GLORIOUS WEATHER FOR FAIR
And A Very Large Attendance
Dependent on the Weather to Enjoy It
MALL EXHIBITS LIGHT, HOMES ESPECIALLY GOOD.
The opening of the fair was never favored with more delightful weather than prevailed both on Tuesday and Wednesday. This, of course, was a very large contributing element in the success of the fair.

THE BOARD OF EDUCATION.
Largest Attendance in High School
Dependent on the Weather to Enjoy It
PERMANENT PLANTS FOR SCHOOL GROUND.
The Board of Education met in the secretary's office on Saturday evening. All the members were present. Chairman Coleman presided.

24,642 FEET OF PAVEMENT LAID
By Contractors Croft & Matthews on
Quebec Street to King St.
THE ENGINEER'S REPORT PUT IN.
A special meeting of Council was held on Thursday evening to consider the engineer's report on the permanent pavement laid the present season.

From Our Men's Department
The Chap at the Fall Fair who sold \$4.65 worth of goods at the hotel where he stood when he wrote his wife, "My, how I miss the children!" He was long on experience and short on expectation.
You will never know how much you have missed until you have taken a spot at our capacity to supply your wants.

The Acton Free Press
THURSDAY, OCTOBER 8, 1907.
EDITORIAL NOTES.
Nominations for the proposed election in London, North Wellington and East Northumberland will be held on Tuesday, October 22nd, and elections a week later, October 29th.

The show of poultry was hardly up to the mark in point of number of entries. This township has many fine breeds of chicken fowl. If a little more attention were given to this department by practical poultry men, the result would be most gratifying, and it would vitally encourage a healthy rivalry on the part of those who are engaged in raising poultry.

The dry loads of beer and other liquors coming daily through the streets to the hotels would indicate the need for Local Option as soon as possible. These and the prevailing drink-ness are rapidly developing a feeling which will not doubt become a practical and energetic consumption in active measures very shortly.

The show of poultry was hardly up to the mark in point of number of entries. This township has many fine breeds of chicken fowl. If a little more attention were given to this department by practical poultry men, the result would be most gratifying, and it would vitally encourage a healthy rivalry on the part of those who are engaged in raising poultry.

The announcement of the intended extension of the Canadian Pacific Atlantic fleet by means of the replacing of two of its steamers by faster and more commodious vessels is an excellent sign of the country's faith in the outlook for Canada's foreign trade. It is reported that the two replaced vessels, the Empress of Britain and Ireland, will be transferred to the Pacific service. Canadian products are fast finding a great market across the Pacific and the country as a whole will derive the greatest benefit from fostering this trade. The Western country will particularly benefit as she has already done by the demand for Canadian cereals in that direction.
