RECOMMEND YOU FOR ONE OF THESE POSITIONS?

All over the country business houses are installing special modernized systems, designed individually for their own businesses. And as they put in these new systems they want men trained in their use

who are capable of stepping right in and taking hold. The directors of Business Systems, Limited, continually in touch with the largest commercial institutions throughout the Dominion which are installing these new systems of accounting, are frequently asked to recommend men to take charge of offices.

Right this instant, they have a number of positions in which they could place capable men, if they had men whom they felt they knew enough about to recommend. .In order, therefore, that they might lieve men with whose work they are

sufficiently familiar that they might feel safe to recommend them, they have

arranged for the starting of Business Systems Commercial School. Business Systems Commercial School will aim to fill a definite field Where the ordinary Business School educates bookkeepers, Business stems Commercial School will get away from all the stereotyped routine that has so long been considered a necessary part of a business education, and will instead, give practical instruction in the methods of office system as

adopted by modern commercial houses all over the Dominion Business Systems Commercial School absolutely will refuse to turn out as a graduate any student who is not thoroughly capable. Aiming at a high standard of excellence, pupils entering Business Systems Commercial School who cannot come up to a certain standard, are given a preliminary training before being placed at the regular work, so that when these pupils have graduated they will be capable of stepping in, taking hold and filling the

class of students, who, when they leave school, are thrust out by their parents to take a year in a business college, mostly because their parents do not know what else to do with them. Business Systems Commercial School wants bright and aggressive young men and women who are themselves determined to succeed. Business Systems Commercial School can bring the rungs on the ladder of success

Business Systems Commercial School is not catering to infants, and the

closer together, but the student has to lift his own feet. . Are you the kind of man who lifts his own feet? If so, write fo particulars. Fall term begins Tuesday, Sept. 3rd.
