EDITORIAL NOTES.

The report of the Minister of Justice on the Statutes passed by Provincial Legislature in the scotion of likel, has been received by the Ontario Clovern ment. All the measures have been an proved by the Donfalon Government No note have been disallowed.

Haperintendent Beath, in address sing the North York Teachers' Association on Monday and speaking for the Minister of Education made the statement that while the Government had abandoned the niloimum salary clause, the principle was unchanged. The Government, though not using compulsion, was offering many inducaments, going into effect next session. to the hoards, to pay more money. other respects. The third-class certifilicate would soon be a thing of the past. lowered at all, would be made much easier of attainment.

option districts, in addressing the Conforence at Goderich, on Monday, said he believed that there is more illegal liquor selling in licensed places than in local option districts, and that the law was just as well enforced in the latter. Mr. Ayerst called attention to the way that the law had been evaded by the leased bar, the amendment to the law covering the point, and commended Hon. W. J. Hanna, Provincial Secretary, for his efforts in strengthening the law. The cancellation of the license after three convictions is keeping a lot of hotelkespers on the auxious. The methods adopted by the department had been criticized, but he claimed it was just as honorable to prosecute men for illegal solling as the burglar who ransacked dwellings and stores. The only instructions he got from the department at Toronto were to enferce the law, and he was bound to make the Province a law-abiding place if possible.

CANADIAN FIGH TRADE. Dovernment Will Try to Build It Up.

Ottawa, June 5th -- The department of railways and canals is convinced that if some system of co-operation can be devised between the fishermen and the consumers of fish there is no reason why a very remunerative trade should not be built up between the Maritime Provinces and Ontario. The department of marine and fisheries has been asked to send an expert to the fish consuming sections of western Ontario, to be opened in the province this year | with a view to accortaining how much fish the market can take care of and

what the prospects are for the development of the trade. In view of the fact that New York State has within a few years built up a trade in fish by means of cold stormillion dollars a year, it is felt that much better article, should not be able to scoure a very valuable market in. book steward, Methodist Book Room, | Ontario, and eventually as far as Mani-
