of a serious disorder of the stomach. His sufferings were excruciating and he had wasted to a shadow. Doctors prescribed for him, yet the agonizing pains continued. Many remedies were tried but to no avail. The case was diagnosed as catarrh of the stomach, food became distasteful, life a burden. The trouble went on for nearly six years, then a good Samaritan advised the use of Dr. Williams' Pink Pills. The pills were given a fair, patent trial, Mr. Veinot using about a dozen boxes, and before they were all gone a permanent cure was effected. Mr. Veinot is now able to attend to his business which it looked as if he was doomed to die. He is grateful to this great medicine for his cure and has no hesitation in saying so.

Because of their thorough and prompt action on the blood and nerves these pills speedily cure anaemia, rheumatism, sciatia, partial paralysis, St. Vitus' dance, scrofula and eruptions of the skin, erysipelas, kidney and liver troubles and the functional ailments which make the lives of so many women a course of constant misery. Get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. Sold by medicine dealers or sent post paid at 50c. a box or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

NEW LITERATURE.

Besides its articles on agricultural facts and problems, the Review of Reviews for September contains much material relating to other branches of American industry. The process for extraction of nitrogen from the atmosphere, recently installed at Niagara Falls, is described in an illustrated article by Mr. Thomas C. Martin. The remarkable growth of American manufactures in the past half century is outlined in a valuable article contributed by Chief Statistician North of the Census Bureau. There are two articles on the labor problem—"An Instance of Profit sharing," by Mr. Samuel Cabot, and "The Bonus System of Rewarding Labor," by Mr. H. L. Gantt.

Foundation Principales.

First: When we undertake to fill your subscriptions, we give them our undivided attention and best care. The patient's welfare is our first consideration.

Second: We guarantee our drugs to be of full strength as well as pure and fresh.

Third: Our customers are supplied with just what they ask for; substituting is never allowed.

PAINE'S CELERY COMPOUND.

WHY HE WAS GLOOMY.

"Well James, how are you feeling to-day?" said the minister to one of his parishioners, an old man suffering from chronic rheumatism. "You are not looking as brisk as usual."

"No, sir," replied the old fellow, sadly, "I've been gey unfortinit the day."

"How, James?"

"Weel, sir, I got a letter fra a Glasgy lawyer body this mornin' tellin' me that ma cousin Jock was deid, an' that he had left me two hunner poun'."

"Two hundred pounds!" repeated the minister. "And you call that hard luck? Why it is quite a fortune for you, James."

"Aye," said the old man, sorrowfully but the stupid lawyer body didna pit enough stamps on his letter, an' I had a hale sixpence to pay for extra postage."—Tit-Bits.

SPECIAL EXCURSION RATES.

Via the Chicago and North Western Railway to Denver, Colorado Springs, Pueblo, Salt Lake, Hot Springs and Deadwood, South Dakota, during June July and August. A splendid opportunity is offered for an enjoyable vacation trip. Several fine trains via the North-Western line daily. Full information and illustrated pamphlets can be obtained from B. H. Bennett General Agent, 2 King St. East, Toronto, Ont.

There is no truth in the saying that all who marry in haste repent at leisure. Many of them have to hustle so hard to keep the wolf from the door that they don't have the leisure.

Most any newspaper will indorse a man for high office after he has put up the cold cash, even if they haven't enough confidence in his honesty to trust him for the announcement fee.

Exclusiveness.

It often happens in smaller towns when the season's new goods commence to arrive and be distributed among the different patrons of a store that many ladies find themselves in a ring of fall livery as it were—all dressed alike, and this, we believe, is the reason most often given by ladies in favor of dealing in larger places. Our superior buying facilities have enabled us to altogether obviate this difficulty, and the signal success so far met with in our Dress Goods sales, show that our efforts in this direction are appreciated by the ladies of this vicinity. All our new Suitings, Costumes and Fancy Waist Materials come in single lengths, only sufficient to make one garment or suit, and the objectionable feature of finding a number of others wearing similar patterns is altogether done away with. Our stock is now complete and those who have given us the favor of a look through say that better values and assortment have never been shown in Acton.

FARM FOR SALE.

THE well-known homestead, lot 26, con. 5, Esquesing, comprising 150 acres more or less, and belonging to the estate of the late Chas Bonnerville, one hundred acres cleared, and about thirty acres of bush. On the premises is a comfortable eight roomed house, good barns, stabling and outhouses, living water pipes to both house and barn, and run by gravitation, soft water, good orchard of apples, pears and small fruits. Farm is well fenced. Located within half a mile of Limehouse, post office and G. T. R. depot. Two and a half miles from Acton, schools and churches. Convenient. No encumbrances. Possession given this fall if desired. For further particulars apply on the premises, or to Limehouse P. O. to

MURRAY ROMBERVILLE, Administrator,
or to WM. HEMSTREET, Acton.

MUNICIPALITY OF ACTON

NOTICE

I HEREBY GIVE that a Court will be held pursuant to the Ontario Voters' List Act, by His Honor, the Judge of the County Court of the County of Halton at the Town Hall, in the Village of Acton, on

TUESDAY, SEPTEMBER 16th, 1902, at 2:30 p. m.

to hear and determine the several complaints of errors and omissions in the Voters' List of the municipality of the Village of Acton for 1902. All persons having business at the Court are required to attend at the said time and place.

THOS. T. MOORE,
Clerk of the Village of Acton.

Dated at Acton, Sept. 1st, 1902.

BELL TELEPHONE CO. OF CANADA.

A new issue of the Subscriber's Directory for the District of Western Ontario, including the Acton Exchange, will be issued early in September. Orders for new connections, changes of address, changes of names, duplicate entry of names, etc., should be placed at once to ensure their appearance.

A. T. Brown,
Local Manager.

You'll Miss It

If you decide about your education and select a school before you see the new catalogue of the

Central Business College
OF TORONTO.

A postal will bring it by return mail and, aside from its artistic value, you will be interested in the work of an up-to-date business school which employs TWELVE teachers, owns ONE HUNDRED typewriting machines and sends out nearly five hundred young people into good positions each year.

Fall Session from Sept. 2nd.
Enter any time. Write for catalogue.
Address W. H. SHAW, Principal.

Buggies and Market Wagons.

Anyone intending to buy a new Buggy or Market Waggon this spring should inspect my stock—hand-made vehicles. They are neat, strong and durable; will wear out two factory jobs. If you are needing any carriage repairing, come right here. I can give you better satisfaction in that line than any other shop in Peel or Halton.

I also have a first-class horseshoer. Mr. Reader, I solicit your patronage.
