Treat Your Old Country Friends.
The Diggs Fruit and Produce Co., of Burlington, are making greater preparations than ever for filling orders for forwarding fancy Canadian apples to friends in Great Britain and Ireland on Christmas or New Year's presents. Last year's trade in this department was decidedly satisfactory to this enterprising firm, and eminently so to the recipients of Canada's choice fruit. They guarantee satisfaction in every case.
Another of Acton's Sons Prospering.
From the Winnipeg Telegram we notice that Mr. Samuel Brown, son of our esteemed townsman, Robt. Brown, Esq., Bowser Ave., has the contract for the fine new union station of the Canadian Northern and Grand Trunk Pacific Railways at Winnipeg. The Telegram says: "Mr. S. Brown, who secured the contract, is one of the well-known contractors in the west and this year has a large number of railway contracts on hand. The work of the power house and roundhouse of the C.N.R. is under his supervision, and he has charge of a number of contracts of a similar nature at western divisional points. The new building is to have a frontage of 400 feet on Broadway, and will be 200 feet in depth. The length of the depot will be about evenly distributed on the north and south sides of Broadway, as the new building will extend about 150 feet on either side of that thoroughfare. Roll-out stone will be used in the construction of this fine depot." Thus two Acton men are prominently associated with this big Winnipeg enterprise.
Mr. D. Mann, Vice-Pres. of the Canadian Northern and Grand Trunk Pacific, the contractor. Mr. and Mrs. Brown spent some time during the summer with their Acton friends.
Two Million Roses.
While in Hampton this week the Prince Consort visited the world-famed greenhouses of the Dale estate. This great establishment which has nearly fifteen acres under glass, is the largest in America and its area is equal to that of all other commercial greenhouses in Ontario combined. The company, which is under the able management of Mr. T. W. Duggan, has from 100 to 125 employees. The following will give an idea of its output: 45,000 roses, 25,000 carnations and 45,000 lily-of-the-valley cut and shipped weekly. During the season 150,000 to 175,000 chrysanthemums are produced. These are all of wonderful beauty and excellence. In addition to the above many of the rarest varieties of orchids are grown, a "shag" plant of which was shown whose value was \$15.00. For the present season's stock of lily of the valley 1,000,000 pipes were imported. The Dale ship their beautiful productions to all parts of the Dominion. While the writer was in the shipping rooms orders were being sent to Montreal, Salt Ste Marie and Calgary. So successful are they in growing such varieties as the American Beauty roses that they succeed in winning prizes on all the United States growers in their big horticultural exhibitions. Mr. A. T. Brown is the local agent for the Dale greenhouses and very kindly relations exist between the Dale and their Acton agent.

No More Wire Fence Bonuses.

Esqueing Township Council has passed the following resolutions: "That no bonus be paid for wire fence in this Township until a deputation of the Council examine the same, or a member of the Council certifies that it is all right. That six months after this date the bonus for wire fences will be discontinued."
Slaughter of the Innocents.
Two squads of hunters after five live things, fawns or wild, they could legally kill—a dozen in each squad—representing the Dominion and the Acton hotels, scoured the woods surrounding Acton on Monday to see which side could kill the largest number. The Lohmuis side won and the Acton's representatives had to pay for the supper which followed the day's killing.
No More Street Bonuses.
The Guelph Herald says: "No more bonuses on the streets, say the police. A great many complaints have been received about the burning of leaves on the boulevards of some of the residential streets. The practice has become a nuisance and the police have determined to stop it. There is no better fertilizer to be had than leaves. Put them on your garden and avoid danger from fire and annoyance to your neighbors."
One of Hamilton's First-class Daughters.
Miss Marjorie Vanfless, of Kiltville, has been granted a first-class teacher's certificate. She is the only one of six candidates from Waterdown High School to pass at the examinations, and was the only one to receive a Department three out of the physics paper, which was the cause of the trouble and she left her fifteen p late to the good. Miss Vanfless has done remarkably well considering her age, only eighteen. She is attending the model school at Milton this term.
Acton Young Ladies' Fine Positions.
Miss Amelia Hubbard, daughter of Mr. J. W. Hubbard, Young Street, has been appointed Superintendent of Nurses in Hammett Hospital, at Erie, Pa., and has come home for a ten day visit prior to entering upon the responsible duties of the position. She will have charge of the twenty-five nurses employed in the hospital. Miss Mahol Cook, daughter of Mr. Adam Cook, Mill St., has been appointed Superintendent of the General Hospital at Grove City, Pa. Miss Cook commenced her duties as superintendent several weeks ago. Both of these young ladies are graduates of Hammett Hospital Training School for Nurses. Their preference in appointment to the responsible positions named is creditable indeed to their character and attainments. Our citizens generally will appreciate the honors that have come to these worthy young ladies.
