**BUSINESS TRAINING FREE!**

A life-time opportunity for some young men, some young women with ideas.

Business Systems Commercial School, Limited, founded upon practical up-to-date business lines, formed from new scientific methods, to teach business as business is done, having their instructions upon forms and supplies identical with those now used in the most modern business houses, has an idea regarding advertising.

To work out this idea they need your assistance, and are willing to pay you, yes, to pay you well for it. Is your brain fertile, is it active, is it in good working order? If so "Get Busy."

We want a good "catch phrase" to use in our advertising, we want the best "catch phrase" obtainable. We now have some good ones, but they may not be the best. We want the best; the best is none too good for Business Systems Commercial School. "The Best for Business Training." We now have the best rooms, best equipment, the best teachers, the best plan of work, and will undoubtedly give by far the best course of training. We also want to do the best advertising that young people from all parts of the country will know of the special advantages provided for them by this school. "The Essence of Essential Education." "The Path of Practical Principles."

We are prepared to give to three persons, six months, four months, and two months respectively of the "best business training" free of any tuition charges. The three persons mentioned will be the first three who send us the three best "catch phrases," or should the one selected as the best be sent by three persons, they will rank in order as received, first received being given first place, second received second place and third received third place. All other contestants who send in the phrase selected as the best and who subsequently enter our school for at least a three months' course, will be given one month's as a bonus, free of tuition charges.

The conditions of the competition are easy of fulfillment.

All contestants must be candidates for a business training for at least a portion of the School Year of 1907-1908, or in other words, all persons competing must be eligible for, and purpose taking before June 1st, at least a one month's course in Day or Evening Classes in some Commercial School or Business College.

It costs nothing to try except a little brain exercise, and a few moments of time in writing us. Talk it over with your friends; those who are not competing, get their ideas with your own, remembering that two heads are better than one.

The star the other phrase the better, so long as one or more good ideas are conveyed.

All answers must reach us not later than September 30th. If at a distance mail in time.

In order that you may the better know something of the special advantages of this school, and thus get ideas to use in the forming of the phrase, we will be pleased to mail all contestants, upon request, a booklet descriptive of our school and its courses of study. Fall Term begins Tuesday, September 3rd. Mention this paper when writing.
