B. CONVENTION AT NORVAL.

The Executive Committee of the

Burliville Township Sunday School

Association met in Guelph Saturday

and arranged for the annual Convention

which is to be held at Norval on April

21st, 1893.

It is hoped by citizens generally that

these will include new concert crossings on

Mill and Church Streets, where the

stone crossings were removed when

the Macadam streets were built two

years ago. The public has been

seriously inconvenienced during mud

weather the past two seasons by

lack of proper crossings. The Mill

and Church roadways should also

receive attention to their good con-

dition to be lasting.

All our paths should be filled with broken stones after the usual spring cleaning

and then both strengthened through

rolling with the right iron roller.

We believe these very necessary im-

provements will commend themselves to

Chairman Bell and his committee.

At a banquet on Monday to the Hon.

James Bryce, British Ambassador to

the United States, Sir Wilfrid Laurier

in proposing the toast of the Ambas-

sador, said Mr. Bryce had been on this

continent for a few weeks, and had al-

ready turned a new leaf in his life.

This record of British diplomacy in North

America had not been a record to be

proud of. A mere glance at the map

of Canada would suffice to show

that every treaty made by the mother-

land with the United States respecting

Canada from 1703 to 1867, had recorded

a blunder on the part of the Imperial

government. He believed that with

the coming of Mr. Hayes to Washington,

this blundering would cease. Almost

his first act was to visit Canada, some-

thing which he had never done before.

These would have no longerings

to Washington, but his present

visit to Canada, however, was to be

an important one, and he was to be

met at the Canadian frontier by

the Canadian government.

He was to turn over a new leaf. The
