The speaker of the evening was Rev. James Gibson, M.A., of Toronto, who is the Upper Canada Auxiliary Secretary of the Society. Rev. Mr. Gibson has given the work of the Bible Society very careful study for many years, and in all its ramifications and exploits he is thoroughly conversant. His address was crowded with interesting facts illustrative of the work of the Bible Society during the century of its existence, and the gratifying results following the generous spread of gospel truth through millions of copies of the word of God issued from the presses of the Bible Society.

The latest report regarding the Ontario crop of fall wheat confirms the favorable amount given last August.

The yield is somewhat below that of last year due up to the average and the general price of the grain is good and well up in weight.

Work on Canadian railway construction goes forward rapidly. About 18,000 men are at work on the Grand Trunk Pacific between Winnipeg and Moncton, and on the section west of Winnipeg about 20,000 men are employed. About 125 miles of road between Portage la Prairie and Minot, Man., are ready for traffic, and an additional 100 miles will soon be ready.

The exports of Canadian cheese to Great Britain in 1903 amounted to \$1,000,000, while in 1902 they amounted to \$25,000,000, nearly three times as much as the exports from Holland and the United States combined. Mr. Hall gave prominent to the Agricultural Department for its fostering care of perishable manufacturing transportation, in the way of cold storage, in his speech on the address in the House of Commons last week.

The Christmas Globe is one of the greatest of American holiday publications. Upon it is lavished year after year the highest skill of authors, artists, lithographers and printers. The result is that it has scarcely a rival on this continent and few in Europe. The pictures supplementing The Christmas Globe this year are the best that have yet been issued with that publication. In all respects it is most creditable and attractive number.

The Toronto News on Tuesday evening gave expression to the following emphatic utterance in its editorial columns: "A patriotic and courageous campaign against local option law began." Now, however, unanswerable may be the argument in favor of the right of men to use liquor if they so desire, it is impossible to argue that the community is bound to license social drinking places. This is the view of many thousands of citizens who are no "Prohibitionists" and who have a high regard for personal liberty as the principles of the liquor business. The bar is a nuisance and a danger and it is another short of ridiculous to contend that it must be kept open in the interests of personal liberty."

The title of financial matters in the United States has evidently turned. The Chicago Canadian American says: "Business conditions are returning so speedily to their pristine satisfaction that even the great business optimists are astonished at the change for the better noticed the past ten days. The money institutions have settled back to former routine activity, stocks and bonds are both behaving thoughtful manner, and 'boom time' soon enough to be ushered in with the birth of the New Year." One good evidence that things are settling in the fact that one of the big railroads has just ordered back to work 6,000 men laid off during the panic. When the captains of industry "get busy" in this manner, there can be no doubt that the golden era of economic peace and prosperity is actually at hand."

NO PAVEMENT APPEALS.

The Engineer's Report of the Year's Permanent Pavement Passed.

BY-LAW PASSED BY COUNCIL.

As per advertisement the Municipal Council met on Monday evening as a Court of Revision to consider appeals against the assessment for pavements for the present year.

The meetings were all present.

The Clerk reported that no appeals had been entered.

Mr. H. P. Moore requested that the Council consider the male position in which ratepayers owing corner lots are placed, when pavements on the frontage tax are constructed on two sides of the property; also the anomaly existing in these cases where one payment was had under the 100 per cent. by-law and the other under the 50 per cent.

No motion was taken, but Dr. Gray expressed the opinion that a special act of parliament should be secured to put all the properties under frontage tax on a basis of equality. Some action must be taken for the inequality has created a grave injustice affecting the property of a number of ratepayers.

At the last meeting of Oakville Town Council action was taken whereby all ratepayers who have corner lots where cement walks have been built are allowed a flagstone rebate of one-quarter.

After adjournment as Court of Revision Council met for regular business.

The only business transacted was the passing of the by-law providing for the loan of debentures for payment of the pavements just built. The debentures amount to \$60,000 and they are to be issued at five per cent.

Council then adjourned to meet on Monday, 16th inst.

THE BIBLE IN 409 LANGUAGES.
Requiescent Illustrated Address by
Rev. James Gibson, M.A., of
Toronto.

AT THE BIBLE SOCIETY MEETING.

The annual meeting of Acton Branch of the Canadian Bible Society was held in the Methodist Church last Wednesday evening and was one of the most interesting and largely attended sessions of the society ever held in town. Mr. Robert Wallace, President, occupied the chair.

The speaker of the evening was Rev. James Gibson, M.A., of Toronto, who is the Upper Canada Auxiliary Secretary of the Society. Rev. Mr. Gibson has given the work of the Bible Society very careful study for many years, and in all its ramifications and exploits he is thoroughly conversant. His address was crowded with interesting facts illustrative of the work of the Bible Society during the century of its existence, and the gratifying results following the generous spread of gospel truth through millions of copies of the word of God issued from the presses of the Bible Society.

