He immediately approached the farmer and said, "I could have sold every article you have there for less money than you paid the Toronto house and saved the freight besides. "Then why on earth didn't you say so?" answered the farmer. "I have taken two local papers for years and have never seen a line about your selling these goods. This Toronto house sent advortising matter to me naking for my trade and they got it. If you have any bargains, why don't you have them put in the paper so we farmore can see what they are."
