How about Flannellette Blankets?

If your present ones are getting thin or you want a few new ones we have the right kind. The universal sale we have had of these proves that they are right. There is something about the "IBEX" quality that appeals to the sensible woman and she knows it does not pay to get cheap goods even at the saving of a few cents. If you do not already know these goods it will pay you to look them over at once.