The splendid address was rendered very vivid and impressive by the use of a large number of fine light views. The audience was given a delightful journey to the various countries of the earth where the Bible has been distributed.

Special reference was made to the progress of the generous spread of the printed word to the thousands of people who are emigrating into Canada at present, many of them from foreign countries, at the rate of 1000 persons a day. This invasion of Canada by foreign races in over-crowding streams is a challenge to every patriot and Christian. What a jangling babel of foreign tongues among the thousands who are coming from the Continent of Europe! The serious fact about these is that three-fourths of them come from the backward and less enlightened eastern religions of Continental Europe—Galloans, Poles, Buckwinkians, Hungarians, Bohemians, Russians, Croatians, Slovaks, Russians, Poles, Italians, etc. It is one of the appealing sights of the world—that peoples, prosecution of motley humanity in homogeny. Among them, unknown figures, grained faces, and strange baggage of all odds and ends.

When a gospel in their own tongue and type is given them on landing at our seaports, they are visibly touched and moved; it is the one touch of kindness that makes the new world kin. Thousands of scripture portions are distributed among the immigrants as they disembark at Quebec, St. John and Halifax. A blade stand is placed in the O.P.R. waiting hall, Windsor, and both there and throughout the city the colporteur is busy selling at low prices the bread of life to those promiscuous transients who suffer from a "famine of the Word." Other Bible-sellers are at work among the slums and among the miners and Asiatics in British Columbia, Alberta, among the lumbermen on the Ottawa, or in New Brunswick, among the mixed races in Montreal and Nova Scotia.

These foreigners are soon to become citizens by the ton thousand and give shape to the new nation. The great peril is that they will cast off all old restraints and religious influences and live only for wheat-harvests and dollars. While all are remaking their lives and are open to new influences, every patriot who covets true greatness for his country and every Christian who cares for the souls of men will help to put into all hands and homes that book which builds up righteous nations and leads the feet of the strayed into the siner into the way of salvation.

The Biblical Society has already helped the gospel to speak in 409 different languages and dialects; eight new names were added to its list of versions last year. It has issued, since its foundation in 1881, over 201 million copies of the Scriptures, and has expended altogether nearly \$15,000,000. At the close of the able address a cordial vote of thanks was moved by H. P. Moore and seconded by James Mcintosh.

Rev. J. C. Wilson, D.D., Matthew Wilson, M.A., and G. W. Barker were present and took part in the proceedings.

The officers for the coming year were elected as follows: President—Mr. James Cameron; Vice-Pres.—Rev. G. W. Barker; Secy-Treas.—A. T. Brown; Executive—same as last year.

Learn Dress-Making By Mail
in your spare time at home, or
Take a Personal Course at School.

To enable all to learn we teach on cash or instalment plan. We also teach a personal class at home once a month. Classes commence last Tuesday of each month. These lessons teach how to cut, fit and put together any garment from the plainest skirt suit and to the most elaborate dress. The whole course consists of seven lessons.

We have taught over seven thousand, dress-making, and guarantee to give five hundred dollars to anyone who can make a garment in seven days and 40c. You cannot learn dress-making through this course teaches if you work in shops for years. Beware of imitators who charge fees for dress-cutting school. This is the only experienced Dress Cutting School in Canada and elected by name in any other country.

Address Mr. Taylor, 31 Erie St., Stratford, Ont., Canada.

SANDERS' DRESS-CUTTING SCHOOL

31 Erie St., Stratford, Ont., Canada

WANTED AT ONTARIO: We have failed to find a teacher and amper a number of sons and daughters to teach in the schools of the neighbourhood. Those who have taught in the schools of the neighbourhood are invited to apply for the position.

The funeral of the late Mr. Taylor was held in the Methodist Church and conducted by Rev. Mr. Taylor, of Rockwood. Interment took place in the Rockwood cemetery, Action. The pall bearers were Messrs. Robert Wansborough, Wm. Y. Grey, W. Lamb, Wm. Murray, Edwin Cripps, and Jas. Moore, Jr.

The following friends from a distance attended the funeral of the late Mr. Taylor: Mr. and Mrs. Jas. Taylor and daughter, Toronto; Mr. G. Wilson, Oakwood; Mr. Robt. Elliot, Toronto; Mr. Chas. and Misses Beattie and Mr. Ethel Taylor, Toronto; Mr. and Mrs. Fred G. Jefferson, of Ardkill.

Quite a number from here took in the I.O.O.F. drama in Action on Thursday night and speak very highly of it.

—85 percent of headaches are the result of hysteria. Oils, Chas. J. Western's scientifically adjusted glasses will remove eye strain with all its attending afflictions. Consult him in Brown's Drug Store, Monday, Dec. 16th.

The Best System

Of Commercial Training known to modern business education is the successful operation of the GUELPH BUSINESS COLLEGE.

This college has demonstrated its superiority to all other business colleges in the fact that its students

have been taught to teach and practice it.
